We create chemistry for a sustainable future
Cautionary note regarding forward-looking statements

This presentation contains forward-looking statements. These forward-looking statements are based on current estimates and projections of the Board of Executive Directors and on currently available information. These forward-looking statements are not guarantees of the future developments and results outlined therein. Rather, they depend on a number of factors, involve various risks and uncertainties, and are based on assumptions that may not prove to be accurate. Such risk factors particularly include those discussed on pages 111 to 118 of the BASF Report 2016. The BASF Report is available online at basf.com/report. BASF does not assume any obligation to update the forward-looking statements contained in this presentation.
Agenda

1. At a glance
2. Strategic levers
3. Segments
BASF shares – an attractive investment

- **Growth above chemical industry average** – driven by innovative and sustainable products and solutions

- **Broad and resilient portfolio** – with global market access and strong customer relationships

- **Unique Verbund concept** – competitive advantage based on integrated sites, operational excellence and best-in-class technologies

- **Earnings growth and strong cash flow generation** – based on operational and financial strength

- **Long-term value creation with progressive dividend policy** – grow or at least maintain dividend at the previous year’s level
Chemicals – a growth industry
Global annual growth rate of ~3.6%*

Agriculture
Health & Nutrition
Energy & Resources
Construction & Housing
Consumer products
Automotive & Transport
Electric & Electronics

Chemistry as enabler to meet current and future needs

~10 bn
...people by 2050

70%
...of the world population will live in cities by 2050

50%
...more primary energy consumption by 2050

30%
...more food needed by 2050

* Forecast average annual real change 2017 – 2019; BASF Report 2016, p.121
Broad and resilient portfolio
2016: Sales of €57.6 billion; EBITDA of €10.5 billion

* Dividend yield based on share price at year-end
Delivering consistent, long-term value

Current market capitalization: €74 billion*

Average annual performance (with dividends reinvested)

Last 10 years
July 2007 – June 2017

- BASF: +9.4%
- Euro Stoxx 50: +4.4%
- DAX 30: +6.2%

Last 5 years
July 2012 – June 2017

- BASF: +12.0%
- Euro Stoxx 50: +11.8%
- DAX 30: +13.9%
- MSCI World Chemicals: +11.7%

* As of June 30, 2017
Financial targets for the coming years

- **Sales growth** – slightly faster than global chemical production

- **EBITDA growth** – well above global chemical production

- **Deliver attractive returns** – earn a significant premium on cost of capital

- **Remain a strong cash provider** – continuously generate high levels of free cash flow

- **Progressive dividend policy** – grow or at least maintain dividend at previous year’s level
Our priorities

We aim to grow sales and earnings faster than global chemical production in the coming years, driven by

- **Innovations** for a **sustainable future**
- **Investments** in organic growth
- **M&A** opportunities and **portfolio pruning** measures
- **Operational excellence** and **cost discipline**
Outlook 2017 for BASF Group raised

**Outlook 2017**
We have raised our 2017 forecast as follows (previous forecast in parentheses):

- Considerable **sales** increase (considerable increase)
- Considerable increase in **EBIT before special items** and in **EBIT** (slight increase)
- Significant premium on cost of capital with slight increase in **EBIT after cost of capital** (considerable decline in EBIT after cost of capital)
Agenda

1 | At a glance

2 | Strategic levers
   - Portfolio development
   - Investments
   - Innovation
   - Sustainability
   - Operational excellence

3 | Segments
Continuous global portfolio development

Specialties and solutions
- Attractive markets
- Differentiation by customer proximity and innovations

Differentiated commodities
- Attractive markets
- Differentiation by process technologies and integration

~50% ~50%

Growth fields

Innovation pipeline

Acquisitions

Divestment of businesses, e.g., due to lower market attractiveness

Commoditization leads to restructuring

Divestment of businesses, e.g., due to loss of differentiation

Maintaining a balanced portfolio

* Excluding Oil & Gas sales
Portfolio development towards more market-driven and innovative businesses

Acquisitions
- Functional crop care
- Personal care & food
- Omega-3 fatty acids
- Enzymes
- Battery materials
- Specialty plastics
- Selected assets in Oil & Gas
- Refinish coatings
- Surface treatment

~€5.5 billion sales in emerging and innovation-driven businesses

BASF core business
Selected transactions 2010–today

Strong Partnerships
- Gazprom
- PETRONAS
- Sinopec
- Total

Divestitures
- Styrenics
- Fertilizers
- Selected assets in Oil & Gas
- Natural gas trading & storage
- Custom synthesis business
- Textile chemicals
- Polyolefin catalysts
- Industrial coatings
- Leather chemicals

~€21.0 billion sales in businesses with limited fit and differentiation potential
Clear acquisition criteria

Strategic acquisition criteria

We want to acquire businesses which …

- generate profitable growth above the industry average
- are innovation-driven
- offer a special value proposition to customers
- reduce earnings cyclicality

Financial acquisition criteria

We want to acquire businesses which …

- provide a return on investment above the WACC
- are EPS accretive by year three at the latest
Chemetall – a global leader in surface treatment products and services

Significant global presence and record of accelerated expansion in emerging markets

Key facts

- One of the strongest globally managed brands in the sector
- Proprietary manufacturing technologies, rigorous product quality and performance standards
- Leading market positions in the automotive, aerospace and cold forming segments
- Long-standing, service-intensive customer relationships
- Track record of strong growth and high profitability

An excellent strategic fit for BASF Coatings
**Investments in organic growth**
Investments of ~€3.9 billion planned for 2017

**Capex budget 2017–2021 (by segment)**

- **Oil & Gas**: 23%
- **Agricultural Solutions**: 4%
- **Functional Materials & Solutions**: 15%
- **Performance Products**: 21%
- **Chemicals**: 24%
- **Other**: 13%

€19.0 billion

**Capex budget 2017–2021 (by region)**

- **Europe**: 49%
- **Asia Pacific**: 16%
- **North America**: 22%
- **Other**:
  - **Other**: 3%
  - **South America**: 10%
  - **Other**: 3%

€19.0 billion

---

* Including Africa and Middle East, ** Alternative sites currently being investigated*
Investment projects with startup in 2017

**Aroma ingredients complex**
**Kuantan, Malaysia**
- BASF and PETRONAS further expand joint activities in Malaysia
- Investment: around €500 million

**Ammonia plant**
**Freeport, Texas**
- BASF and Yara are building world-scale ammonia plant in the U.S.
- 750,000 tons per year; hydrogen-based process

**Engineering plastics**
**Schwarzheide, Germany**
- Expansion of annual capacity by 70,000 tons
- Increasing BASF’s global compounding capacity to more than 700,000 tons
Innovation will drive future growth

R&D expenditures 2016

- Corporate Research: 21%
- Oil & Gas: 2%
- Agricultural Solutions: 26%
- Functional Materials & Solutions: 21%
- Performance Products: 20%
- Chemicals: 10%

Key facts

- €1.86 billion R&D expenditures in 2016
- R&D expense to sales ratio ~3%
- ~10,000 employees in R&D
- ~3,000 projects
- ~850 new patents in 2016
- Research Verbund: Cooperations with more than 600 excellent partners from universities, startups and industry
- In 2016, sales of >€10 billion from innovations on the market since 2011
Selected key technology capabilities reflect where BASF requires continued effort and resources to safeguard today’s and tomorrow’s excellence in innovation.
Global R&D presence in key markets

BASF R&D sites – regional hubs and sites with specific customer know-how and proximity

- San Diego: Enzymes
- Wyandotte: Materials
- Iselin: Catalysts
- Research Triangle Park: Bioscience Research
- Lemförde: Polyurethanes
- Muenster: Coatings
- Ludwigshafen: Process Research & Chemical Engineering
- Frankfurt: Surface Treatment
- Amagasaki: Batteries
- Suwon: Electronic Materials
- Shanghai: Advanced Materials & Systems Research
- Around 70 BASF R&D sites globally

Headquarters of technology platforms
Selected R&D sites
Sustainable Solution Steering®
Novel methodology to screen and steer our portfolio

- >60,000 product applications analyzed
- 27.2% Accelerators
  - outgrow their markets
  - deliver margins above the average
  - represent majority of BASF’s R&D pipeline
- 68.3% Performers
- <1% Challenged products

Increase the share of Accelerators from 23% in 2014 to 28% by 2020
Innovations for a sustainable future
Examples with significant contributions to sustainability

- SLENTITE® high-performance insulation material
- Trilon M® phosphate alternative for dishwashing detergents
- Acronal® MB – from biomass to dispersions
- ecovio® biodegradable polymer solution
- Green Sense® resource-efficient concrete production
- FWC™ Four-Way Conversion catalyst removes particulates
Automotive is a growth business for BASF

BASF sales to Automotive vs. global vehicle production (indexed)

* Excl. precious metals, coatings refinish business; CAGR shown for 2007 – 2015
Carbon efficiency
Responsible use of raw materials by the chemical industry

- Growing world population needs access to energy, housing, healthcare and food
- Consumption of resources has to be reduced in order to limit global warming to <2°C
- Chemistry as enabler for low-carbon technologies (e.g., lightweight parts, battery materials, insulation, etc.)

- BASF uses raw materials responsibly: ~80% of carbon converted to products, ~20% needed for processes*
- Continuous efficiency improvements
- 22 million tons CO₂ emissions by BASF in 2016 compared to 10–30 million tons p.a. for one coal-fired power plant
- Chemical industry: only ~10% of global consumption of fossil resources**

* BASF carbon mass balance calculation (2016, non-audited)  **IEA 2015
Operational excellence
DrivE with ~€1 billion targeted earnings contribution

Digitalization will support BASF’s growth and efficiency

**Growth**
- Digital business models
  - New revenue streams
- Customer connectivity
  - Increased supply share
- Digitalization in R&D
  - Higher innovation output

**Efficiency**
- Predictive maintenance
  - Increased capacity
- Augmented reality in production
  - Increased work efficiency
- Smart supply chain
  - Reduced working capital
