Balance sheet remains strong

Balance sheet September 30, 2015
vs. December 31, 2014*
(in billion €)

Highlights September 30, 2015

- Total assets increased slightly by ~€1 billion to €72.3 billion
- Inventories decreased by ~€1.6 billion
- Trade accounts receivable down by €0.7 billion
- Net debt nearly unchanged at €13.8 billion
- Equity up ~€2 billion and an equity ratio of 42%

Revised Outlook 2015

Outlook 2015

- We aim to increase volumes excluding the effects of acquisitions and divestitures.
- Due to the divestment of the gas trading and storage business as part of the asset swap with Gazprom and the lower oil price we expect sales to be slightly lower than in 2014.
- EBIT before special items is expected to be slightly below the level of 2014. The chemicals business is expected to provide a larger contribution than in 2014. Earnings from crop protection will most likely come in slightly below the level of 2014. In Oil & Gas, results will decline significantly caused by the lower oil price and the divestment of the gas trading and storage business.
- We aim to earn a substantial premium on our cost of capital, but on a lower level than in 2014.

Assumptions 2015
