FACT SHEET

Port Arthur, Texas

ADDRESS | Highway 366, Gate 99, Port Arthur, Texas
OWNERSHIP | BASF Corporation – 60%
TotalEnergies Petrochemicals, LLC. – 40%
LOCATION | The Port Arthur site is located 15 miles southeast of Beaumont and Interstate 10, and 95 miles east of Houston
SITE MANAGER & VP | Abe Ahmed

A world scale petrochemical complex that converts a wide range of cracker feedstocks such as ethane, propane, butane and naphtha into ethylene, propylene, butadiene, and other chemical raw materials.

Products/uses:

- Ethylene is used for anti-freeze, polyester, plastics, and pharmaceuticals.
- Propylene is used for plastics, diapers, and adhesives.
- Butadiene is used in the production of rubber and plastics.

Community Relations

The Port Arthur plant and employee volunteers support numerous charitable and community organizations, including United Way, Gift of Life, LifeShare Blood Centers, Be the Match and area educational programs. Port Arthur employees help to bring a variety of science, technology, engineering, art and math (STEAM) programs to local schools. BASF TotalEnergies Petrochemicals, LLC. understands the importance of engaging students in science education at an early age, realizing that today's students will be the thinkers, innovators and leaders of the future.

Economic Impact

- Annual Payroll of $66.1 million
- State & Local Use Taxes – $4 million; Property Taxes – $4 million

**Year-end 2025 data*
