The speed limit is 20 km/h. The German road traffic regulations apply.

Smoking is prohibited throughout the entire factory premises and you are not allowed to smoke in your vehicle! Areas in which you may smoke are specially marked.

For your own safety and health please wear the relevant protective equipment in working areas marked.

Parking is only permitted in spaces marked.

It is strictly prohibited to bring in and consume alcoholic drinks or any other intoxicating substances. Nor may site premises be entered under the influence of alcohol or drugs.

You may only enter certain buildings after checking in at the building registration office. Please follow the instructions issued by Security Service at the entrance gates.

You may only enter such areas wearing safety shoes with antistatic soles. Instead of safety shoes you can also wear sturdy footwear with electrostatic discharge strips. When you have put on the discharge strip, it must be checked with the tester to make sure it is working properly.

Photography is prohibited everywhere on factory premises.

Parts of the factory premises are under CCTV surveillance.

Machinery, installations and switches must not be operated or put into operation.

Our company is only obliged to pay damages in respect of claims which are covered by our liability insurance policy.

## Safety Instructions for Visitors to the BASF Coatings GmbH Würzburg Plant

# Welcome to BASF Coatings GmbH

BASF Coatings GmbH belongs to the BASF Group, the largest chemical company in the world. At the Würzburg site we manufacture paint products for automotive OEM coating, using state-of-the-art, safe manufacturing processes.

In order to achieve our objective of accompanying you safely throughout your visit to our plant, we would like to familiarise you with our most important safety regulations. Please observe our regulations and assist us by acting sensibly. If you have any questions, we shall be glad to answer them. We do hope your visit to our premises will be both safe and successful.

Room
------

# BASF Coatings GmbH Würzburg plant

Factory shops and rooms with an **explosive atmosphere** are marked "EX". Please bear in mind that additional regulations and rules of conduct apply. Appliances which are **not explosion-proof must not be used** in areas marked "EX" or taken into such areas. Examples of such appliances are mobile phones, remote keyless systems, cameras, motor vehicles, transport vehicles, walkietalkies, tools, torches, small appliances such as pocket calculators, cigarette lighters, matches, etc.

Bei Feueralarm oder Ausströmen von CO<sub>2</sub> Raum sofort verlassen!  
**Lebensgefahr!**  
Mit CO<sub>2</sub> durchsetzte Räume dürfen erst nach gründlicher Durchlüftung wieder betreten werden.

Buildings with **automatic fire-extinguishing systems** are marked with a "Caution" sign. In the event of fire windows and doors close automatically and rooms are flooded with carbon dioxide.

If you hear a klaxon or horn, leave the building immediately. There is an acute **lethal hazard** if you remain in the building!

It is not possible to rule out risks resulting from **electromagnetic fields**. Persons wearing medical devices on or in the body must tell this in advance.

Proceed to a safe place: in the event of an alarm and if the plant is being cleared, proceed to the assembly point immediately, warn any people in danger and take any helpless persons with you.
