Source: FE fundinfo as at 31/12/2023. Performance in the chart is shown up to and including the last working day of the current quarter. You shouldn't use past performance as a measure of future performance.

Fund performance data is based on a single price basis, net of fees and expenses deducted from the unit price. Other charges may apply, which are specific to individual plans.

\*This is the benchmark that has been selected to compare the performance of the fund.

### Things you need to know

All funds carry some risk and you should consider these risks before making an investment decision. The value of investments and any income from them can fall as well as rise and will be reduced in real terms by the effects of inflation.

The main factors which may increase the risk of this fund include:

- The amount invested in company shares
- The split between government and corporate bonds
- The extent to which the fund invests in high yield assets
- The amount held in overseas assets
- Any concentration in specific areas or sectors

**All or some of the investments are made through a reinsurance arrangement so if the linked life insurance company(ies) were to fail you may lose some or all of your money and this will not be covered by the Financial Services Compensation Scheme.**

The Scottish Widows fund invests in the underlying funds. Blended funds are routinely rebalanced to target allocations. However, actual proportions may vary from the target at a point in time as a result of differences in performance of the underlying assets.

### Asset Split as at 31/12/2023

Due to rounding figures may not add up to 100%.

This information is based on available data for the underlying Scottish Widows pension fund(s) and target fund holdings shown. Scottish Widows sources its funds data from FE fundinfo. The timeliness of this data is affected by the speed and regularity of their publication by the fund administrator.

## Further Information

**Yearly Fund Charges** - This figure includes the total charges and expenses that are deducted from the fund and are reflected in the unit price.

**Cumulative Performance** - Cumulative Performance shows the total growth of the fund over a specified period of time, expressed as a percentage of the value at the start of the period.

**Annualised Performance** - Annualised Performance shows the conversion of the growth of the fund over 3, 5 and 10 year periods into an equivalent annual rate, to aid comparison between different investments. The annual return is compounded over the time period being measured.

**Rolling Year Performance** - Rolling Year Performance shows the growth of the fund in percentage terms over each of the last five calendar years. The periods run up to the latest calendar quarter end (March, June, September and December).

**Fund Management** - Funds were managed by Zurich Assurance Ltd until 30 June 2019.
