With effect from 30/09/2022, Legal & General Investment Management (LGIM) have replaced the underlying Fund's benchmark as part of the changes to introduce ESG tilts into the investment strategies of the underlying funds which means that assets will only be held if the issuer meets LGIM's socially responsible investing ('SRI') requirements and ESG ratings criteria. The previous performance comparator was the LGIM Pre Retirement Benchmark (Midday), which was based on composites of the benchmarks of the underlying building block funds sections into which they invest. LGIM have changed the performance comparator for the Pre-Retirement fund to provide a more meaningful performance comparison for investors by using new customised indices based on FTSE Annuity indices which reflect fixed rate annuities.

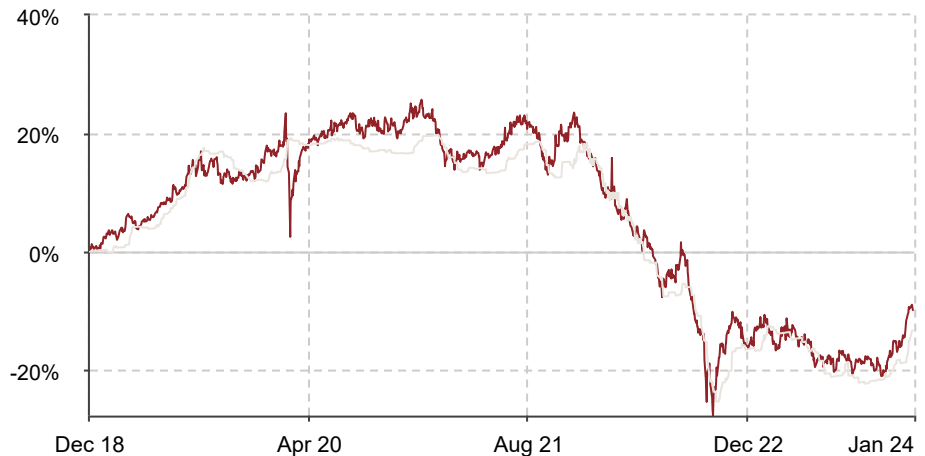

The benchmark used by this Fund is based on a FTSE Annuities Custom Index.

These are the charges that are deducted within the unit price.
