WINDSOR, ONTARIO

Address: 845 Wyandotte Street West, Windsor, Ontario, Canada

Start of Production: 1985

Location: Approximately 3 km from the Ambassador Bridge and 13 km northwest of Windsor International Airport.

General Manager: Darryl Ferguson

Number of Employees: 150

Products/Uses:

BASF Canada's Windsor site manufactures both water-borne and solvent-based automotive paints and coatings, including brands like Glasurit®, R-M®, and LIMCO®. These products are used by major automotive manufacturers, as well as collision repair centres across North America.

Community Relations:

BASF is active in the Windsor community, supporting science education, ecology, health and safety programs and other local community based initiatives through monetary donations and employee volunteer efforts. In 2015, the site supported the Greater Essex Board of Education, Essex Region Conservation Foundation and the Multicultural Council of Windsor, Carousel of Nations Festival.

The company has also brought Kids' Lab, a series of hands-on chemistry workshops developed by BASF for children between the ages of 6-12, to students in the Windsor community.
