

Fact Sheet

BASF Canada Regina, Saskatchewan Site

Address: 295 Henderson Drive, Regina, Saskatchewan, Canada

Start of Production: 1981

Location: Approximately 5 km from the Regina International Airport

Site Leader: Kevin Bruneau

Number of Employees & Contractors: ~100

The Regina site focuses on the formulation, filling, and packaging of BASF agricultural products. The site produces products for growers across North America including Liberty, Ignite, Viper, Varisto, Basagran, Solo ADV and Merge.

BASF is active in the Regina community, supporting science education, ecology, health and safety programs and other local community-based initiatives through monetary donations and employee volunteer efforts. The site has supported local organizations, including Special Olympics Regina, STARS and the Nature Conservancy Of Canada. Since 2013, Regina Humane Society, Hope's Home, Ag in the Classroom / Little Green Thumbs and Regina Community Fridge.
