

News Release

BASF leather chemicals business to become part of Stahl Group

- **Company will be a leader in leather chemicals**
- **BASF will hold a minority share in the Stahl Group**

Ludwigshafen, Germany – March 23, 2017 – BASF and Stahl have signed an agreement on Wednesday, March 22, 2017 to combine BASF's leather chemicals business with Stahl Group. The transaction is subject to approval by the relevant authorities and the closing is expected to take place in the fourth quarter of 2017.

Under the terms of the agreement, BASF will receive a 16% minority stake in the Stahl Group. Furthermore, BASF will supply significant volumes of leather chemicals to Stahl under mid to long-term supply agreements. The transaction comprises BASF's global leather chemicals business, as well as the leather chemicals production site in L'Hospitalet, Spain. Around 210 positions globally are in the scope of the transaction, of which about 110 are in Asia.

“This partnership is the right step for BASF's successful leather chemicals business,” says Michael Heinz, Member of the Board of Executive Directors of BASF SE. “With complementary strengths, BASF and Stahl are creating a leading company in leather chemicals with a strong focus on innovation.”

“Our customers will benefit as together we can leverage unparalleled strength in production, technical expertise, innovation and sustainability along the entire leather-making value chain,” says Dr. Christian Fischer, President Performance Chemicals.
