

WE DO ALL THIS

At BASF, we know the world advances very quickly. That is why **we work to create innovative solutions that help improve people's lives** and contribute to the greatest challenge of our century: protecting the climate.

And we make this a reality with an eye on our local mission: **"We are here to create sustainable chemistry and to grow with you"**, and we do so with the support of the Country Cluster Iberia's **sustainability policy**, a set of pillars and guidelines that shapes our sustainability strategy.

ENVIRONMENTAL PROTECTION

We inspect our facilities and develop comprehensive plans intended to **reduce our environmental impact**.

QUALITY AND CONTINUOUS IMPROVEMENT

We promote the **responsible and ethical management of our products**. What's more, we actively listen to our customers to learn about and meet their expectations.

HEALTH

We **preserve the health** of our staff, contractors, customers and communities.

SAFETY

We promote a culture of safety, we develop relevant aspects in the safety management of processes and we **generate a safe working environment**.

EMERGENCY RESPONSE

We actively manage **emergency responses**.

CLIMATE NEUTRALITY

We improve the energy performance and we **strive to reduce our carbon footprint**.
