

## Truck processing to commence at “Abfertigung Nord” check-in

From September 5, 2022, incoming deliveries (inbound) of packed and loose goods, and outgoing deliveries (outbound) of packed goods, will be processed at the new “Abfertigung Nord” facility, in check-in building Z541. After processing, all vehicles will enter and leave the site via Gate 15.

Truck processing at Gate 11 will close at the same date.

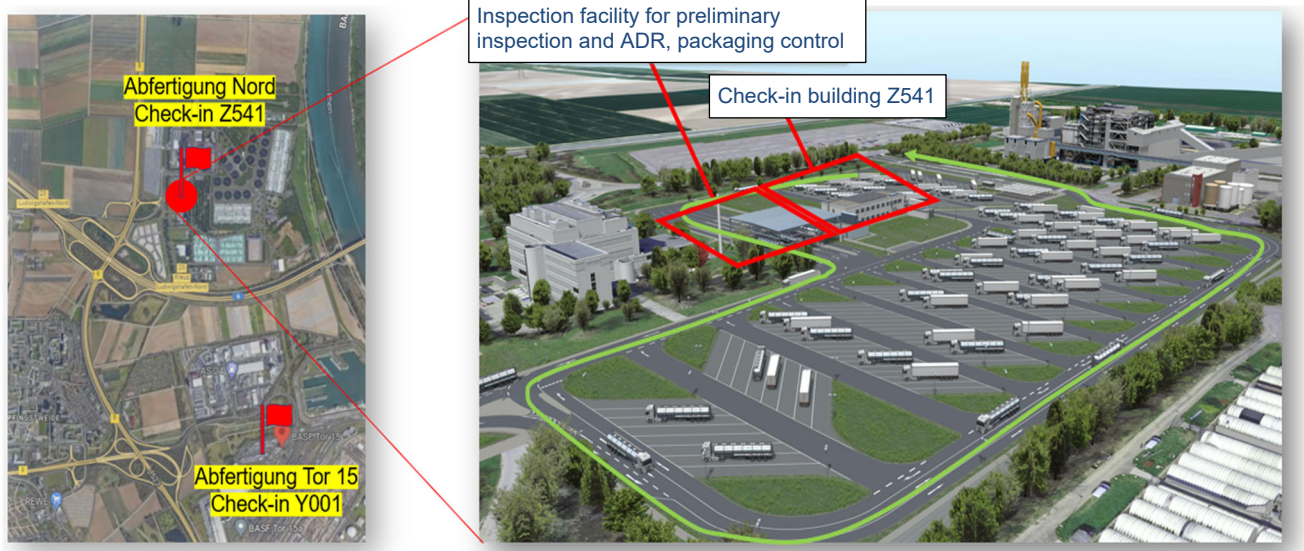

Outgoing deliveries (outbound) of loose goods will continue to be processed in check-in building Y001 at Gate 15.

Outside of normal operating hours, a night, weekend and holiday service is available at Gate 15 / check-in Y001.

## Site map

## Diversion from “Abfertigung Nord” check-in towards BASF Gate 15 via Petersau intersection

A temporary diversion via the Petersau intersection will be put in place for trucks that were processed at the “Abfertigung Nord” check-in and are leaving the site to head south towards BASF Gate 15.

The “Im Spitzenbusch” bridge is not suitable for heavy goods vehicles due to its road width and will be renewed from the end of 2022. The diversion will remain in place until roadworks are completed.

Trucks processed at “Abfertigung Nord” with destination BASF Gate 15 must follow the diversion signs.
