BRAMPTON, ONTARIO

Address: 1800 Clark Blvd., Brampton, Ontario, Canada.

Start of Production: 2001

Location: Approximately 16 km northwest of Pearson International Airport.

Site Manager: Fortunato Sanchioni

Number of Employees: 8

Products/Uses:

BASF Canada's Brampton site produces concrete admixtures that improve the overall performance, durability and aesthetic properties of concrete. Products are distributed to customers across Canada and used in ready mix, manufactured concrete, precast and underground construction segments.

Community Relations:

BASF is active in the Brampton community, supporting science education, ecology, health and safety programs and other local community based initiatives through monetary donations and employee volunteer efforts. The company has also brought Kids' Lab, a series of hands-on chemistry workshops developed by BASF for children between the ages of 6-12, to students in the Brampton community.
