SUPPLEMENTAL AND REPLACEMENT INFORMATION

I. Supplemental information pertaining to RISK FACTORS

The section "RISK FACTORS REGARDING BASF SE AND BASF GROUP – Risks related to the issuer's and guarantor's business activities and industry – Market growth risks" on p. 9 to 10 of the Prospectus shall be supplemented by the following:

"The current dynamics of the coronavirus, and its ramifications on social life, already impact the global economy and pose significant risks. BASF is taking measures to adapt to the situation by adjusting production according to demand and raw material supply in close collaboration with customers, suppliers and authorities. Future strong decline in demand or supply disruptions bear additional uncertainties for BASF and might only partially be mitigated by governmental measures."

II. Supplemental and replacement information pertaining to BASF SE AS ISSUER AND GUARANTOR

1. The section "STATUTORY AUDITORS" on p. 22 of the Prospectus shall be supplemented by inserting the following after the first paragraph:

"The following selected financial data for the year 2019 are excerpted from the Consolidated Financial Statements of BASF Group, which have been audited by KPMG AG Wirtschaftsprüfungsgesellschaft, THE SQUAIRE, Am Flughafen, 60549 Frankfurt am Main, Germany, as the independent registered public accounting firm for BASF and for which an unqualified auditor's report has been issued and from the unaudited consolidated quarterly financial statements of BASF Group as of March 31, 2020¹."

2. The second paragraph of the section "STATUTORY AUDITORS" on p. 22 of the Prospectus shall be supplemented by the following:

"For further information, please see Note 1 of the Consolidated Financial Statements 2019 incorporated by reference into this Prospectus."

¹ Some of the investments accounted for in the Q1 statement using the equity method are not an integral part of the BASF Group. These include, in particular, the shares in Wintershall Dea GmbH, Kassel/Hamburg, Germany, and Solenis UK International Ltd., London, United Kingdom. To increase reporting transparency, these will be classified in the future as purely financial investments and reported separately from the shareholdings that are integral to the main business activities of the BASF Group. One material equity-accounted interest that has been classified as integral is BASF-YPC Company Ltd., Nanjing, China. Consequently, in the future, income from non-integral companies accounted for using the equity method will no longer be presented in the BASF Group's EBIT and EBIT before special items, but under net income from shareholdings. Due to its increased significance, this will be presented as a separate subtotal within income before income taxes and is no longer part of the financial result. Integral and non-integral investments accounted for using the equity method will also be shown separately in the balance sheet. The statement of income for 2019 has been restated accordingly. For more information, see Restated figures 2019 reflecting the Reclassification of Non-Integral Equity-Accounted Companies on page 18 of the Q1 statement 2020.

The unaudited consolidated selected financial data of BASF Group as of March 31, 2020, contained in BASF's Quarterly Statement for the First Quarter 2020 on pages 17 – 21, are incorporated by reference into this Prospectus."

6. The first paragraph of the section "GENERAL INFORMATION ABOUT BASF SE - HISTORY AND DEVELOPMENT OF THE ISSUER – Share capital" on p. 25 to 26 of the Prospectus shall be replaced by the following:

"As of the date of this Prospectus as supplemented by the First Supplement, the fully-paid share capital of BASF is unchanged since the date of the last published audited financial statements as of December 31, 2019 and amounts to EUR 1,175,652,728.32 divided into 918,478,694 registered shares with no par value (*Namensaktien*) ("**BASF Share(s)**")."

7. The section "GENERAL INFORMATION ABOUT BASF SE - HISTORY AND DEVELOPMENT OF THE ISSUER – Acquisitions / Divestitures" on p. 26 to 28 of the Prospectus shall be supplemented by the following:

"On September 20, 2019, BASF announced to sell its ultrafiltration membrane business to DuPont, which was completed on January 2, 2020. The divestiture includes the shares of Inge GmbH, the business' international sales force, its headquarters and production site in Greifenberg, Germany, and certain intellectual property currently owned by BASF SE. The ultrafiltration membrane business had been part of BASF's Performance Chemicals division. The division's portfolio includes plastic additives, fuel and lubricant solutions, oilfield chemicals and mining solutions as well as kaolin minerals.

On October 7, 2019, BASF announced to invest EUR 20 million into Quantafuel, a specialist for pyrolysis of mixed plastic waste and purification of pyrolysis oil, headquartered in Oslo, Norway. The investment will be facilitated via the subscription of new shares and via the grant of a convertible loan. Together, the partners aim to further develop Quantafuel's technology for chemical recycling, consisting of an integrated process of pyrolysis and purification, towards optimizing the output for the use as feedstock in chemical production. In a second step, Quantafuel also plans to license the jointly developed technology to other parties.

On November 18, 2019, BASF acquires the 3D printing service provider Sculpteo. To continue to expand its position as a leading service provider in the additive manufacturing sector, BASF New Business GmbH has formally agreed to acquire the online 3D printing service provider Sculpteo. The agreement was signed on November 14, 2019 and the closing of this transaction was on November 18, 2019. The acquisition of the French 3D printing specialist based in Paris and San Francisco will enable BASF 3D Printing Solutions GmbH, a wholly-owned subsidiary of BASF New Business GmbH, to market and establish new industrial 3D printing materials more quickly. Sculpteo's management team fully supports the acquisition and will remain in place to provide customers and partners with this expanded service spectrum.

On December 21, 2019, Lone Star Funds, a global private equity firm, announced to acquire BASF's Construction Chemicals business. The purchase price on a cash and debt-free basis is EUR 3.17 billion. The transaction is expected to close in the third quarter of 2020, subject to the approval of the relevant competition authorities.

On January 31, 2020, BASF closes the acquisition of its polyamide business from Solvay. The transaction broadens BASF's polyamide capabilities with innovative and well-known products such as Technyl®. This will allow BASF to support its customers with even better engineering plastics solutions, e.g., for autonomous driving and e-mobility. The transaction also enhances the company's access to growth markets in Asia as well as in North and South America. Through the backward integration into the key raw material adiponitrile (ADN), BASF will now be present along the entire value chain for polyamide 6.6 and improve its supply reliability. The purchase price for the polyamide business acquired by BASF on a cash and debt-free basis amounts to EUR 1.3 billion; sales generated in 2018 were about EUR 1.0 billion. The business will be integrated into the Performance Materials and Monomers divisions of BASF."

11. The section "ORGANIZATIONAL STRUCTURE - Employees" on p. 34 to 35 of the Prospectus shall be supplemented by the following:

"As of December 31, 2019, BASF Group employed a workforce of 117,628 employees worldwide. About 45.9% of the workforce is based in Germany. In 2019, BASF Group spent EUR 10,924 million on wages and salaries, social security contributions and expenses for pensions and assistance. Personnel expenses increased by 2.5% compared to the previous year. The increase in personnel expenses was due primarily to higher expenses for the long-term incentive program, a higher level of wages and salaries and the higher average number of employees resulting from the acquisition of significant parts of Bayer's business. Offsetting factors were the merger of the oil and gas businesses of BASF and DEA in the joint venture Wintershall Dea, as well as the decrease in expenses for pension benefits due to plan curtailments.

The following table details BASF Group's workforce on a regional basis as of December 31, 2019 and 2018, respectively.

	2019	2018
Europe	72,153	75,188
Thereof Germany	54,028	55,839

Total	117,628	122,404"

12. The section "ORGANIZATIONAL STRUCTURE – Credit Ratings " on p. 35 of the Prospectus shall be replaced by the following:

"Standard & Poor's Global Ratings ("**Standard & Poor's**")^{2,6} has assigned the long-term credit rating "A"^{3,4} (outlook negative) to BASF. Moody's Investors Service Ltd. ("**Moody's**")^{5,6} has assigned an "A2"^{4,7} rating (review for downgrade)."

² Standard & Poor's is established in the European Community and is registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council of September 16, 2009 on credit rating agencies, as amended (the "**CRA Regulation**").

³ Standard & Poor's has assigned the long-term credit rating A (outlook negative) to BASF, which indicates that the Issuer has a strong capacity to meet its financial commitments but is somewhat susceptible to adverse economic conditions and change in circumstances. The "negative" outlook reflects that Standard & Poor's may lower the rating in the next 6 to 24 months.

⁴ A credit rating assesses the creditworthiness of an entity and informs an investor therefore about the probability of the entity being able to redeem invested capital. It is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

⁵ Moody's is established in the European Community is registered under the CRA Regulation.

13. The section "SIGNIFICANT CHANGES/TREND INFORMATION" on p. 54 of the Prospectus shall be replaced by the following:

"There have been no significant changes in the financial position of BASF Group since March 31, 2020. There has been no material adverse change in the prospects of BASF Group since the date of the last published audited financial statements as of December 31, 2019. There has not been any significant change in the financial performance of BASF Group since March 31, 2020, the end of the last financial period for which financial information has been published, to the date of the Prospectus as supplemented by this First Supplement."

14. The heading of the section "OUTLOOK FOR 2019" on p. 54 of the Prospectus shall be replaced by the new heading "OUTLOOK" and this section shall be supplemented by the following:

"The sales and earnings forecast for the 2020 business year provided by BASF on February 28, 2020, will not be able to be met. The company is therefore withdrawing its outlook. It is currently impossible to reliably estimate both the length and the further spread of the coronavirus pandemic, as well as future measures to contain it. Consequently, concrete statements on the future development of sales and earnings cannot be made at present.

BASF expects to be severely impacted by the economic consequences of the global drop in demand and production, in particular as a result of the ongoing production stoppages in the automotive industry. The effects of the coronavirus pandemic will also impact other customer industries. As a result, the company anticipates a considerable decline in sales volumes in the second quarter of 2020. BASF currently expects a slow recovery for the third and fourth quarters of 2020; how the situation develops is, however, extremely uncertain at this point in time.

BASF will quantify its expectations for the future development of sales and earnings as soon as it is again possible to make a reliable forecast."

15. The section "RECENT EVENTS" on p. 55 to 56 of the Prospectus shall be supplemented by the following:

"On October 17, 2019, ADNOC, Adani, BASF & Borealis sign a Memorandum of Understanding to further evaluate their collaboration for a chemical production complex in Mundra, India. This is the next step of BASF's and Adani's investment plans as announced in January 2019. With the inclusion of ADNOC and Borealis as potential partners, the parties are examining various structuring options for the chemical complex that will leverage the technical, financial and operational strengths of each company. The total investment is estimated to be up to USD 4 billion.

On October 21, 2019 BASF announces to reduce the size of its Board of Executive Directors from seven to six members effective January 1, 2020, as part of ongoing efficiency measures. Board member Sanjeev Gandhi will leave the company at his own request. He was appointed to the Board in December 2014.

On November 23, 2019, BASF launched its smart Verbund project in Zhanjiang, China and commenced building its first plants. It marks a milestone of the company's USD 10 billion investment project announced in July 2018. The first plants will produce engineering plastics and thermoplastic polyurethane (TPU) to serve the increasing needs of various growth industries in the southern China market and throughout Asia.

Since January 1, 2020, as part of the implementation of BASF's corporate strategy, the operating divisions, cross-functional service units, the regions and a lean Corporate Center have formed the cornerstones of the new BASF organization. This organizational realignment has created the conditions for greater customer proximity, increased competitiveness and profitable growth.

On February 12, 2020, BASF announced a new battery materials production site in Schwarzheide, Germany, as part of its multi-step investment plan to support the European electric vehicle (EV) value chain. This state-of-the-art plant will produce cathode active materials (CAM) with an initial capacity enabling the supply of around 400,000 full electric vehicles per year with BASF battery materials. Innovative cathode materials by BASF increase the performance of batteries, promoting the success of climate-friendly mobility.

On March 6, 2020, Fortum, BASF, and Nornickel have signed a letter of intent to plan a battery recycling cluster in Harjavalta, Finland, serving the electric vehicle market. This would enable a successful 'closed loop' cycle to re-use the critical metals present in used batteries.

On March 17, 2020, BASF announced that due to the rapid spread of the coronavirus (SARS-CoV-2) in Germany, BASF SE will not be able to hold its Annual Shareholders' Meeting on April 30, 2020 at the Rosengarten Congress Center as planned. As a result of the postponement of the Annual Shareholders' Meeting, the proposed dividend cannot be paid out on May 6, 2020 as planned. This is subject to a corresponding resolution on the appropriation of profit by the BASF Annual Shareholders' Meeting. Depending on the progression of the virus and the measures imposed by the relevant authorities, BASF SE aims to hold the Annual Shareholders' Meeting within the statutory period of six months after the beginning of the fiscal year (until June 30, 2020) for companies with the legal form of a Societas Europaea (SE).

On April 9, 2020, BASF announced to hold a virtual Annual Shareholders' Meeting on June 18, 2020.

The company is therefore withdrawing its outlook. It is currently impossible to reliably estimate both the length and the further spread of the coronavirus pandemic, as well as future measures to contain it. Consequently, concrete statements on the future development of sales and earnings cannot be made at present. The dividend proposed by Board of Executive Directors and Supervisory Board for the 2019 business year unchanged at EUR 3.30 per share."
