

# Springing into Action with Sports Surface Solutions

## ADNOC Project, Abu Dhabi & Dubai

### Project:

ADNOC Project

### Location:

Abu Dhabi & Dubai

### Project Completion:

June 2021

### Client:

ADNOC

### Applicator:

Mister Shades

### Sector/Surface:

Playground/Original concrete base

### Product Function:

Performance and Aesthetics

### Products Used:

Iso 136/49 Aromatic Binder

### Background

The client required a sustainable and performance material to be applied to the 7000 m<sup>2</sup> playgrounds.

### Challenges

The application had to be carried out in sections with various designs for each individual playground, within a specific timeline given by the client. The delivery of the materials and timing of the application had to be aligned to ensure the project was a success.

### Solutions

BASF's Sports Flooring Solution polyurethane system, the most suitable for any applications where EPDM & SBR Rubbers requires firm bonding was proposed for this project.

### Customer Benefits

The Sports Surface Solutions system was suited to this application, due to the viscosity of the system. The material bound well to the rubber and applied easily to the surface.

### **Project facts at a glance**

- BASF provided comprehensive technical advice and economical solutions to achieve the required performance.
- Excellent support and guidance from BASF's Technical Services team, including on-site training and periodic quality assessments to ensure application was being carried out correctly.

### **Other BASF structural references**

- Al Garhoud Park - UAE
- Private School, Swimming pool area - UAE

### **Product at a glance**

- Water- permeable
- Strong & Flexible
- Good Aesthetics
- Cost-Effective
