Address: 845 Wyandotte Street West, Windsor, Ontario, Canada

Start of Production: 1985

Location: Approximately 25 km from BASF Michigan location

Site Leader: Eric Klauber

Number of Employees: ~180

The Windsor site manufactures both water-borne and solvent-based automotive paints and coatings, including brands like Glasurit®, R-M®, and LIMCO®. These products are used by major automotive manufacturers, and collision repair centres across North America.

BASF is active in the Windsor community, supporting science education, ecology, health and safety programs and other local community-based initiatives through monetary donations and employee volunteer efforts. The site has supported local organizations such as the Greater Essex Board of Education, Essex Region Conservation Foundation, the Multicultural Council of Windsor and the United Way and Street Help programs in Windsor. Since 2013, the company has delivered its BASF Kids' Lab chemistry workshops to students between the ages of 6-12 across the country. Most recently, offering the sessions through a virtual series.
