ST. LEONARD, QUEBEC

Address:	8325 Pascal Gagnon, St. Leonard, Quebec, Canada.
Start of Production:	1988
Location:	Approximately 24 km northeast of Montréal-Pierre Elliott Trudeau International Airport.
General Manager:	Joe Galati
Number of Employees:	3

Products/Uses:

BASF Canada's St. Leonard site produces concrete admixtures that improve the overall performance, durability and aesthetic properties of concrete. Products are distributed to customers across Canada and in parts of the US and used in ready mix, manufactured concrete, precast and underground construction segments.

Community Relations:

BASF is active in the Montreal community, supporting science education, ecology, health and safety programs and other local community based initiatives through monetary donations and employee volunteer efforts. In 2015, BASF donated \$3,000 to Moisson Montreal in support of the food bank's Meat Recovery program.

The company also brought Kids' Lab, a series of hands-on chemistry workshops developed by BASF for children between the ages of 6-12, to students in the Montreal community.
