Outlook 2017

The BASF Group's sales and earnings development exceeded our expectations in the first half of 2017. For the second half of 2017, we expect EBIT before special items to slightly surpass the level of the second half of 2016. For this reason, we have adjusted our 2017 forecast for the BASF Group as follows (previous forecast from BASF Report 2016 in parentheses):

- Considerable sales increase (considerable increase)
- Considerable increase in EBIT before special items and EBIT (slight increase)
- Significant premium on cost of capital with slight increase in EBIT after cost of capital (considerable decline in EBIT after cost of capital)

We have adjusted our expectations for the global economic environment in 2017 as follows (previous forecast from BASF Report 2016 in parentheses):

- Growth in gross domestic product: 2.5% (2.3%)
- Growth in industrial production: 2.5% (2.3%)
- Growth in chemical production: 3.4% (3.4%)
- Average euro/dollar exchange rate of \$1.10 per euro (\$1.05 per euro)
- Average Brent blend oil price for the year of \$50 per barrel (\$55 per barrel)

Forward-Looking Statements

This factsheet contains forward-looking statements. These forward-looking statements are based on current estimates and projections of the Board of Executive Directors and on currently available information. These forward-looking statements are not guarantees of the future developments and results outlined therein. Rather, they depend on a number of factors, involve various risks and uncertainties, and are based on assumptions that may not prove to be accurate. Such risk factors particularly include those discussed on pages 111 to 118 of the BASF Report 2016. The BASF Report is available online at basf.com/report. BASF does not assume any obligation to update the forward-looking statements contained in this factsheet.

Chemicals – The Chemicals segment comprises our business with basic chemicals and intermediates. Its portfolio ranges from solvents and plasticizers to high-volume monomers and glues as well as raw materials for detergents, plastics, textile fibers, paints and coatings, crop protection and medicines. In addition to supplying customers in the chemical industry and numerous other sectors, we also ensure that other BASF segments are supplied with chemicals for producing downstream products.

Performance Products – Our Performance Products lend stability, color and better application properties to many everyday products. Our product portfolio includes vitamins and other food additives in addition to ingredients for pharmaceuticals, personal care and cosmetics, as well as hygiene and household products. Other products from this segment improve processes in the paper industry, in oil, gas and ore extraction, and in water treatment. They furthermore enhance the efficiency of fuels and lubricants, the effectiveness of adhesives and coatings, and the stability of plastics.

Functional Materials & Solutions – In the Functional Materials & Solutions segment, we bundle system solutions, services and innovative products for specific sectors and customers, especially the automotive, electrical, chemical and construction industries, as well as applications for household, sports and leisure. Our portfolio comprises catalysts, battery materials, engineering plastics, polyurethane systems, automotive coatings, surface treatment solutions and concrete admixtures as well as construction systems like tile adhesives and decorative paints.

Agricultural Solutions – The Agricultural Solutions segment provides innovative solutions in the areas of chemical and biological crop protection, seed treatment and water management as well as solutions for nutrient supply and plant stress.

Oil & Gas – We focus on exploration and production in oil and gas-rich regions in Europe, North Africa, Russia, South America and the Middle East. Together with our Russian partner Gazprom, we are also active in the transport of natural gas in Europe.
