## **Congresswoman Sheri Biggs visits BASF Seneca to learn about local manufacturing**

SENECA, SC, February 27, 2026 – BASF’s Seneca site recently welcomed Congresswoman Sheri Biggs, who represents South Carolina’s third Congressional District and is currently serving her first term in the U.S. House of Representatives. The visit provided an opportunity for the Congresswoman and her staff to learn more about local manufacturing operations and the site’s role in supporting industry, jobs, and economic growth in Oconee County.

Congresswoman Biggs participated in a joint presentation with leaders from BASF Corporation and BASF Environmental Catalyst and Metal Solutions (ECMS) teams before joining site leadership for a brief tour of key production areas. Her visit highlighted the site’s commitment to safety, innovation, and high-quality manufacturing.

“It was a pleasure to visit BASF’s Seneca facility and see firsthand the innovation and hard work happening right here in the 3rd District,” said Congresswoman Sheri Biggs. “Strong manufacturing partners like BASF support good-paying jobs and help drive economic growth across our region. I appreciate the team’s commitment to excellence and their investment in our local community.”

“Hosting Congresswoman Biggs was an honor for our team,” said David Sanders, Interim Site Director at BASF ECMS Seneca. “Her visit provided a valuable opportunity to showcase the strong performance and passion of our workforce. We appreciate her interest in our operations and the people who make our work possible every day.”

The Seneca site is an important part of BASF’s manufacturing footprint in South Carolina. Employees at the site are dedicated to producing safe, reliable, and sustainable materials used in everyday consumer products used around the world.

BASF’s presence in South Carolina supports hundreds of jobs across multiple locations and includes ongoing investments that strengthen both the company and the communities it serves.

#### **About BASF**

BASF Corporation, headquartered in Florham Park, New Jersey, is the North American affiliate of BASF SE, Ludwigshafen, Germany. BASF has more than 15,600 employees in North America and had sales of \$18.1 billion in 2025. For more information about BASF’s North American operations, visit [www.basf.com/us](http://www.basf.com/us).

At BASF, we create chemistry for a sustainable future. Our ambition: We want to be the preferred chemical company to enable our customers’ green transformation. We combine economic success with environmental protection and social responsibility. Around 108,000 employees in the BASF Group contribute to the success of our customers in nearly all sectors and almost every country in the world. Our portfolio comprises, as core businesses, the segments Chemicals, Materials, Industrial Solutions, and Nutrition & Care; our standalone businesses are bundled in the segments Surface Technologies and Agricultural Solutions. BASF generated sales of around €60 billion in 2025. BASF shares are traded on the stock exchange in Frankfurt (BAS) and as American Depositary Receipts (BASFY) in the United States.
