("**BASF Finance**") with its registered office in Arnhem, The Netherlands (herein each also called an "**Issuer**" and together the "**Issuers**") accept responsibility for the information given in this Prospectus and for the information which will be contained in the Final Terms (as defined herein).

Each Issuer hereby declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Prospectus for which it is responsible is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

NOTICE

This Prospectus should be read and understood in conjunction with any supplement hereto and with any other documents incorporated herein by reference. Full information on the Issuers and any tranche of Notes is only available on the basis of the combination of the Prospectus and the relevant Final Terms (as defined herein).

Each Issuer has confirmed to the Dealers (as defined herein) that this Prospectus contains all information which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuers and the rights attaching to the Notes which is material in the context of the Program; that the information contained herein with respect to the Issuers and the Notes is accurate and complete in all material respects and is not misleading; that any opinions and intentions expressed herein are honestly held and based on reasonable assumptions; that there are no other facts with respect to the Issuers or the Notes, the omission of which would make this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading; that the Issuers have made all reasonable enquiries to ascertain all facts material for the purposes aforesaid.

Each Issuer and the Guarantor has undertaken with the Dealers (i) to supplement this Prospectus or publish a new Prospectus in the event of any significant new factor, material mistake or inaccuracy relating to the information included in this Prospectus in respect of Notes issued on the basis of this Prospectus which is capable of affecting the assessment of the Notes and which arises or is noted between the time when this Prospectus has been approved and the final closing of any tranche of Notes offered to the public or, as the case may be, when trading of any tranche of Notes on a regulated market begins, and (ii) to have such document approved by the Commission.

No person has been authorized to give any information which is not contained in or not consistent with this Prospectus or any other document entered into in relation to the Program or any information supplied by any Issuer or any other information in the public domain and, if given or made, such information must not be relied upon as having been authorized by the Issuers, the Dealers or any of them.

Neither the Arranger (as defined herein) nor any Dealer nor any other person mentioned in this Prospectus, excluding the Issuers and the Guarantor, is responsible for the information contained in this Prospectus or any supplement hereto, or any Final Terms or any document incorporated herein by reference, and accordingly, and to the extent permitted by the laws of any relevant jurisdiction, none of these persons accepts any responsibility for the accuracy and completeness of the information contained in any of these documents. This Prospectus is valid for 12 months after its approval and this Prospectus and any supplement hereto as well as any Final Terms reflect the status as of their respective dates of issue. The delivery of this Prospectus or any Final Terms and the offering, sale or delivery of any Notes may not be taken as an implication that the information contained in such documents is accurate and complete subsequent to their respective dates of issue or that there has been no adverse change in the financial situation of the Issuers since such date or that any other information supplied in connection with the Program is accurate at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Prospectus and any Final Terms and the offering, sale and delivery of Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus or any Final Terms come are required to inform themselves about and observe any such restrictions. For a description of the restrictions applicable in the United States of America, the European Economic Area in general, the United Kingdom and Japan see "*Selling Restrictions*". In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933, as amended, (the "**Securities Act**") and are

subject to tax law requirements of the United States of America; subject to certain exceptions, Notes may not be offered, sold or delivered within the United States of America or to U.S. persons.

The Final Terms in respect of any Notes may include a legend entitled "**MiFID II Product Governance**" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, "**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

If the Final Terms in respect of any Notes include a legend entitled "**Prohibition of Sales to EEA Retail Investors**", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "**Insurance Mediation Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

The language of the Prospectus is English. The German versions of the English language sets of Terms and Conditions and Guarantee are shown in the Prospectus for additional information. As to form and content, and all rights and obligations of the Holders (as defined herein) and the Issuer under the Notes to be issued, German is the controlling legally binding language if so specified in the relevant Final Terms. In respect of the Guarantee, the German language version is always controlling and legally binding as to form and content, and all rights and obligations of the Holders and the Guarantor thereunder.

Each Dealer and/or each further financial intermediary subsequently reselling or finally placing Notes issued under the Program is entitled to use the Prospectus as set out in "*Consent to the Use of the Prospectus*" below.

This Prospectus may only be used for the purpose for which it has been published.

This Prospectus and any Final Terms may not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation.

This Prospectus and any Final Terms do not constitute an offer or an invitation to subscribe for or purchase any Notes.

In connection with the issue of any Tranche of Notes under the Program, the Dealer or Dealers (if any) named as stabilizing manager(s) in the applicable Final Terms (or persons acting on behalf of a stabilizing manager) may over-allot Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However, stabilization may not necessarily occur. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the Issue Date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilization action or over-allotment must be conducted by the relevant stabilizing manager(s) (or person(s) acting on behalf of any stabilizing manager(s)) in accordance with all applicable laws and rules.

Any websites included in the Prospectus, except for the website www.bourse.lu in the context of the documents incorporated by reference, are for information purposes only and do not form part of the Prospectus.

Amounts payable under Floating Rate Notes are calculated by reference to (i) EURIBOR (Euro Interbank Offered Rate) which is provided by the European Money Markets Institute (EMMI) or (ii) LIBOR (London

Interbank Offered Rate) which is provided by the ICE Benchmark Association (IBA). As at the date of this Prospectus, IBA appears whereas EMMI does not appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to Article 36 of the Benchmarks Regulation (Regulation (EU) 2016/1011) ("**BMR**"). As far as the Issuers are aware, the transitional provisions in Article 51 of the BMR apply, such that EMMI is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

FORWARD-LOOKING STATEMENTS

This Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*", "*will*" and similar terms and phrases, including references and assumptions. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including BASF Group's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. BASF Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the following sections of this Prospectus: "*Risk Factors*", "*BASF SE as Issuer and Guarantor*" and "*BASF Finance Europe N.V. as Issuer*". Risks specific to BASF Finance Europe N.V.		
D.2	Key information on the key risks that are specific to the Issuer	<p>BASF Finance acts solely to facilitate the financing of BASF Group. Its main assets are loans to other companies of BASF Group. BASF Finance's continued operations depend on the ability of BASF and other members of BASF Group to meet their payment obligations under these intragroup loans.</p> <p>All debt securities of BASF Finance (such as the Notes) are wholly and unconditionally guaranteed by BASF in respect of principal and interest payments. This Guarantee is enforceable under the laws of Germany.</p> <p>For the risk factors regarding BASF, as Guarantor and debtor to BASF Finance, please see the separate section above.</p>
Risks specific to the Securities		
D.3	Key information on the key risks that are specific to the securities	<p>Notes may not be a suitable Investment for all investors</p> <p>Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances.</p> <p>Liquidity risks</p> <p>There can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.</p> <p>Market price risk</p> <p>The Holder of Notes is exposed to the risk of an unfavourable development of market prices of its Notes, which materializes if the Holder sells the Notes prior to the final maturity of such Notes.</p> <p>Currency risk</p> <p>A Holder of Notes denominated in a foreign currency is exposed to the risk, that changes in currency exchange rates may affect the yield of such Notes.</p> <p>Risk of early redemption</p> <p>A Holder of Notes is exposed to the risk that due to early</p>

Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance.]</p> <p>[Specific risks linked to [EURIBOR] [LIBOR]]</p> <p>Specific risks arise in connection with the [EURIBOR] [LIBOR] to which interest rates under the Floating Rate Notes are linked which is deemed to be a "benchmark" (the "Benchmark") and which is the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause the Benchmark (if affected by these reforms) to perform differently than in the past, or to be eliminated entirely. [For example, on 27 July 2017, the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR Benchmark after 2021 (the "FCA Announcement"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.] The reforms could also have other consequences which cannot be predicted.</p> <p>Although it is uncertain whether or to what extent any change in the administration of or method for determining the [EURIBOR] [LIBOR] could have an effect on the value of the Notes, investors should be aware that they face the risk that any changes to the [EURIBOR] [LIBOR] may have a material adverse effect on the value of and the amount payable under the Notes.]</p> <p>Resolutions of Holders</p> <p>Since the Terms and Conditions of the Notes provide for resolutions of Holders, either to be passed in a meeting of Holders or by vote taken without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As resolutions properly adopted are binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.</p> <p>[Holders' Representative]</p> <p>Since the Terms and Conditions of the Notes provide for the appointment of a Holders' Representative, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then responsible to claim and enforce the rights of all Holders.]</p> <p>[Renminbi ("RMB") denominated fixed rate Notes]</p> <p>RMB is not freely convertible; there are significant restrictions on remittance of RMB into and outside the People's Republic of China (the "PRC"). In the event that funds cannot be repatriated outside the PRC in RMB, this may affect the overall availability of RMB outside the PRC and the ability of the relevant Issuer to source RMB to finance its obligations under RMB Notes.</p>
--	---

		<p>There is only limited availability of RMB outside the PRC, which may affect the liquidity of the RMB Notes and the relevant Issuer's ability to source RMB outside the PRC to service the RMB Notes.</p> <p>The RMB Notes are subject to exchange rate risks concerning RMB and euro. The value of the RMB payments may vary with the prevailing exchange rates. If the value of the RMB depreciates against the euro or other applicable foreign currency, the value of a Holder's investment in euro or other applicable foreign currency will decline.]</p>

RISK FACTORS

The following is a disclosure of risk factors that may affect the ability of BASF and BASF Finance to fulfil their respective obligations under the Notes and the Guarantee and that are material to the Notes issued under the Program in order to assess the market risk associated with these Notes. Prospective investors should consider these risk factors before deciding to purchase Notes issued under the Program.

Prospective investors should consider all information provided in this Prospectus and consult with their own professional advisers (including their financial, accounting, legal and tax advisers) if they consider it necessary. In addition, investors should be aware that the risks described might combine and thus intensify one another.

RISK FACTORS REGARDING BASF SE AND BASF GROUP

BASF Group's business, financial condition or results of operations could suffer adverse material effects due to any of the following risks.

As a global company, BASF Group is constantly exposed to a wide range of internal or external developments or events that could significantly impact the achievement of its financial and non-financial objectives. While all the risks considered material are described below, these are not the only risks BASF Group faces. Additional risks not known by BASF Group or not presently considered material might also impair BASF Group's business operations. The sequence in which the risks are listed does not apply any order of significance.

Demand fluctuations due to volatility in market growth may adversely affect BASF Group's sales and earnings.

The development of demand in BASF Group's sales markets represents one of the most important sources of risks. In addition to the baseline scenario, BASF Group also considers risk scenarios. BASF Group sees a significant macroeconomic risk in an increased slowdown of the Chinese economy, which would have considerable impact on demand for intermediate goods for industrial production as well as investment goods. This would have an effect on emerging markets that export raw materials as well as on advanced economies that specialize in technological goods. Risks to the global economy would also be posed by the possible escalation of geopolitical conflicts and an increased tendency toward protectionism. Should the macroeconomic environment develop more slowly than BASF Group predicts, BASF Group expects a lower oil price. In this case, BASF Group also expects the euro to weaken relative to the U.S. dollar in the medium term as compared with its planning assumptions, as the eurozone's economy shows a high level of dependency on exports and, in times of global economic weakness, the U.S. dollar is preferred by portfolio investors as a safe haven.

The economic environment and market crises may adversely affect BASF Group's business and financial position.

BASF Group is dependent on the economic environment and cyclical trends in the world economy and may be adversely affected by any downturn in regional or worldwide economies, market crises as well as prolonged periods of instability. There is a considerable correlation between economic development and trade flows and, consequently, economic downturns and phases of prolonged instability often coincide with a decline in trade volumes.

BASF Group is exposed to margin volatility due to fluctuating raw material prices and/or product oversupply/shortage.

The BASF Group will be exposed to margin risk in 2018, driven by the isocyanates business in particular. It is also possible that margin pressure on a number of other products and value chains could be increased by, for example, new capacities or increasing raw material costs. This would have a negative effect on BASF Group's income from operations (EBIT). The year's average oil price for Brent crude was around USD 54 per barrel in 2017, compared with USD 44 per barrel in the previous year. For 2018, BASF Group anticipates an average oil price of USD 70 per barrel. BASF Group therefore expects a slight increase in price levels for the raw materials and petrochemical basic products that are important to its business. Yet an oil price level below the expected average would pose risks for BASF Group's oil and gas business, whose EBIT declines by approximately EUR 20 million for every USD 1 decrease in the average annual barrel price of Brent crude.

As a globally operating company, BASF Group faces various regulatory and political risks, including the risks of trade barriers, embargoes and sanctions, which could impact BASF Group's business and operating results.

As a globally operating company, BASF Group conducts business and is involved in projects with customers and business partners in countries that are the subject of export control regulations, embargoes, sanctions or other forms of trade restrictions imposed by the U.S., the European Union or other countries or organizations. Risks for the BASF Group can in particular arise from intensified geopolitical tensions, which could result in the broadening of existing or enactment of new embargoes and sanctions laws, the destabilization of political systems or the introduction of new trade barriers (which could, in each case, have retroactive effect). Considering BASF Group's global business, BASF Group encounters risks associated with existing sanctions and trade laws.

BASF Group could also be affected by new or amended sanction laws, including new U.S. sanction laws targeting the Russian Federation. Depending on the content, scope and applicability of these sanctions, there can be no assurance that certain BASF Group's business activities or projects, notably the Nord Stream 2 project, will not be affected by U.S. sanctions, embargoes or similar laws or regulations.

Risks for BASF Group can also arise from new regulations, including stricter emissions limits for plants or energy and climate laws. In addition, risks to the BASF Group can be posed by further laws in key customer industries or on the use or registration of agricultural and other chemicals. Economic and political uncertainties may arise as a result of Brexit. At this point in time, it is not yet clear what the future relationship between the European Union and the United Kingdom will look like post-Brexit and what specific consequences this will have for BASF Group sites, BASF Group's supply chains and the regulatory environment.

Crisis and other developments in politically unstable countries could adversely affect BASF Group's business and financial position.

BASF Group's business is exposed to economic, political and legal risks due to the international nature of its business. Some of the countries in which BASF Group manufactures or offers services or into which it exports are subject to reduced economic, political, social or legal stability. Potential risks BASF Group might encounter in different countries include in particular the nationalization or expropriation of assets, legal risks, the prohibition of capital transfers, war, terrorist attacks and other unrest. There could also be an indirect negative impact on BASF Group's business outside of a region directly affected by the relevant crisis especially if BASF Group customers in other countries were to change their investment and business plans as a result of the relevant crisis. There is also the risk that embargoes might be agreed for certain countries in which BASF Group operates, which could have an adverse impact on existing trading relations or investment plans which are in place before the embargo comes into force.

BASF Group is exposed to the risk of delivery bottlenecks.

Delivery bottlenecks resulting from interruptions in production or the supply chain and raw material shortages may adversely affect BASF Group's operating results.

BASF Group is subject to the risks associated with the use of information technology.

BASF Group relies on a large number of IT systems. Their non-availability, violation of confidentiality or the manipulation of data in critical IT systems and applications can all have a direct impact on production and logistics processes. The threat environment has changed in recent years, as attackers have become better organized, use more sophisticated technology, and have far more resources available. If data are lost or manipulated, this can, for example, negatively affect process safety and the accuracy of its financial reporting. Unauthorized access to sensitive data, such as personnel records, competition-related information or research results, can result in legal consequences or jeopardize BASF Group's competitive position. This would also be accompanied by the associated loss of reputation.

Litigations and claims could harm BASF Group's operating results and cash flows.

With its international operations, BASF Group is exposed to numerous legal risks. These may include, in particular, risks relating to product liability, competition and antitrust law, export control, data protection, patent law, procurement law, tax legislation and environmental protection in the countries where the BASF Group operates, including countries such as the United States, where legal risks – in particular legal risks stemming from class action product liability - have historically been more significant than in other countries. BASF Group is involved in legal, regulatory, governmental and arbitration proceedings and may become involved in additional proceedings. These proceedings involve claims by and against BASF Group, which arise in the ordinary course of its businesses, including in connection with its business activities, employer,

investor and taxpayer. Any proceeding might negatively impact BASF Group. The outcome of current pending or future proceedings and investigations can often not be predicted with certainty. Legal or regulatory judgements or agreed settlements may give rise to significant losses, costs and expenses which are not covered, or not fully covered, by insurance benefits. Such losses, costs and expenses may have a material adverse impact on the business, earnings and financial position of the BASF Group.

Investigations of possible legal or regulatory violations, such as potential infringements of antitrust law or certain marketing and / or distribution methods, may result in the imposition of civil or criminal penalties – including substantial monetary fines – and / or other adverse financial consequences, harm BASF Group's reputation and ultimately hamper its commercial success.

BASF Group is exposed to foreign exchange risks.

BASF Group's competitiveness on global markets is influenced by fluctuations in exchange rates. For BASF Group's sales, risks (and opportunities) arise in particular when the U.S. dollar exchange rate fluctuates. A full-year rise in the value of the U.S. dollar/euro exchange rate by USD 0.01 would result in an increase of around EUR 50 million in the BASF Group's EBIT, assuming other conditions remain the same. On the production side, BASF Group counters exchange rate risks by producing in the respective currency zones. Financial currency risks result from the translation of receivables, liabilities and other monetary items in accordance with IAS 21 at the closing rate into the functional currency of the respective Group company. In addition, BASF Group incorporates planned purchase and sales transactions in foreign currencies in its financial foreign currency risk management. These risks are hedged using derivative instruments, if necessary.

BASF Group is exposed to interest rate risks.

Interest rate risks result from potential changes in prevailing market interest rates. These can cause a change in the fair value of fixed-rate instruments and fluctuations in the interest payments for variable-rate financial instruments, which would positively or negatively affect earnings. To hedge these risks, interest rate swaps and combined interest rate and currency derivatives are used in individual cases. In addition to market interest rates, BASF Group's financing costs are determined by the credit risk premiums to be paid. These are mainly influenced by the credit rating and the market conditions at the time of issue.

BASF Group is subject to risks resulting from metal and raw materials trading.

In the catalysts business, BASF Group employs commodity derivatives for precious metals and trades precious metals on behalf of third parties and on its own account. Appropriate commodity derivatives are also traded to optimize BASF Group's supply of refinery products, gas and other petrochemical raw materials. Although trading is conducted within predetermined limits and exposure constraints, adverse market developments could lead to significant losses or changes in market values of employed instruments, which may require significant liquidity.

BASF Group is exposed to liquidity risks.

BASF Group's ability to finance its business depends on future developments of financial markets. Access to liquid funds may be limited during a financial crisis.

BASF Group is exposed to the risk of impairment of individual assets.

The risk of an asset impairment occurs if the assumed interest rate in an impairment test increases, the predicted cash flows decline, or investment projects are suspended. In the current business environment, BASF Group considers the risk of impairment of individual assets such as customer relationships, technologies and trademarks, as well as goodwill, to be nonmaterial. Nevertheless, a continuing decline in the prices of oil or gas below its assumed planning level would result in impairment risks for the Oil & Gas segment's assets.

BASF Group is exposed to the risk of asset losses.

Although BASF Group only engages in transactions with banks with good credit ratings and by adhering to fixed limits for exposures, any counterparty might not be able to fulfil its obligations and BASF Group might not be able to close open positions in advance. Customers might also not fulfil their obligations from purchase agreements, resulting in an impairment of receivables. Even though BASF Group limits country-specific risks by internally determining country ratings, which are continuously updated to reflect changing environment conditions, BASF Group might suffer from losses of assets in individual countries.

BASF Group is exposed to risks arising from its pension obligations.

Most employees are granted company pension benefits from either defined contribution or defined benefit plans. BASF Group predominantly finances company pension obligations externally through separate plan assets. This particularly includes BASF Pensionskasse VVaG and BASF Pensionstreuhand e.V. in Germany, in addition to the large pension plans of BASF Group companies in North America, the United Kingdom and Switzerland.

The fund assets required to cover future pension obligations are actuarially determined using, among others, assumptions concerning the expected return on plan assets. The plan assets are partially comprised of equity and other risky investments. Declining or even negative returns on these investments and a lack of diversification between different asset classes may adversely affect the future fair value of plan assets and could trigger an additional contribution to the pension plan to cover future pension obligations. Additional contributions to pension plans may also be triggered by declining interest rates leading to higher present values of future pension liabilities.

Long-term incentive program for executives may affect personnel costs.

BASF Group's senior executives have the opportunity to participate in a share price-based compensation program. The need for provisions for this program varies according to the development of the BASF SE share price and the MSCI World Chemicals Index; this leads to a corresponding increase or decrease in personnel costs.

Increasing competition may adversely affect BASF Group's operating results.

Increasing competition, in particular from emerging markets, may pose a risk to BASF Group's earnings and market shares. Furthermore, BASF Group may face competition from raw material suppliers expanding their value chains.

BASF Group is exposed to technical risks.

Guaranteeing the quality and availability of BASF Group's products can require unforeseen technical measures. Moreover, there is the risk that unscheduled plant shutdowns will be required for safety reasons or due to technical problems. For example, as a precaution BASF Group shuts down plants at the sites on the U.S. Gulf Coast in the event of hurricane warnings. These events may adversely affect BASF Group's operating results.

Cyclicalities may adversely affect BASF Group's operating margins.

The results of BASF Group's segments are affected by cyclicalities and migration of various industries in which they operate, including the automotive, construction, electrical and electronics industries.

The results of BASF Group's crop protection business are dependent on weather conditions and can be affected by local and regional economic circumstances.

Sales volumes of BASF Group's crop protection products are subject to the agricultural sector's dependency on weather conditions. Adverse weather conditions in a particular growing region could materially negatively affect the results of operations of BASF Group's crop protection business. Demand for crop protection products is further influenced by the agricultural policies of governments and multinational organizations. In addition, BASF Group's crop protection products are typically sold pursuant to contracts with long payment terms. These extended payment periods make BASF Group's crop protection business susceptible to losses on receivables during local or regional economic crises and may adversely affect BASF Group's operating results.

Risks from handling hazardous materials could adversely affect BASF Group's operating results.

BASF Group is subject to operating risks associated with chemical manufacturing, including the risks of production, distribution, handling and storage of BASF Group's products. These operating risks do have the potential to cause personal injury, property damage and environmental contamination, and may result in business interruptions, the shutdown of affected facilities and liability for compensation payments. Any of these events may adversely affect BASF Group's operating results.

Exploration risk may adversely affect the business of BASF Group's Oil & Gas segment.

The future growth of the exploration and production unit of BASF Group's Oil & Gas segment is dependent on successful findings. The search for new oil and natural gas reserves involves certain geological risks that relate to the availability of hydrocarbon products and the quality thereof.

Failure to develop new products and production technologies may harm BASF Group's competitive position and operating results.

BASF Group's operating results depend on the development of commercially viable new products and production technologies. BASF Group devotes substantial resources to research and development. Due to the high degree of complexity and uncertainty involved in chemical and biological research, there is a risk that projects might be discontinued for technical or economic reasons, budgets may be exceeded or developed products will not receive regulatory approval for sale or will not achieve the expected commercial success.

BASF Group is subject to risks arising from acquisitions and investment decisions.

Acquisition and investment decisions are associated with complex risks due to the high level of capital involved and the long-term capital commitment. Examples of risks include increased staff turnover and loss of knowledge and expertise, unexpected high integration costs, delayed realization of synergies and the assumption of obligations that were not precisely quantifiable in advance. These risks could result in material impairments of the respective assets and the expected earnings. In addition, there is the risk that BASF Group's profitability might be reduced because successful claims relating to representations and warranties given in the course of the sale of a company or assets are successfully made against BASF Group.

BASF Group is dependent upon hiring and retaining highly qualified management and technical personnel.

BASF Group's future success depends in part on its continued ability to hire, integrate and retain highly skilled employees. BASF Group expects a medium to long-term shortage of skilled employees due to demographic changes, especially in North America and Europe. Thus, there is an increased risk that job vacancies may not be filled with suitable applicants, or only after a delay. Therefore, business could negatively be affected. Also, challenges from additional recruitment demand in Asia could affect BASF Group's targeted growth in this region negatively.

Missing targets on sustainability might entail reputational losses, potentially resulting in operational or strategic risks.

As part of BASF Group's sustainability management, BASF Group also assesses the opportunities and risks associated with the topics BASF Group has identified as material. These also include the increasing internalization of external effects, through which positive and negative earnings contributions from companies' activities that were previously borne by the community are attributed to these companies. For example, the material topic "energy and climate" is analyzed to enable BASF Group to identify, assess and manage climate-related risks and opportunities. For BASF Group as an energy-intensive company, these arise particularly from regulatory changes, such as in carbon prices through emissions trading systems, taxes or energy legislation.

Credit ratings assigned to BASF or any of the Notes may not reflect all the risks associated with an investment in the Notes.

A rating downgrade may increase BASF Group's financing costs and negatively impact the market values of the Notes. Credit ratings assigned to BASF Group or any of the Notes may not reflect the potential impact of all risks related to structure, market and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time and on short notice. Rating agencies may also change their methodologies for rating issuers or securities in the future. An actual or anticipated downgrade of ratings could result in increased interest and other financial expenses. It could also have a material negative impact on the market values of the Notes.

BASF Group is subject to risks in connection with future changes in taxation and uncertain tax environments.

As a group with global operations, BASF Group is governed by the tax rules and regulations applicable in each country in which it operates. A change in such rules and regulations may result in a higher tax rates

or expenses. In addition, changes in tax legislation may have a significant impact on BASF Group's tax receivables and tax liabilities as well as on its deferred tax assets and deferred tax liabilities. BASF Group also operates in countries with complex tax regulations which could be interpreted in different ways. Future interpretations of these regulations and/or changes in the tax system might have an impact on BASF Group's tax liabilities, profitability and business operations. BASF Group is regularly audited by the tax authorities in various jurisdictions and cannot exclude that such tax audits will lead to additional tax claims that could have a material adverse effect on its business, financial condition and results of operations.

BASF Group is exposed to compliance risks

Unethical behavior and non-compliance with BASF Group's integrity standards due to intentional and fraudulent behavior of employees could materially harm BASF Group's business, financial position, profit, and reputation. BASF Group may encounter unethical behavior and non-compliance with BASF Group integrity standards due to intentional and fraudulent behavior of individual employees, possibly in collusion with external third parties. In addition to intentional behavior, problems could also arise due to negligence in the adherence to rules and regulations. Unethical behavior and misconduct attributable to BASF Group could not only lead to criminal charges, fines, and claims by injured parties, but also to financial loss, and severe reputational damage. This could have a material adverse effect on BASF Group's business, financial position, profit, and cash flows.

There may be risks which are unknown to BASF Group or which are currently believed to be immaterial which could, however, have a material adverse effect on BASF Group's business, competitive position, financial position and results of operations.

BASF Group's businesses are exposed to varying degrees of risk and uncertainty related to other factors including competitive pricing, consumption levels, physical risks, rates of inflation, legislative, fiscal and regulatory developments, loss of reputation, terrorism and economic, political and social conditions in the environments where it operates. All of these risks could materially affect BASF Group's business, its turnover, operating profit, net profit, net assets and liquidity. There may be risks which are unknown to BASF Group or which are currently believed to be immaterial.

RISK FACTORS REGARDING BASF FINANCE EUROPE N.V.

BASF Finance continued operations depend on the ability of BASF SE and other members of BASF Group to meet their payment obligations under intra-group loans provided to them by BASF Finance. In the event that a member of the BASF Group fails to make a payment under an intra-group loan, BASF Finance may not be able to meet its payment obligations under the Notes issued by it.

All debt securities of BASF Finance (such as the Notes) are wholly and unconditionally guaranteed by BASF SE in respect of principal and interest payments. This Guarantee is enforceable under the laws of Germany.

For the risk factors regarding BASF Group please see the separate section above.

RISK FACTORS REGARDING THE NOTES

Notes may not be a suitable investment for all investors

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;

- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Liquidity risk

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Prospectus to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange. In addition, the Program provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there is a risk that no liquid secondary market for the Notes will develop or, if it does develop, that it will not continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market price risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The Holders of Notes are therefore exposed to the risk of an unfavourable development of market prices of their Notes, which materializes if the Holders sell the Notes prior to the final maturity of such Notes. If a Holder of Notes decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

Currency risk

A Holder of Notes denominated in a foreign currency (*i.e.* a currency other than euro) is particularly exposed to the risk of changes in currency exchange rates, which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

A change in the value of any foreign currency against the euro, for example, will result in a corresponding change in the euro value of Notes denominated in a currency other than euro and a corresponding change in the euro value of interest and principal payments made in a currency other than euro in accordance with the terms of such Notes. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Notes and the value of interest and principal payments made thereunder expressed in euro falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal at all.

Risk of early redemption

The applicable Final Terms will indicate whether an Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates determined beforehand or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms (early redemption event). In addition, each Issuer will always have the right to redeem the Notes if the relevant Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. If the relevant Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a Holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. The Issuer can be expected to exercise his optional call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise its optional call right if the yield on comparable Notes in the capital market has increased. In this event, an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the relevant Issuer may exercise any optional call right irrespective of market interest rates on a call date.

Fixed Rate Notes

A Holder of Fixed Rate Notes is particularly exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Notes, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of Fixed Rate Notes also changes, but in the opposite direction. If the market interest rate increases, the price of Fixed Rate Notes typically falls, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of Fixed Rate Notes typically increases, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the Holder of Fixed Rate Notes holds such Notes until maturity, changes in the market interest rate are without relevance to such Holder as the Notes will be redeemed at a specified redemption amount, usually the principal amount of such Notes.

Floating Rate Notes

A Holder of Floating Rate Notes is particularly exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Specific risks linked to EURIBOR or LIBOR

The interest rates of Floating Rate Notes are linked to reference rates such as the Euro Interbank Offered Rate (EURIBOR) or the London Interbank Offered Rate (LIBOR) which are deemed to be "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**") and which are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented.

Key international proposals for reform of Benchmarks include (i) IOSCO's *Principles for Oil Price Reporting Agencies* (October 2012) and *Principles for Financial Benchmarks* (July 2013), (ii) ESMA-EBA's *Principles for the benchmark-setting process* (June 2013), and (iii) the Benchmark Regulation EU 2016/1011 of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"). In addition to the aforementioned reforms, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

Following the implementation of such potential reforms, the manner of administration of Benchmarks may change, with the result that they perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be consequences which cannot be predicted. Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives could have a material adverse effect on the costs of obtaining exposure to a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks. For example, on 27 July 2017, the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR Benchmark after 2021 (the "**FCA Announcement**"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for Floating Rate Notes which is linked to such Benchmark might be determined for the relevant interest period by fall-back provisions as set out in the Terms and Conditions of such Notes, which ultimately could result in the same reference rate of that Benchmark being applied for the determination of the relevant rates of interest until maturity of the Floating Rate Notes, effectively turning the floating rate of interest into a fixed rate of interest. In that case, a Holder would no longer participate in any favourable movements of market interest rates, including central banks' key interest rates, that would have been reflected in the relevant reference rate if the Benchmark would not have been discontinued or otherwise been unavailable, and payments of interest under the Floating Rate Notes would be lower than they would have been had the Benchmark not been discontinued or otherwise been unavailable.

Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method for determining a Benchmark could have an effect on the value of any Notes whose interest is linked to the relevant Benchmark, investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value or the liquidity of, and the amounts payable under Notes whose rate of interest is linked to a Benchmark.

Resolutions of Holders

Since the Notes provide for meetings of Holders or the taking of votes without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.

Holders' Representative

Since the Notes provide for the appointment of a Holders' Representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

Risks related to Renminbi ("RMB") denominated Notes

RMB is not freely convertible; there are significant restrictions on remittance of RMB into and outside the People's Republic of China (the "PRC").

RMB is not freely convertible at present. This may adversely affect the liquidity of the RMB denominated Notes ("**RMB Notes**"); the availability of RMB funds for servicing the RMB Notes may be subject to future limitations imposed by the PRC government.

The PRC government continues to regulate conversion between RMB and foreign currencies, including the euro, despite the significant reduction over the years by the PRC government of control over routine foreign exchange transactions under current accounts. Currently participating banks in, *inter alia*, Frankfurt, London, Singapore, Hong Kong, Macau and Taiwan have been permitted to engage in the settlement of RMB trade transactions. This represents a current account activity.

While there have been several reforms to further reduce governmental control over foreign exchange transactions in recent years, there is no assurance that the PRC government will continue to liberalize a control over cross-border RMB remittances in the future or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of RMB into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in RMB, this may affect the overall availability of RMB outside the PRC and the ability of the Issuer to source RMB to perform its obligations under RMB Notes.

There is only limited availability of RMB outside the PRC, which may affect the liquidity of the RMB Notes and the Issuer's ability to source RMB outside the PRC to service the RMB Notes.

As a result of the restrictions imposed by the PRC government on cross-border RMB fund flows, the availability of RMB outside of the PRC is limited. Currently, licensed banks in Singapore, Hong Kong and Taiwan may offer limited RMB-denominated banking services to Singapore residents, Hong Kong residents, Taiwan residents and specified business customers. The People's Bank of China ("**PBOC**") has also established a RMB clearing and settlement system for participating banks in Hong Kong, Singapore, Taiwan, London, Frankfurt and Seoul. Each of Industrial and Commercial Bank of China, Singapore Branch, Bank of China (Hong Kong) Limited, Bank of China, Taipei Branch, China Construction Bank (London) Limited, Bank of China, Frankfurt Branch and Bank of Communications, Seoul Branch (each an "**RMB Clearing Bank**") has entered into settlement agreements with the PBOC to act as the RMB clearing bank in Singapore, Hong Kong, Taiwan, London, Frankfurt and Seoul, respectively.

However, the current size of RMB-denominated financial assets outside the PRC is limited. RMB business participating banks do not have direct RMB liquidity support from the PBOC. They are only allowed to square their open positions with the relevant RMB Clearing Bank after consolidating the RMB trade position of banks outside Singapore, Hong Kong, Taiwan, London, Frankfurt and Seoul that are in the same bank group of the participating bank concerned with their own trade position and the relevant RMB Clearing Bank only has access to onshore liquidity support from the PBOC for the purposes of squaring open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporations relating to cross-border trade settlement. The relevant RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source RMB from the offshore market to square such open positions.

Although it is expected that the offshore RMB market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the settlement agreements will not be terminated or amended in the future which will have the effect of restricting availability of RMB offshore.

The limited availability of RMB outside the PRC may affect the liquidity of the RMB Notes. To the extent the Issuer is required to source RMB in the offshore market to service its RMB Notes, there is no assurance that the Issuer will be able to source such RMB on satisfactory terms, if at all.

Investments in the RMB Notes are subject to RMB exchange rate risks.

The value of the RMB against the euro and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors. Except in the limited circumstances as described in the Conditions, the Issuer will make all payments of interest and principal with respect to the RMB Notes in RMB. As a result, the value of these RMB payments in euro or other applicable foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of RMB depreciates against the euro or other applicable foreign currency, the value of a noteholder's investment in euro or other applicable foreign currency terms will decline.

Investments in the RMB Notes are subject to currency risks.

If the Issuer cannot obtain RMB and is not able, or it is impracticable for it, to satisfy its obligation to pay interest and principal on the RMB Notes when due, in whole or in part, in RMB in the relevant RMB Settlement Centre as a result of Inconvertibility, Non transferability or Illiquidity (each, as defined in § 4(7)(d) in the Terms and Conditions of Option I), the Issuer shall be entitled to postpone any such payment or, on giving not less than five or more than 30 days' irrevocable notice to the noteholders prior to the due date for payment, to settle any such payment, in whole or in part, in U.S. dollars on the due date at the U.S. Dollar Equivalent (as defined in the Terms and Conditions of Option I) of any such interest or principal amount otherwise payable in RMB, as the case may be. The Issuer may early terminate the RMB Notes if it decides to settle payments at the U.S. Dollar Equivalent due to Inconvertibility, Non-transferability or Illiquidity.

Changes have been announced to the Dutch tax law which could adversely affect BASF Finance, the Notes and/or payments under the relevant Notes

On October 10, 2017, the new Dutch government released its coalition agreement (*Regeerakkoord*) 2017-2021, which includes, among others, certain policy intentions for tax reform. On February 23, 2018, the Dutch State Secretary for Finance published a letter with an annex containing further details on the government's policy intentions against tax avoidance and tax evasion. Two policy intentions in particular may become relevant in the context of the Dutch tax treatment of BASF Finance, the Notes and/or payments under the relevant Notes.

The first policy intention relates to the introduction of an "interest withholding tax" on interest paid to creditors in low tax jurisdictions or non-cooperative jurisdictions as of 2021. The coalition agreement and the annex to the letter suggest that this interest withholding tax would apply to certain payments made by a Dutch entity directly or indirectly to a group entity in a low tax or non-cooperative jurisdiction. However, it cannot be ruled out that it will have a wider application and, as such, it could potentially be applicable to payments under such Notes.

The second policy intention relates to the introduction of a "thin capitalization rule" as of 2020 that would limit the deduction of interest on debt exceeding 92% of the commercial balance sheet total. The heading in the coalition agreement and the annex to the letter suggest that this thin capitalization rule will apply solely to Dutch banks and insurers. However, it cannot be ruled out that it will have a generic application and, as such, it could potentially be applicable to other Dutch taxpayers (including BASF Finance).

Many aspects of these policy intentions remain unclear. However, if the policy intentions are implemented, they may have an adverse effect on BASF Finance and its financial position. In the case of implementation of the first policy intention mentioned above, BASF Finance may in principle redeem the Notes affected pursuant to its option under Condition 5(2) (*Early Redemption for Reasons of Taxation*).

Notes may be issued on a continuing basis to one or more of the Dealers. Notes may be distributed by way of public offer or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each tranche ("**Tranche**") will be stated in the relevant final terms (the "**Final Terms**"). The Notes may be offered to qualified and non-qualified investors, including with the restrictions specified in the "**PROHIBITION OF SALES TO EEA RETAIL INVESTORS**" legend set out on the cover page of the applicable Final Terms, if any.

Notes will be issued in Tranches, each Tranche in itself consisting of Notes, which are identical in all respects. Notes may be issued at an issue price, which is at par or at a discount to, or premium over, par, as stated in the relevant Final Terms. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Application has been made to the Commission, which is the Luxembourg competent authority for the purpose of the Prospectus Directive for its approval of this Prospectus.

The Conditions will be constituted by the relevant set of Terms and Conditions of the Notes set forth below (the "**Terms and Conditions**") as further specified by the Final Terms (the "**Final Terms**") as described below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the relevant Issuer to choose between the following Options:

- Option II – Terms and Conditions for Notes with floating interest rates (and Option II A, Option II B, Option II C, Option II D, Option II E as well as Option II F as defined in "Documents incorporated by Reference").

With respect to each type of Notes, the respective Option I A, Option I B, Option I C, Option I D, Option I E, Option I F, Option II A, Option II B, Option II C, Option II D, Option II E and Option II F are incorporated by reference into this Prospectus for the purpose of a potential increase of Notes outstanding and originally issued prior to the date of this Prospectus.

Documentation of the Conditions

The relevant Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I and Option II are applicable to the individual issue by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in the Prospectus only. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus attached.

The Final Terms shall determine which of the Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II contains also certain further options (characterized by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterized by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The relevant Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

ALTERNATIVE PERFORMANCE MEASURES ("APM")

The Prospectus also uses the following alternative performance measures, not defined by IFRS, to describe the BASF Group's results of operations. These should not be viewed in isolation, but treated as supplementary information.

The special items used below to calculate some alternative performance measures arise from the integration of acquired businesses, restructuring measures, impairments, gains or losses resulting from divestitures and sales of shareholdings, and other material expenses and income that generally do not arise in conjunction with ordinary business activities.

Adjusting for special items makes EBIT before special items an especially suitable figure for illustrating the development of operating business over time as well as for forecasts. It is therefore among the most important performance measures for managing the BASF Group.

Income from operations before depreciation and amortization (EBITDA) describes operational performance independently of age-related amortization and depreciation of assets and any valuation allowances (impairments or write-ups). It is therefore particularly useful for comparing companies.

The values for the respective APM for the first half of 2018/2017 are shown on page 4 of the H1 Report 2018. The values for the respective APM for the first quarter 2018 are shown on page 3 and 4 of the Q1 Report 2018. The values for the respective APM for the full Year 2017/2016 are shown below.

GENERAL INFORMATION ABOUT BASF SE**HISTORY AND DEVELOPMENT OF THE ISSUER**

BASF was incorporated as a stock corporation under the laws of Germany on January 30, 1952 under the name "Badische Anilin- und Soda-Fabrik AG". In 1973, BASF changed its name to BASF Aktiengesellschaft. BASF Aktiengesellschaft was registered until January 14, 2008 in the commercial register (*Handelsregister*) of the local court (*Amtsgericht*) Ludwigshafen am Rhein, Germany, under the entry number HRB 3000.

The Annual Shareholders' Meeting of BASF shareholders on April 26, 2007 approved the proposal of the Board of Executive Directors and the Supervisory Board to convert BASF Aktiengesellschaft into a European Company (*Societas Europaea*, SE) with the name BASF SE. BASF SE is registered as of January 14, 2008 in the new legal form of a European Company (*Societas Europaea*, SE) in the commercial register (*Handelsregister*) of the local court (*Amtsgericht*) of Ludwigshafen am Rhein, Germany, under the entry number HRB 6000. As set forth in Art. 37 para. 2 of Council Regulation (EC) No. 2157/2001 of October 8, 2001 on the Statute for a European Company (SE) this conversion neither resulted in the dissolution of the company nor in the establishment of a new legal person. Therefore, through such conversion BASF SE is the same legal person as BASF Aktiengesellschaft.

The legal foundations of BASF SE's corporate constitution are primarily the SE Council Regulation of the European Union, the German SE Implementation Act and the German Stock Corporation Act. Despite these new legal foundations, the previous fundamental elements of BASF Aktiengesellschaft's corporate constitution remain unchanged in BASF SE: these are the two-tier system consisting of BASF's Board of Executive Directors and the Supervisory Board, the equal representation of shareholders and employees in the Supervisory Board and the shareholders' rights of co-administration and supervision at the Annual Shareholders' Meeting.

BASF's headquarter is located in Ludwigshafen am Rhein, Germany; its registered office is located at Carl-Bosch-Straße 38, 67056 Ludwigshafen am Rhein, Germany, telephone 0049-621-60-0. It operates under German law.

BASF Group continually reviews its businesses and aligns them to achieve profitable and sustainable growth. BASF Group's significant acquisitions and divestitures between 2016, 2017 and 2018 are listed below:

Acquisitions / Divestitures

As of the date of this Prospectus, BASF Group acquired the following businesses in 2018:

- BASF Group closed the acquisition of businesses and assets, which Bayer offered to divest in the context of its acquisition of Monsanto on August 16, 2018. The expanded scope includes: Bayer's entire vegetable seeds business, operating under the global trademark Nunhems®, seed treatment products sold under the Poncho®, VOTiVO®, COPeO® and ILeVO® brands, the R&D platform for hybrid wheat and the complete state-of-the-art digital farming platform xarvio™. The transaction also includes Bayer's oilseed rape business in Australia; certain glyphosate-based herbicides in Europe, used predominantly for industrial applications; the canola-quality juncea research and certain non-selective herbicide and nematocid research projects. The all-cash purchase price for the additional businesses and assets BASF Group agreed to acquire is EUR 1.7 billion.
- On August 1, 2018, BASF Group closed the acquisition of significant parts of Bayer's seed and non-selective herbicide businesses. Bayer divested these assets in the context of its acquisition of Monsanto. The all-cash purchase price is EUR 5.9 billion. The acquired assets include Bayer's global glufosinate-ammonium non-selective herbicide business, commercialized under the Liberty®, Basta® and Finale® brands, as well as its seed businesses for key row crops in select markets: canola hybrids in North America under the InVigor® brand using the LibertyLink® trait technology, oilseed rape mainly in European markets, cotton in the Americas and Europe as well as soybean in the Americas. The transaction also includes Bayer's trait research and breeding capabilities for these crops and the LibertyLink® trait and trademark. The acquisition complements BASF Group's crop protection business, strengthening the company's herbicide portfolio and marking its entry into the seed business with proprietary assets in key agricultural markets.

Agreed-upon transaction (acquisitions) in 2017:

- BASF Group and Solvay have signed an agreement related to the sale of Solvay's integrated polyamide business to BASF Group. The purchase price on a cash and debt-free basis would be EUR 1.6 billion. According to applicable laws, the intended transaction is subject to consultations with the relevant social bodies of Solvay, following which both companies will enter a binding purchase agreement. At the end of June 2018, the EU Commission informed BASF Group that it will continue to review the planned acquisition of Solvay's integrated polyamide business in an in-depth investigation. The EU Commission will gather and evaluate more data during this in-depth investigation and will likely take a decision in Q4 2018. BASF Group will continue to respond to the concerns of the EU Commission and will evaluate different scenarios.
- BASF Group and LetterOne signed a letter of intent on December 7, 2017 to merge their respective oil and gas businesses in a joint venture, which would operate under the name Wintershall DEA. By combining these two German-based entities, their parent companies strive to create a basis for further profitable growth, optimize the portfolio footprint of the combined business and realize synergies. BASF Group aims for a signing of the contracts within Q3 2018. If an agreement is reached, closing could be expected in Q1 2019, subject to customary regulatory approvals. In the medium term, BASF Group and LetterOne envisage to list Wintershall DEA through an initial public offering. There is, however, no assurance that BASF Group and LetterOne will enter into definitive transaction agreements or that the intended transaction will be consummated.

BASF Group acquired the following business in 2017:

- Effective January 1, 2017, BASF Group acquired the western European construction chemicals business from the Henkel group of companies for floor and tile-laying systems as well as sealants for professional users.
- On February 7, 2017, BASF Group acquired the private company Rolic AG, headquartered in Allschwil, Switzerland. The company develops and sells ready-to-use formulations and functional film products for the display and security industry against forgery as well as barrier materials and films.

- On September 26, 2016, BASF Group completed the acquisition of Guangdong Yinfan Chemistry ("Yinfan") in Jiangmen, China, and integrated the business into the Coatings division.
- On December 14, 2016, the purchase of the global surface technology provider Chemetall from Albemarle Corp. in Charlotte, North Carolina, was completed. The purchase price amounted to USD 3.1 billion.

In return, BASF Group transferred its share in the previously jointly operated gas trading and storage business to Gazprom. This involves 50% shares in the natural gas trading companies WINGAS GmbH, Wintershall Erdgas Handelshaus GmbH & Co. KG, and Wintershall Erdgas Handelshaus Zug AG, including shares in the storage company astora GmbH & Co. KG, which operates natural gas storage facilities in Rehden and Jemgum, Germany, as well as shares in the storage facility in Haidach, Austria. Gazprom furthermore became a 50% shareholder in Wintershall Noordzee B.V. in Rijswijk, Netherlands, which is active in the exploration and production of natural gas and crude oil deposits in the North Sea.

As of the date of this Prospectus, BASF Group agreed upon transaction (divestitures):

- On May 2, 2018, BASF Group and Solenis have signed an agreement to join forces by combining BASF Group's paper wet-end and water chemicals business with Solenis. The combined entity with pro-forma sales of around EUR 2.4 billion and around 5,000 employees in 2017 aims to deliver additional value for paper and water treatment customers. The goal is to create a customer-focused global solutions provider for the industry. Pending approval by the relevant authorities, closing is anticipated for the end of 2018 at the earliest. BASF Group will hold a 49% share of the combined entity that will operate under the Solenis name and be headquartered in Wilmington, Delaware, USA. 51% of the shares will be held by funds managed by Clayton, Dubilier & Rice.

BASF Group divested the following activities in 2017:

In the course of the sale 66 employees were transferred to EP Minerals LLC.
- BASF Group and the Stahl group of companies signed an agreement on March 22, 2017, to combine BASF Group's leather chemicals business with that of the Stahl group. The transaction comprises BASF Group's global leather chemicals business – including the leather chemicals production site in L'Hospitalet, Spain. Subject to the approval of relevant authorities, the transaction is expected to close in the fourth quarter of 2017. BASF Group will receive a 16% minority share in the Stahl group as well as a payment.
- BASF Group signed an agreement on June 2, 2017, to sell its production site for electrolytes in Suzhou, China, to Shenzhen Capchem Technology Co. Ltd., based in Shenzhen, China. The site is allocated to the Catalysts division. The transaction is expected to close in the third quarter.

- On June 30, 2016, BASF Group has closed the previously announced transaction to divest its global Polyolefin Catalysts business to W. R. Grace & Co., a global leader in specialty chemicals and materials. The relevant merger control approvals have already been granted. Included in the transaction are technologies, patents, trademarks and the transfer of BASF Group's production plants in Pasadena, Texas, and Tarragona, Spain. Approximately 170 employees have also transferred to Grace.
- On August 26, 2016, BASF Group has sold its global photoinitiator business to IGM Resins B.V. The transaction comprises business assets including technology, patents and certain trademarks, customer relationships and business-related contracts as well as the company's photoinitiator production site in Mortara, Italy.
- On December 14, 2016, BASF Group sold the Coatings division's industrial coatings business to the AkzoNobel Group. The transaction included technologies, patents and trademarks, customer relations, inventories as well as the transfer of two production sites in England and in South Africa. BASF Group generated around EUR 300 million in sales in the industrial coatings business in 2015.

Corporate purpose

Pursuant to Article 2 of its Articles of Association:

1. The purpose of BASF is to engage in the following areas of activity:
 - chemistry and related areas,
 - agriculture and nutrition,
 - extraction and production of and dealing in oil, natural gas, mineral oil products and energies,
 - development and production of and dealing in products and the provision of services in the area of environmental technology,

as well as the carrying out of any other activities incidental to the activity in said areas or conducive to promoting the same.
2. BASF is authorized to establish branches both in Germany and abroad, and to establish and acquire business undertakings whose purposes are consistent with, related to or conducive to promoting the ones stipulated in No. 1, both in Germany and abroad, or to acquire interests therein.

Term and dissolution

BASF has been established for an indefinite period of time. BASF may be dissolved upon a resolution of the Shareholders' Meeting requiring a majority of at least three quarters of the share capital represented during the resolution. The assets of BASF remaining after servicing all liabilities are distributed among the shareholders pro rata to their shareholding in BASF pursuant to the provisions of the German Stock Corporation Act.

Share capital

As of the date of this Prospectus, the fully-paid share capital of BASF is unchanged since the date of the last published audited financial statements as of December 31, 2017 and amounts to EUR 1,175,652,728.32 divided into 918,478,694 registered shares with no par value (*Namensaktien*) ("**BASF Shares**").

BASF currently has authorized capital in an aggregate amount of EUR 500,000,000. The Board of Executive Directors is authorized, with the consent of the Supervisory Board, to increase, up to May 1, 2019, on a one-off basis or in portions on a number of occasions, the company's subscribed capital by a total of up to EUR 500,000,000 by issuing new registered shares against contributions in cash or in kind (Authorized Capital). Shareholders are basically entitled to a subscription right. The new shares can be taken over by a bank appointed by the Board of Executive Directors with instructions to offer them to the shareholders (indirect subscription right). However, the Board of Executive Directors is authorized, with the consent of the Supervisory Board, to exclude the statutory subscription right of the shareholders, in order to acquire companies, parts of companies, or holdings in companies, in return for the transfer of shares in appropriate individual cases, as far as this is necessary to prevent dilution in order to grant the owners of option certificates and the creditors of convertible bonds that are issued by BASF or its affiliates in connection with an authorization granted to the Board of Executive Directors by the Shareholders'

Meeting, a subscription right to the extent that this would be due to them after exercising the option or conversion right or after fulfilling conversion obligations, and in order to use any residual amounts. In the case of capital increases in return for cash contributions, the Board of Executive Directors is authorized to exclude the statutory subscription right of shareholders, if the issue price of the new shares is not substantially lower than the stock market price and the total number of shares issued under this authorization is not more than ten percent of the subscribed capital either at the time of the authorization coming into effect or – if this value is lower – at the time that the present authorization is exercised.

At the Annual Shareholders' Meeting of May 12, 2017, shareholders authorized the Board of Executive Directors, with the approval of the Supervisory Board, to issue, on a one-off basis or in portions on more than one occasion, bearer or registered convertible bonds and/or bonds with warrants, or combinations of these instruments, with or without maturity limitations up to a nominal value of EUR 10,000,000,000 through May 11, 2022. The calculated portion of the share capital represented by the BASF shares to be issued in connection with the debt instruments issued under this authorization may not exceed 10% of share capital. To this effect, share capital was increased conditionally by up to EUR 117,565,184 by issuing a maximum of 91,847,800 new registered BASF shares. The conditional capital increase will only be carried out to the extent to which holders of convertible bonds, or warrants attached to bonds with warrants issued, exercise their conversion or option rights. Until now, this authorization has not been exercised.

At the Annual Shareholders' Meeting of May 12, 2017, shareholders authorized the Board of Executive Directors to buy back shares up until May 11, 2022, in accordance with Section 71(1) No. 8 of the German Stock Corporation Act. The buyback cannot exceed 10% of the company's share capital at the time the resolution was passed and can take place via the stock exchange, a public purchase offer addressed to all shareholders, or a public request to the shareholders to submit sales offers. Until now, this authorization has not been exercised.

Dividend policy

The Board of Executive Directors and the Supervisory Board of BASF propose dividends based on BASF SE's year-end unconsolidated financial statements. The proposal is then voted on at BASF's Annual Shareholders' Meeting. The Annual Shareholders' Meeting is usually convened during the second quarter of each year.

ORGANIZATIONAL STRUCTURE

BASF SE is the largest operating company and the ultimate parent company of the BASF Group. BASF Group is a transnational chemical company that comprises the parent company and 286 fully consolidated subsidiaries as of December 31, 2017. In addition, eight joint operations are consolidated on a proportional basis, and 35 companies are accounted for using the equity method. BASF is organized in five business segments: Chemicals, Performance Products, Functional Materials & Solutions, Agricultural Solutions and Oil & Gas. The business segments are reportable segments. The five business segments contain 13 divisions which bear the operational responsibility and manage BASF's 55 global and regional business units. The divisions develop strategies for BASF's strategic business units and are organized according to sectors or products.

BASF Group's regional divisions contribute to the local development of BASF Group's business and help to exploit market potential. They are also responsible for optimizing the infrastructure for BASF Group's business. For financial reporting purposes, the divisions are grouped into the following four regions: Europe; North America; Asia Pacific; and South America, Africa, Middle East.

Corporate divisions, corporate departments and competence centers provide Group-wide services such as finance, investor relations, communications, human resources, research, engineering, site management, procurement, and environment, health and safety.

Management and Supervisory Bodies

General

In accordance with the maintained two-tier administrative system, BASF has a Board of Executive Directors (*Vorstand*) and a Supervisory Board (*Aufsichtsrat*). The two boards are separate, and no individual is simultaneously a member of both boards.

The Board of Executive Directors is responsible for managing the business of BASF in accordance with the German Stock Corporation Act and BASF's Articles of Association. The Board of Executive Directors also represents BASF in its dealings with third parties and in court.

The principal function of the Supervisory Board is to appoint and supervise the Board of Executive Directors. The Supervisory Board may not make management decisions, but BASF's Articles of Association or the Supervisory Board itself may require the prior consent of the Supervisory Board for certain types of transactions.

Members of both the Board of Executive Directors and the Supervisory Board owe a duty of loyalty and care to BASF. In exercising these duties, the applicable standard of care is that of a diligent and prudent business person. Members of both boards must take into account a broad range of considerations when making decisions, foremost the interests of BASF, including its shareholders, employees and creditors and, to a certain extent, the interests of society. The members of the Board of Executive Directors and the Supervisory Board are personally liable to BASF for breaches of their duties of loyalty and care.

None of the members of the Supervisory Board or the Board of Executive Directors of BASF have any material conflicts of interests between any duties to BASF and their private interests or other duties. The members of the Supervisory Board and of the Board of Executive Directors can be contacted at the address of the headquarters of BASF.

Board of Executive Directors

The number of members of the Board of Executive Directors is determined by the Supervisory Board, subject to a minimum of two members. As of the date of this Prospectus, BASF's Board of Executive Directors has eight members.

Pursuant to the Articles of Association of BASF, any two members of the Board of Executive Directors or one member and the holder of a special power of attorney (*Prokura*) may legally bind BASF.

The Board of Executive Directors must report regularly to the Supervisory Board on the current business of BASF, on its business policies and other fundamental matters regarding the future conduct of its business, on its profitability, particularly on its return on equity, on the risk exposure of BASF and the risk management, as well as on any exceptional matters that may arise from time to time. The Supervisory Board is also entitled to request special reports at any time.

The Supervisory Board appoints members to the Board of Executive Directors for a maximum term of five years. Members of the Board of Executive Directors may be re-appointed (even prior to the expiration of her or his term) or have their terms extended for one or more terms. Each re-appointment or extension shall have a maximum term of five years.

Under certain circumstances, such as a serious breach of duty or a bona fide vote of no confidence by a majority of votes at a Shareholders' Meeting, a member of the Board of Executive Directors may be removed by the Supervisory Board prior to the expiration of her or his term. A member of the Board of Executive Directors may not deal with or vote on matters relating to proposals, arrangements or contracts between that member and BASF.

The Articles of Association of BASF require decisions of the Board of Executive Directors to be made by a simple majority unless the law requires a larger majority. In case of a tie, the chairman has the casting vote.

The following table shows the current members of BASF's Board of Executive Directors effective as of the end of the Annual Shareholders' Meeting on May 4, 2018, and a list of responsibilities of outside directorships:

Supervisory Board

In accordance with the Articles of Association, the Supervisory Board of BASF SE comprises twelve members. Pursuant to Sec. 35 para. 1 of the German Act on the Participation of Employees in a European Company (SE Involvement Act, *Gesetz über die Beteiligung der Arbeitnehmer in einer Europäischen Gesellschaft* – "**SEBG**") and the Agreement Concerning the Involvement of Employees in BASF SE (Employee Participation Agreement) signed on November 15, 2007 by the company management and the representatives of BASF Group's European employees, seats on the Supervisory Board are accorded following the principle of parity. The six shareholder representatives on the Supervisory Board of BASF SE are elected by the Shareholders' Meeting. By way of derogation from Sec. 40 (2) of the Council Regulation (EC) No. 2157/2001, the six employee representatives are not elected by the Shareholders' Meeting, but appointed by the representative body of the employees, the BASF Europa Betriebsrat, in accordance with the Employee Participation Agreement. The term of office of the Supervisory Board commenced following the Annual Shareholders' Meeting on May 2, 2014, in which the shareholder representatives on the Supervisory Board were elected. It terminates upon conclusion of the Annual Shareholders' Meeting, which resolves on the discharge of members of the Supervisory Board for the fourth complete financial year after the term of office commenced; this is the Annual Shareholders' Meeting in 2019.

Any Supervisory Board member elected by the shareholders at BASF's Shareholders' Meeting may be removed by a resolution of the Shareholders' Meeting. Any board member elected by the employees may be removed upon request of the employees. The Supervisory Board appoints a chairman and one or more deputy chairmen from among its members. According to Art. 42 sentence 2 SE Regulation, it is mandatory that the chairman of the Supervisory Board is a shareholder representative. The chairman is appointed with the majority of the votes of the members present or represented. In order to ensure that this principle is adhered to for the election of the chairman, it is stipulated in Article 11 No. 1 of the Articles of Association of BASF SE that during the election of the chairman of the Supervisory Board the oldest member in terms of age of the shareholder representative acts as the chairman and has therefore the casting vote. Pursuant to the agreement concerning the involvement of employees in BASF SE, one of the deputy chairmen shall be elected at the proposal of the employee representatives. Compensation for Supervisory Board members is determined by BASF's Articles of Association.

At least half of the total required number of members of the Supervisory Board must be present or participate in decision-making to constitute a quorum. Unless otherwise provided for by law or BASF's Articles of Association, resolutions are passed by a simple majority of the votes cast. In the event of a tie, the chairman has a casting vote.

BASF SE's Supervisory Board established a total of three Supervisory Board Committees: the Personnel Committee, the Audit Committee and the Nomination Committee.

The Personnel Committee's duties include, amongst others, preparing the appointment of members to the Board of Executive Directors by the Supervisory Board and the employment contracts to be entered into with members of the Board of Executive Directors. When making recommendations on appointments to the Board of Executive Directors, the Personnel Committee takes into account their professional qualifications, international experience and leadership skills, long-term succession planning as well as diversity and, in particular, the appropriate consideration of women. It also prepares the resolutions made by the Supervisory Board with regard to the system and determination of the amount of compensation paid to members of the Board of Executive Directors. The committee comprises Supervisory Board Chairman Dr. Jürgen Hambrecht (chairman), Supervisory Board Vice Chairmen Michael Diekmann and Sinischa Horvat, and Michael Vassiliadis.

The Audit Committee prepares the negotiations and resolutions of the Supervisory Board for the approval of the financial statements and consolidated financial statements, and discusses the quarterly and first-half financial reports with the Board of Executive Directors prior to their publication. It also deals with: Monitoring the financial reporting process, the annual audit, the effectiveness of the internal control system, the risk management system, and the internal auditing system as well as compliance issues. The Audit Committee is also responsible for business relations with the company's external auditor: It prepares

the Supervisory Board's proposal to the Shareholders' Meeting regarding the selection of an auditor, monitors the auditor's independence, defines the focus areas of the audit together with the auditor, negotiates auditing fees and establishes the conditions for the provision of the auditor's non-audit services. The Audit Committee is authorized to request any information that it deems necessary from the auditor or Board of Executive Directors. It can view all of BASF's business documents and examine these and all other assets belonging to BASF. The Audit Committee can also engage experts such as auditors or lawyers to carry out these inspections. The members of this committee are Dame Alison J. Carnwath DBE (chairwoman), Ralf-Gerd Bastian, Franz Fehrenbach and Michael Vassiliadis. Dame Alison J. Carnwath DBE and Franz Fehrenbach are members with special knowledge of, and experience in, applying accounting and reporting standards and internal control methods pursuant to the German Corporate Governance Code ("**GCGC**").

According to the recommendation of the German Corporate Governance Code, BASF SE's Supervisory Board established a Nomination Committee that will prepare the proposals for the Supervisory Board members to be elected at the Shareholders' Meeting. The members of the Nomination Committee are the members of the Supervisory Board elected at the BASF Shareholders' Meeting: Dame Alison J. Carnwath DBE, Prof. Dr. François Diederich, Michael Diekmann, Franz Fehrenbach, Dr. Jürgen Hambrecht and Anke Schäferkordt.

German corporate governance rules

Principal sources of enacted corporate governance standards for BASF are the SE Council Regulation of the European Union, the German SE Implementation Act (*Gesetz zur Einführung der Europäischen Aktiengesellschaft* - "**SEEG**"), the German Stock Corporation Act (*Aktiengesetz* - "**AktG**") and the Agreement Concerning the Involvement of Employees in BASF. In addition, the German Corporate Governance Code (the "**Code**"), published by the German Ministry of Justice (*Bundesministerium der Justiz*) in 2002, as amended, presents essential widely accepted standards for the corporate governance of German listed companies. The aim of the Code is to make the German corporate governance rules applicable to listed German stock corporations transparent for national and international investors.

According to § 161 AktG (Stock Corporation Act), the Board of Executive Directors and the Supervisory Board of a listed German stock corporation are required to declare annually (declaration of compliance) either:

- (i) that the company has complied, and does comply, with the recommendations set forth in the Code, or, alternatively,
- (ii) that the company has not or does not comply with certain recommendations and the reason why it does not comply with these recommendations (so-called comply or explain system).

In December 2017, the Board of Executive Directors and the Supervisory Board of BASF declared pursuant to § 161 AktG (Stock Corporation Act) the following:

1. The recommendations of the Government Commission on the German Corporate Governance Code as amended on May 5, 2015, published by the Federal Ministry of Justice on June 12, 2015, in the official section of the electronic Federal Gazette, have been complied with since the submission of the last Declaration of Conformity in December, 2016.

Employees

As of December 31, 2017, BASF Group employed a workforce of 115,490 employees worldwide. About 47% of the workforce is based in Germany. In 2017, BASF Group spent EUR 10,610 million on wages and salaries, social security contributions and expenses for pensions and assistance. Personnel expenses increased by 4.4% compared to the previous year. This was primarily attributable to a higher average of headcount following the acquisition of Chemetall. The partial release of provisions for the long-term incentive program and currency effects had an offsetting effect.

The following table details BASF Group's workforce on a regional basis as of December 31, 2017 and 2016, respectively.

As of December 31, 2017, the number of employees rose to 115,490 employees compared with 113,830 employees as of December 31, 2016.

It was distributed over the regions as follows:

BUSINESS OVERVIEW – PRINCIPAL ACTIVITIES AND PRINCIPAL MARKETS

Introduction

With around 115,000 employees, six Verbund sites and 347 additional production sites worldwide BASF Group supports customers and partners in almost every country in the world. The portfolio ranges from chemicals, plastics, performance products and crop protection products to oil and gas.

For the year ended December 31, 2017, BASF Group reported sales of EUR 64,475 million, income from operations before special items of EUR 8,328 million.

Markets and sites

BASF has companies in more than eighty countries and supplies products to a large number of business partners in nearly every part of the world. In 2017, BASF Group achieved 45% of its sales with customers in Europe. In addition, 24% of sales were generated in North America; 22% in Asia Pacific; and 9% in South America, Africa and Middle East. BASF Group operates six Verbund sites as well as 347 additional production sites worldwide. The Verbund site in Ludwigshafen is one of the largest integrated chemical complexes in the world. This was where the concept of integrated production facilities (the "**Verbund**") was developed and continuously optimized before it was applied to other sites around the world.

The Production Verbund, for example, intelligently links production plants and thereby creates efficient value chains from basic chemicals right through to high value-added products such as aroma chemicals or

The "stable" outlook reflects that Standard & Poor's is not likely to change the rating in the next 6 to 24 months.

crop protection products. In addition, by-products from one plant can be used as raw materials elsewhere. With this closely interlinked production system, BASF Group saves raw materials and energy costs. Another important part of the Verbund concept is the Energy Verbund, in which steam from production processes is not discharged into the environment, but is captured to be used as an energy source at other production plants, thus making a major contribution to energy efficiency.

Organization of BASF Group

BASF Group is arranged into five segments: Chemicals, Performance Products, Functional Materials & Solutions, Agricultural Solutions and Oil & Gas. These five segments contain 13 divisions that managed and bore operational responsibility for BASF Group's 55 global and regional business units. The divisions develop strategies for 86 strategic business units and are organized according to sectors or products. At the end of September 2015, BASF Group rearranged the activities in the Oil & Gas segment, which are bundled into the Wintershall Group. As part of the asset swap with BASF Group's partner Gazprom, BASF Group handed over their shares in the previously jointly run natural gas trading and storage business and in return are expanding the oil and gas production in western Siberia. BASF Group continues to operate the natural gas transport business together with Gazprom, but do not report on it separately.

The regional divisions contribute to the local development of BASF Group's business and help to exploit market potential. They are also responsible for optimizing the infrastructure for BASF Group's business. For financial reporting purposes, the divisions are grouped into the following four regions: Europe; North America; Asia Pacific; and South America, Africa, Middle East.

Five research units, eight functional units and seven corporate units provide services for the BASF Group in areas such as finance, investor relations, communications, human resources, research, engineering and site management, as well as environment, health and safety.

In the BASF Group Consolidated Financial Statements, 286 companies including BASF SE are fully consolidated. BASF Group consolidates eight joint operations on a proportional basis, and 35 companies are accounted for using the equity method.

BASF Group strategy

BASF Group's portfolio ranges from chemicals, plastics, performance products and crop protection products to oil and gas. BASF Group strives to combine economic success with environmental protection and social responsibility. Through research and innovation BASF Group aims to enable its customers in nearly every industry to meet the current and future needs of society. BASF Group's products and solutions contribute to conserving resources, ensuring nutrition and helping to improve the quality of life. BASF Group has summed up this contribution in its corporate purpose: "We create chemistry for a sustainable future".

It is estimated that in 2050 around ten billion people will live on this planet. This population growth is associated with global challenges but BASF Group also sees opportunities, especially for the chemical industry. BASF Group expects the chemical industry to grow particularly strongly in the emerging economies. Innovations based on chemistry are expected to play a key role in the following areas in particular: resources, environment and climate; food and nutrition; and quality of life. Sustainability is becoming increasingly important as a key factor for growth and value creation. Customers tend to favor sustainable products and system solutions and employees expect companies to integrate sustainability into their day-to-day activities. That is why BASF Group intends to integrate sustainability even more closely into its business.

Four Strategic Principles

BASF Group strives to add value as one company: BASF Group's Verbund system is unique in the industry. BASF Group plans to strengthen this sophisticated and profitable Verbund system even further, hereby benefiting from its broad portfolio, operational excellence and solid financing. The concept extends from the Production Verbund and Technology Verbund to the Know-How Verbund, and provides access to all relevant customer industries worldwide. In this way, BASF Group combines its strengths and adds value as one company.

BASF Group wants to innovate to make its customers more successful: BASF Group also intends to align its business even more with customers' needs and contribute to their success with innovative and sustainable solutions. Through close partnerships with customers and research institutes, BASF Group links expertise in chemistry, biology, physics, materials science and engineering to jointly develop customized products, functional materials, and system solutions as well as processes and technologies.

BASF Group intends to drive sustainable solutions: In the future, sustainability will increasingly become a starting point for new business opportunities. BASF Group therefore values sustainability and innovation as important drivers for profitable growth.

BASF Group strives to form the best team: Committed and qualified employees around the world are key to making BASF Group's contribution to a sustainable future. That is why BASF Group will continue to pursue the goal of building the best team by offering good working conditions as well as an inclusive leadership culture that fosters mutual trust, respect and dedication to top performance.

Strategic levers

Portfolio management: BASF Group pursues active portfolio management. In recent years, BASF Group has continuously optimized its portfolio through acquisitions, divestitures and partnerships. BASF Group makes acquisitions to build on its strengths and to increase the Group's competitiveness. BASF Group's portfolio consists of two distinct business models: specialties and solutions as well as differentiated commodities. BASF Group aims to generate ~50% of sales in each of the business models.

Market approach: BASF Group aligns its business models and sales channels to customer groups and market segments by pooling products and services to even better meet the needs of customers from different industries. BASF Group has identified main customer industries that are served by its divisions. Main customer industries are targeted by a cross-divisional approach.

Innovations: Innovations based on effective and efficient research play an important part in enabling BASF Group to achieve its targets. Therefore, BASF Group is broadening its long-term research activities to encompass the development of new business areas. BASF Group focusses on three areas which chemistry-based innovations are expected to play a key role in the futures: resources, environment and climate; food and nutrition; and quality of life. BASF Group arranged the central Research units Process Research & Chemical Engineering, Advanced Materials & Systems Research, and Bioscience Research into three global platforms each headquartered in one of the regions particularly significant for BASF Group: Europe, Asia Pacific and North America. As knowledge and competence centers, they form the core of BASF Group's global Know-How Verbund, joined by the development units in BASF Group's operating divisions. BASF Group New Business and BASF Group Venture Capital supplement this network. Their task is to develop attractive new markets and new business models for BASF Group based on new technologies.

Investments: Investments targeting organic growth are one of the levers for BASF Group's future growth. BASF Group expects emerging markets to be a main driver of global growth in chemical production and hence intends to intensify the investments in emerging markets, while continuing the investments in mature markets. In 2017, BASF Group invested EUR 4,020 million in property, plant and equipment. Total investments were EUR 202 million lower than previous year and EUR 434 million above the level of depreciation in 2017. BASF Group is investigating the possibility of building a highly-integrated "Verbund" chemical production site in the South Chinese province of Guangdong. On July 9, 2018, Martin Bruder Müller, BASF's Chairman of the Board of Executive Directors, and Lin Shaochun, Executive Vice Governor of Guangdong Province, signed a non-binding Memorandum of Understanding in Berlin, in the presence of Germany's Chancellor Angela Merkel and the Chinese Premier Li Keqiang. The Verbund site in Guangdong would be BASF Group's largest investment and would be operated under the sole responsibility of BASF Group. China – with a world market share of around 40% – is the largest chemical market and dominates the growth of the global chemical production. The investment is estimated to reach up to USD 10 billion by completion of the project around 2030. The first plants could be completed by 2026 at the latest.

Acquisitions: Acquisitions are a contributing factor for achieving strategic targets. BASF Group wants to acquire businesses which generate profitable growth above the industry average. Any acquisition should be innovation-driven, offer a special value proposition to customers and reduce earnings cyclicality for the BASF Group. All future acquisitions have to fulfill BASF Group's strict financial criteria. They should be EPS (earnings per share) accretive by year three at the latest and should provide a return on investment above the WACC (weighted average cost of capital). The minimum hurdle rate increases if the acquisition is made in countries with a higher risk profile (*i.e.* implying country risk premia). In recent years, BASF Group acquired a number of specialized, close-to-end-user businesses (such as Cognis) or additions in value chains (such as Chemetall or the seed and non-selective herbicide as well as the crop protection businesses and assets from Bayer Group). In turn, the company divested more commoditized and cyclical businesses (such as styrenics). Please refer to sub-section "Acquisitions/Divestitures" for detailed information.

Operational excellence: BASF Group constantly works on improving its sites, plants and processes and will continue with its restructuring and cost-cutting measures in the future. At the same time, BASF Group is increasing its operational excellence through ongoing improvements by harmonizing business

processes worldwide and improving their efficiency. BASF Group's current strategic excellence program DrivE is expected to further strengthen the competitiveness and profitability. By the end of 2018, DrivE is expected to contribute around EUR 1 billion to earnings, compared with the baseline year 2015. This program includes measures in the areas of production, engineering, maintenance, logistics, procurement and administration, that are expected to lower fixed costs and raise profit margins.

BASF Group innovation

For the BASF Group, innovation is the key to successfully standing out from the crowd in a challenging market environment. BASF Group's innovative strength is based on BASF Group's global team of highly qualified employees with various specializations. BASF Group had around 10,000 employees involved in research and development in 2017. BASF Group's three global technology platforms are each run from one of the regions particularly significant for BASF Group – Europe, Asia Pacific and North America: Process Research & Chemical Engineering (Ludwigshafen, Germany), Advanced Materials & Systems Research (Shanghai, China) and Bioscience Research (Research Triangle Park, North Carolina). Together with the development units in BASF Group's operating divisions, they form the core of BASF Group's global Know-How Verbund. BASF New Business GmbH and BASF Venture Capital GmbH supplement this network with the task of using new technologies to tap into attractive markets and new business models for BASF Group.

In 2017, BASF Group generated sales of over EUR 9 billion with products launched on the market in the past 5 years that stemmed from research and development activities. In the long term, BASF Group aims to continue significantly increasing sales and earnings with new and improved products.

Global network

BASF Group's global network of about 600 universities, research institutes and companies forms an important part of its Know-How Verbund. BASF Group collaborates with them in many different disciplines. The direct access to external scientific expertise, new technologies and talented minds from various disciplines strengthens BASF Group's portfolio with creative new projects.

In BASF Group's excellence program "UNIQUE – The BASF Academic Partnership Program", BASF Group is working intensively with fifteen universities around the world. BASF Group also runs four postdoc centers that pool collaborations with several research groups on a regional level. The North American Center for Research on Advanced Materials (NORA) and the California Research Alliance (CARA) are located in North America. The Joint Research Network on Advanced Materials and Systems (JONAS) is active in Europe, while the Network for Advanced Materials Open Research (NAO) covers the Asia Pacific region.

In order to continuously promote exchange with external customers and partners, BASF Group has integrated the Creator Space® approach from its 2015 anniversary year into its regular research activities. BASF Group uses this program to develop innovative ideas.

Strategic focus

BASF Group's research pipeline comprised approximately 3,000 projects in 2017. Expenses for research and development amounted to around EUR 1,888 million, just above the prior-year level (EUR 1,863 million). The operating divisions accounted for 80% of total research and development expenses in 2017. The remaining 20% related to cross-divisional corporate research focusing on long-term topics of strategic importance to the BASF Group. BASF Group strives to maintain the recent years' high level of spending on research and development.

Innovations based on chemistry require market-oriented research and development focused on the needs of BASF Group's customers. That is why BASF Group's cross-divisional corporate research is closely aligned with the requirements of its operating divisions. In order to bring promising ideas to market as quickly as possible, BASF Group regularly assesses its research projects using a multistep process and focus its topics accordingly. Creativity, efficiency and collaboration with external partners are among the most important success factors.

BASF Group continued to refine BASF Group's innovation approach in 2017 and have identified additional, far-sighted topics that go above and beyond the current focus areas of its divisions to drive innovation in new business fields and with new technologies. The aim is to use these to exploit new business opportunities within the next few years. BASF Group is also working on overarching projects that are highly relevant from a technological, societal or regulatory point of view.

In 2017, BASF Group continued to work on the systematic application of digital technologies in research and development. In the years ahead, BASF Group plans to consistently expand existing expertise in fields like modeling and simulation and to develop new digital applications.

BASF Group's global research and development presence is vital to its success. BASF Group wants to continue advancing research and development activities, particularly in Asia as well as in North America, and adapting this to growth in regional markets. A stronger presence outside Europe creates new opportunities for developing and expanding customer relationships and scientific collaborations as well as for gaining access to talented employees. This strengthens the Research and Development Verbund and makes BASF Group an even more attractive partner and employer.

In addition to the Innovation Campus Shanghai (previously Innovation Campus Asia Pacific) which opened in 2015, BASF Group inaugurated the Innovation Campus Mumbai in 2017 to further increase research capacity in Asia. The new Campus brings together existing and new research and development activities in Mumbai, India, under one roof, where up to 300 scientists focus on crop protection and process development.

Ludwigshafen remains the largest site in the Research Verbund. This is underscored by the investment in the world's largest supercomputer for research in the chemical industry, which was put into operation in 2017. With a computing power of 1.75 petaflops,¹ Curiosity offers around 10 times the computing power previously available to BASF Group researchers worldwide. In collaboration with the Hewlett Packard Enterprise group, the new supercomputer was custom designed for chemical research and will drive forward the digitalization of BASF Group research globally.

The number and quality of BASF Group's patents also attest to the power of innovation and long-term competitiveness. BASF Group filed around 800 new patents worldwide in 2017 and once again ranked in the Patent Asset Index, a method that compares patent portfolios industry-wide.

BASF Group's segments

CHEMICALS

Segment overview

The Chemicals segment consists of the Petrochemicals, Monomers and Intermediates divisions. BASF Group produces a broad range of basic chemicals and downstream products in Europe, Asia and North America and South America for internal and external customers.

Segment strategy

The segment creates value by driving growth with an attractive portfolio, investments in future markets and process and product innovations as well as by the competitive and flexible integration of its production into the BASF Group Verbund structures. The segment supplies other BASF Group segments with basic chemicals for the production of high-value products. As a supplier, it markets its products to customers in downstream industries. It continually improves its value-adding chains with innovations, capital expenditures and acquisitions as well as through collaborations in future markets. Main success factors for the Chemicals segment are operational and technological excellence, scale effects, integration and raw material availability, reliable and low cost logistics, as well as the reduction of complexity. The segment constantly optimizes its portfolio and production structures and aligns them with regional market requirements. In Ludwigshafen, BASF Group will strengthen the Verbund by replacing BASF Group's acetylene plant, which occupies a central role for many products and value chains, with a plant by 2019. On September 18, 2017, BASF Group signed an agreement with Solvay on the acquisition of Solvay's global polyamide business by BASF Group. BASF Group plans to integrate Solvay's global polyamide business into the Monomers and Performance Materials divisions. Please refer to sub-section "Acquisitions/Divestures" for detailed information.

BASF Group business review and analysis

Full-Year 2017

In the Chemicals segment, sales to third parties increased by EUR 3,426 million in 2017 to EUR 16,331 million (volumes 5%, portfolio 0%, currencies -1%, prices 23%). This was primarily attributable to higher prices, especially in the Monomers division. BASF Group was able to raise its volumes overall. Income from operations (EBIT) before special items rose by EUR 2,201 million to EUR 4,233 million, mainly as a result of higher margins for isocyanates in the Monomers division. Stronger margins in the Petrochemicals and Intermediates divisions also contributed to the increase in earnings; slightly higher fixed costs had an offsetting effect. The negative impact on earnings in 2017 caused by the North Harbor accident at the Ludwigshafen site in October 2016 was compensated by insurance payments. EBIT rose by EUR 2,255 million to EUR 4,208 million. Overall, special items did not have a substantial impact.

Half-Year 2018

Sales in the Chemicals segment slightly exceeded the figure for the prior-year quarter. This was the result of higher prices, especially in the Monomers and Intermediates divisions, as well as volumes growth. By contrast, sales were negatively impacted by currency effects, primarily relating to the U.S. dollar. Income from operations (EBIT) before special items declined slightly compared with the second quarter of 2017. This was mainly due to significantly higher fixed costs as a result of scheduled and unscheduled plant turnarounds.

Petrochemicals

Sales to third parties in the Petrochemicals division rose by EUR 1,354 million to EUR 6,389 million in 2017. This was mainly due to significantly higher sales prices in all regions and in almost all strategic business units, particularly for steam cracker products. Prices largely followed the higher raw materials prices for naphtha and butane, BASF Group's most important feedstock. Sales volumes rose overall. Volumes rose significantly in North America, mainly as a result of higher capacity utilization of the steam cracker and the condensate splitter in Port Arthur, Texas. In Europe, sales volumes were up slightly from the previous year: Higher volumes, especially for steam cracker products, were able to compensate for the limited volumes growth for plasticizers and in the alcohols and solvents business following the accident at the North Harbor.

EBIT before special items considerably exceeded the 2016 figure as a result of higher margins. In Europe in particular, margins for steam cracker products as well as for alkylene oxides and glycols rose significantly. Margins for acrylic monomers and oxo alcohols also developed positively overall, mainly due to strong demand and low product availability. The negative impact on earnings in 2017 caused by the North Harbor accident was offset by insurance payments.

Monomers

In the Monomers division, sales to third parties in the Monomers division rose by EUR 1,774 million to EUR 6,963 million in 2017, largely as a result of higher prices. Robust demand and the temporary product shortages on the market led to a strong price increase, especially in the isocyanates business. Sales prices for polyamides also rose. BASF Group achieved year-on-year volumes growth with its new production facilities.

Stronger margins and volumes for isocyanates were the main reason for the considerable increase in EBIT before special items in the Monomers division. Earnings were also positively impacted by the restructuring of BASF Group's caprolactam production in Europe. Fixed costs exceeded the prior-year level, mainly from BASF Group's new production facilities.

Intermediates

Compared with 2016, sales to third parties in the Intermediates division rose by EUR 298 million year-on-year to EUR 2,979 million. This was mainly due to higher prices, particularly in the butanediol and derivatives as well as the acids and polyalcohols businesses. BASF Group was able to raise volumes in all regions in 2017. The amines business in Europe and Asia showed especially strong growth. Negative exchange rate effects and the divestiture of the inorganic specialties business in the first quarter of 2017, which included the site in Evans City, Pennsylvania, slightly dampened sales growth.

EBIT before special items in 2017 was up slightly from the previous year: Improved margins and higher sales volumes more than compensated for the rise in fixed costs. The year-on-year increase in fixed costs was primarily due to a higher number of plant maintenance activities, the startup of new production plants in all regions, as well as unplanned repairs.

The construction of the new acetylene plant in Ludwigshafen, Germany, is progressing on schedule.

PERFORMANCE PRODUCTS

Segment overview

The Performance Products segment consists of the Dispersions & Pigments, Care Chemicals, Nutrition & Health and Performance Chemicals divisions.

Customers use products and solutions of the segment to make their production processes more efficient or give their products improved application properties. The segment also offers high-performance products for detergents and cleaners, for cosmetics and for better nutrition. Other products from this segment improve processes in the paper industry, oil and gas production, mining and water treatment. They are also designed to enhance the efficiency of fuels and lubricants, the effectiveness of adhesives and coatings, and the stability of plastics.

Segment strategy

BASF Group takes on the challenges posed by important future issues, especially population growth: scarce resources, environmental and climatic stressors, greater demand for food and the desire for better quality of life. In doing so, BASF Group focuses on research and development and maintain close relationships to leading companies in its customer industries. BASF Group position itself globally in order to reliably supply customers in all regions. BASF Group invests in the development of innovations that enable its products and processes – as well as its customers' applications and processes – to make a contribution to sustainability: for example, by allowing resources to be used more efficiently.

BASF Group's products create additional value for its customers, providing a competitive advantage. BASF Group develops new solutions together with its customers and strive for long-term partnerships that create profitable growth opportunities for both sides. In this way, BASF Group aims to strengthen its focus on highly specialized applications in the business fields of displays and semi-conductors in the electronics industry, for example.

A different business model is pursued for standard products such as vitamins or dispersions for paper coatings. Here, efficient production setups, backward integration in BASF Group's Production Verbund's value chains, capacity management, and technology and cost leadership are all essential.

BASF Group supports its customers by serving as a reliable supplier with consistently high product quality, good value for money and lean processes. In the Dispersions & Pigments division, for instance, BASF Group draw on its in-depth knowledge of the areas of application and technological innovations to strengthen customer relationships in key industries.

At the Caojing site in Shanghai, China, BASF Group is planning a new plant for plastic additives (antioxidants), which is expected to be completed in 2019. BASF Group is expanding its existing ibuprofen production capacities in Bishop, Texas, and is planning the construction of a new world-scale ibuprofen plant in Ludwigshafen, Germany, scheduled for startup in 2021.

BASF Group business review and analysis

Full-Year 2017

At EUR 16,217 million, sales to third parties in 2017 in the Performance Products segment were EUR 659 million above the level of the previous year. This was primarily attributable to falling sales prices and the divestitures completed in 2015 (volumes 5%, prices 1%, portfolio –1%, currencies –1%). This is mainly attributable to volumes growth in all divisions. Higher sales prices in the Care Chemicals and Dispersions & Pigments divisions also had a positive impact on sales. Portfolio measures and negative currency effects in all divisions reduced sales slightly.

Income from operations (EBIT) before special items declined by EUR 361 million year-on-year to EUR 1,416 million. This was largely due to lower margins, primarily as a result of higher raw materials prices that could not be fully passed on via sales prices. Compared with 2016, EBIT declined by EUR 168 million to EUR 1,510 million. Special income in the Performance Chemicals division from the transfer of BASF Group's leather chemicals business to the Stahl group only partially compensated for the margin-related decline in earnings.

Half-Year 2018

Sales in the Performance Products segment declined slightly year on year. The main driver was negative currency effects in all divisions, mostly relating to the U.S. dollar. Lower volumes in the Nutrition & Health and Care Chemicals divisions, as well as portfolio effects in the Performance Chemicals and Dispersions & Pigments divisions also had a dampening effect on sales. By contrast, sales were positively impacted by higher sales prices. BASF Group slightly increased income from operations (EBIT) before special items compared with the prior-year quarter thanks to lower fixed costs and higher margins.

Dispersions & Pigments

At EUR 5,398 million, sales to third parties were EUR 312 million up from previous year in the Dispersions & Pigments division. This positive development was driven by volumes growth and higher sales prices in the dispersions business. Portfolio and currency effects were slightly negative overall. The acquisition of Rolic AG, Allschwil, Switzerland, in February 2017, had a positive impact on sales, while the divestiture of the photoinitiator business in August 2016 had a dampening effect.

This divestiture reduced sales in the additives business; sales increased in all other business areas. Sales volumes rose in all business areas, particularly in the dispersions and electronic materials businesses. Sales prices in the dispersions business increased on the back of higher raw materials prices. In the

remaining business areas, particularly electronic materials and pigments, sales prices were pushed down by stronger market competition.

Despite the rise in sales and volumes, EBIT before special items declined considerably compared with 2016. This was mainly due to lower margins as a result of the oil price-related increase in raw materials prices as well as slightly higher fixed costs.

Care Chemicals

In the Care Chemicals division, sales to third parties rose by EUR 344 million to EUR 5,079 million in 2017. This was predominantly the result of higher sales volumes, particularly in the hygiene business and of ingredients for the detergents and cleaners industries as well as for the cosmetics industry. Price increases on the back of higher raw materials prices, especially for oleochemical surfactants and fatty alcohols, also had a positive effect on sales. Currency effects reduced sales slightly.

Sales rose in all regions, buoyed by strong demand. Higher volumes led to sales growth in Europe in particular.

EBIT before special items declined considerably compared with 2016. This was mainly due to the ongoing pressure on margins for superabsorbents and lower margins for oleochemical surfactants. Fixed costs increased slightly as a result of additional maintenance costs and higher production volumes. Special charges were predominantly attributable to restructuring measures in North America.

In November 2017, BASF Group completed the technical retrofitting of the superabsorbent plant at the site in Antwerp, Belgium, where the superabsorbent products Saviva® and HySorb® can be produced.

Nutrition & Health

Sales to third parties in 2017 declined by EUR 88 million to EUR 1,844 million in the Nutrition & Health division. This was primarily attributable to portfolio effects. Sales were also reduced by slightly lower sales prices, especially for vitamins, as well as negative currency effects. Higher volumes in almost all business areas had an offsetting effect.

EBIT before special items declined considerably compared with 2016. This was mainly due to higher fixed costs from the gradual startup of BASF Group's new aroma ingredients complex in Kuantan, Malaysia, as well as the expansion of capacities at its ibuprofen production facility in Bishop, Texas. Earnings were also reduced by lower margins, especially for vitamins.

On October 31, 2017, a fire occurred during startup of the citral plant in Ludwigshafen, Germany. As a result, BASF Group had to declare Force Majeure for all citral- and isoprenol-based aroma ingredients, and consequently for vitamin A, vitamin E and several carotenoid products as well.

Performance Chemicals

In the Performance Chemicals division, sales to third parties rose by EUR 91 million to EUR 3,896 million compared with 2016. This was due to higher sales volumes in all regions and businesses. Volumes growth led to higher sales, especially in the lubricant and mineral oil additive businesses as well as in plastic additives. Sales were also positively impacted by the recovery of the markets for oilfield and mining chemicals. Lower sales prices, particularly in Asia and South America, negative currency effects and the transfer of BASF Group's leather chemicals business to the Stahl group reduced sales.

EBIT before special items declined considerably compared with the previous year. The softer margins resulting from higher raw materials prices were only partially offset by volumes growth and lower fixed costs.

BASF Group generated special income of EUR 195 million from the transfer of BASF Group's leather chemicals business to the Stahl group.

FUNCTIONAL MATERIALS AND SOLUTIONS

Segment overview

The Functional Materials & Solutions segment consists of the Catalysts, Construction Chemicals, Coatings and Performance Materials divisions. The segment bundles system solutions, services and innovative products for specific sectors and customers, in particular for the automotive, electrical, chemical and construction industries as well as for household applications and for sports and leisure.

Segment strategy

BASF Group develops innovative products and technologies in close cooperation with the customers. The aim is to find the best solution in terms of cost and functionality, helping customers to drive forward innovation in their industries and contribute to sustainable development. For instance, the transformation of mobility is a key trend in the automotive industry. To address this, BASF Group is developing solutions in the areas of battery materials, emission control, lightweight engineering concepts and coatings together with its customers. The specialties and system solutions enable customers to stand out from the competition.

Focus of the strategy is the ongoing optimization of product and services portfolio and structures according to different regional market requirements as well as trends in the customer industries. BASF Group is positioning itself to grow profitably and faster than the market.

BASF Group aims to secure the strong market position in Europe, to profitably expand the position in the North American market and to purposefully extend activities in the growth regions of Asia, South America, eastern Europe and the Middle East. New business fields such as battery materials play a particularly important role here.

On September 18, 2017, BASF Group signed an agreement with Solvay on the acquisition of Solvay's integrated polyamide business. The aim is to close the transaction in the third quarter of 2018 after regulatory approvals have been obtained and the consent of a joint venture partner has been received. BASF Group plans to integrate the global polyamide business into the Performance Materials and Monomers divisions. Please refer to sub-section "Acquisitions/Divestitures" for detailed information.

BASF Group business review and analysis

Full-Year 2017

In the Functional Materials & Solutions segment, sales to third parties increased by EUR 2,013 million to EUR 20,745 million. This was due to higher prices and volumes as well as the Chemetall business, which was acquired from Albemarle in December 2016; sales were slightly reduced by currency effects (volumes 4%, prices 5%, portfolio 3%, currencies –1%). The volumes growth was largely attributable to higher demand for the products for the automotive and construction industries.

At EUR 1,617 million, income from operations (EBIT) before special items was down EUR 329 million on the 2016 figure, primarily due to lower margins and higher fixed costs. Special charges in 2017 mainly related to integration costs in connection with the Chemetall acquisition as well as the acquisition of the western European building material business for professional users from the Henkel group. In 2016, special income arose from the divestiture of the industrial coatings business in the Coatings division. EBIT declined by EUR 654 million to EUR 1,545 million in 2017.

Half-Year 2018

In the Functional Materials & Solutions segment, BASF Group recorded slight sales growth compared with the prior-year quarter on the back of higher prices and increased sales volumes. Sales were negatively impacted by currency effects, primarily relating to the U.S. dollar. Income from operations (EBIT) before special items was considerably below the figure for the second quarter of 2017, primarily as a result of higher fixed costs and lower margins due to the increase in raw materials prices.

Catalysts

In the Catalysts division, sales to third parties in the Catalysts division rose by EUR 395 million to EUR 6,658 million in 2017. This was primarily due to higher sales prices on the back of an increase in precious metal prices and increased volumes of mobile emissions catalysts. Currency effects and the divestiture of the polyolefin catalysts business in June 2016 had a negative impact on sales.

BASF Group increased sales volumes for battery materials and chemical catalysts, while volumes declined in the refining catalysts business. In precious metal trading, sales rose by EUR 182 million to EUR 2,518 million. Higher prices more than offset the decline in volumes.

BASF Group considerably increased EBIT before special items year-on-year, mainly thanks to higher sales volumes.

Construction Chemicals

In the Construction Chemicals division, sales to third parties reached EUR 2,412 million, an increase of EUR 80 million over 2016. This was partly attributable to the acquisition of the Henkel group's western European building material business for professional users in early 2017, as well as the acquisition of the

waterproofing systems supplier Grupo Thermotek, Monterrey, Mexico, in September 2017. BASF Group also increased the sales volumes. Overall, prices remained on a level with the previous year.

The aforementioned acquisition of the construction chemicals business and higher volumes led to sales growth in Europe. In North America, the acquisition of Thermotek only partially compensated for declining volumes and negative currency effects. Sales in Asia rose year-on-year due to volumes growth. In the region South America, Africa, Middle East, sales decreased as a result of negative currency effects and slightly lower volumes and prices. Demand in the Middle East in particular did not meet BASF Group's expectations.

EBIT before special items was considerably below the 2016 figure, primarily as a result of higher raw materials prices. Special charges mainly arose in connection with the acquisition of the western European building material business for professional users from the Henkel group.

Coatings

In the Coatings division, sales to third parties in 2017 grew by EUR 720 million to EUR 3,969 million, mainly as a result of the Chemetall business acquired in December 2016. BASF Group increased sales volumes in Asia and Europe in particular. Sales were reduced by negative currency effects, especially in Asia and North America, as well as slightly lower prices.

Sales of automotive OEM (Original Equipment Manufacturer) coatings increased thanks to higher volumes in all regions. BASF Group recorded slight sales growth in the automotive refinish coatings business, as BASF Group were able to more than offset the negative currency effects with higher sales volumes and the acquisition of Guangdong Yinfan Chemistry, Jiangmen, China, in September 2016. In the decorative paints business in Brazil, sales were up slightly on the prior-year figure: currency effects and slight price increases had a positive impact, while demand declined slightly.

EBIT before special items in the Coatings division declined considerably. The Chemetall business made a positive contribution to earnings but was unable to compensate for the decline in the businesses not affected by the portfolio measures. The decrease in the latter was mainly due to higher fixed costs and lower margins as a result of the increase in raw materials prices. Special charges arose from the integration of the Chemetall business and the restructuring in connection with the divestiture of the industrial coatings business, which was completed in December 2016 and led to special income in the prior year.

In November 2017, BASF Group inaugurated a new large-scale automotive coatings plant at the Caojing site in Shanghai, China, to complement the existing automotive coatings plant there. BASF Group also inaugurated a production facility for automotive OEM coatings in Bangpoo, Thailand. With the expansion, BASF Group aim to even better serve the growing automobile market in Asia Pacific, especially in China.

Performance Materials

The Performance Materials division raised its sales to third parties by EUR 818 million to EUR 7,706 million in 2017. This was largely thanks to price increases on the back of a significant rise in raw materials prices. Higher sales volumes to the automotive, consumer goods and construction industries also contributed to sales growth, while currency effects had a negative impact.

There was strong growth in sales to the automotive industry in Europe and Asia in particular thanks to higher prices and greater demand for polyurethane systems and engineering plastics. The increase in sales volumes in North and South America also contributed to the positive sales development.

In the consumer goods industry, sales were likewise up significantly year-on-year, mainly as a result of higher volumes in Asia and Europe. BASF Group recorded volumes growth, particularly in the businesses with polyurethane systems, thermoplastic polyurethanes and biopolymers. Significantly higher prices in the polyurethane systems business also had a positive effect.

Sales to the construction sector grew, mainly as a result of the significant increase in sales prices for polyurethane systems and styrene foams in Europe and Asia. Higher volumes in all regions also boosted sales.

EBIT before special items was considerably below the prior-year figure. This was mainly attributable to lower margins: The increase in raw materials prices could only be partially offset by the higher sales prices. Earnings were also reduced by higher production costs from the startup of new plants. EBIT before special items in the previous year also included positive one-off effects from insurance payments and the release of provisions.

AGRICULTURAL SOLUTIONS

Segment overview

The Agricultural Solutions segment consists of the Crop Protection division. The division develops and produces innovative active ingredients and formulations for the improvement of crop health and yields, and markets them worldwide. BASF Group's activities in the field of plant biotechnology are part of the Bioscience Research technology platform. Research and development expenses, sales, earnings and all other data are not included in the Agricultural Solutions segment; they are reported in "Other".

Crop Protection

Strategy

Natural resources such as land and arable area are limited, while the world's population and its demand for food continue to grow. This means that farmers around the world face the challenge of increasing their crop yields with limited resources. BASF Group offers its customers innovative solutions combined with practical, down-to-earth advice so that they can produce more – and more nutritious – food as efficiently as possible.

BASF Group is committed to the responsible treatment of the products and the preservation of a healthy environment. BASF Group also constantly invests in its development pipeline to offer its customers an increasingly wide range of integrated solutions for crop protection and beyond.

BASF Group's research and development activities range from solutions for guarding plants against fungi, insects and weeds, to seeds and improved soil management, and supporting plant health. For example, the Functional Crop Care business unit provides products for improving seeds and innovations for better nitrogen and water management in soil. It also offers biological and chemical technologies that make plants better able to withstand stress factors like heat, cold and nutrient deficiency.

The success of BASF Group's customers depends on many factors such as weather, plant health, soil conditions and prices for agricultural products. As a result, modern farmers have to analyze more and more data of increasing complexity to make the right cultivation decisions. BASF Group's innovative digital applications help the customers to use these data to their advantage as a basis for making better decisions, ensuring more efficient and sustainable resource allocation.

One example of the strategic investments in digital solutions is the acquisition of ZedX Inc., Bellefonte, Pennsylvania, in May 2017. ZedX is a leader in the development of information technology products and services for the agriculture sector. The company develops agronomic weather, crop and pest models that can rapidly translate data into insights for more efficient agricultural production.

BASF Group's aim is to offer farmers a wider range of solutions going forward to even better meet the growing demand for high-quality seeds as well as chemical and biological crop protection.

On August 1, 2018, BASF Group closed the acquisition of significant parts of Bayer's seed and non-selective herbicide businesses. Bayer divested these assets in the context of its planned acquisition of Monsanto. BASF Group closed the acquisition of further businesses and assets, which Bayer offered to divest in the context of its planned acquisition of Monsanto on August 16, 2018. Please refer to sub-section "Acquisitions/Divestitures" for detailed information.

Investments

In 2017, BASF Group invested EUR 114 million in property, plant and equipment. Major projects included the startup of the expanded production capacities for dicamba in Beaumont, Texas, as well as new production capacities for the fungicide Revysol® and the insecticide Inscalis®. In the area of Functional Crop Care, BASF Group expanded its capacities for biological seed treatments and soil management in Saskatoon, Canada. BASF Group also invested in infrastructure, in particular at the plants in North America. In order to continue meeting the ongoing high demand for the innovative solutions in the future, BASF Group will invest around EUR 780 million in developing and expanding its infrastructure and in its production and formulation capacities for active ingredients between 2018 and 2022.

BASF Group business review and analysis

Full-Year 2017

In the Agricultural Solutions segment, sales to third parties in 2017 rose by EUR 127 million to EUR 5,696 million result of higher sales volumes in an ongoing difficult market environment for crop protection

products, sales growth was negatively impacted by price declines, especially in South America, and negative currency effects (volumes 6%, prices 3%, portfolio 0%, currencies 1%).

In Europe, sales increased by EUR 25 million to EUR 1,983 million. Volumes growth, especially in oilseed herbicides in eastern and southern Europe, more than compensated for declines in western and northern Europe, particularly in fungicides.

At EUR 2,003 million, sales in North America exceeded the prior-year figure by EUR 202 million. BASF Group was able to considerably increase sales volumes, especially for herbicides in the United States. The successful market launch of BASF Group's new herbicide Engenia® contributed substantially to sales growth. Strong demand for fungicides in Canada also had a positive impact.

Sales in Asia rose by EUR 33 million to EUR 582 million. BASF Group achieved particularly strong volumes growth for fungicides in China and India, particularly with innovations such as BASF Group's new product portfolio for rice. In Southeast Asia, sales volumes increased, especially for fungicides and herbicides.

In the region South America, Africa, Middle East, sales declined by EUR 133 million to EUR 1,128 million. This was largely due to lower prices for fungicides and insecticides, negative currency effects and the reduction of inventories at the customers in Brazil. Here, BASF Group was able to increase sales volumes despite the ongoing difficult business environment for crop protection products. The positive trend in Argentina also contributed to volumes growth in the region.

Income from operations (EBIT) before special items was EUR 1,033 million, down EUR 54 million on the prior-year figure. The slight decline was mainly due to the lower average margins from a different product mix and the difficult market situation in Brazil. Earnings were also negatively impacted by the shutdowns of BASF Group's production facilities in Beaumont, Texas, and Manatí, Puerto Rico, because of the hurricanes. Fixed costs rose slightly. EBIT declined by EUR 22 million to EUR 1,015 million.

Half-Year 2018

Sales in the Agricultural Solutions segment declined slightly compared with the prior-year quarter due to negative currency effects in all regions. BASF Group increased sales volumes in South America and Asia in particular, and raised prices slightly.

Sales in Europe decreased slightly as a result of negative currency effects. These could not be completely offset by higher volumes, particularly for herbicides in central and eastern Europe.

In North America, sales were considerably lower than in the second quarter of 2017. Sales were reduced by lower volumes, particularly of fungicides in Canada due to the late start to the season and higher inventories at the customers. Negative currency effects also contributed to the decline in sales.

BASF Group recorded considerable sales growth in Asia thanks to higher sales volumes of fungicides in India and China, among other countries, and a slight increase in prices in the region. Currency effects had a negative impact on sales.

Sales in the region South America, Africa, Middle East rose considerably, mainly due to higher volumes. Volumes growth in Brazil was driven by fungicides and insecticides, while Argentina saw particularly strong increases in herbicide volumes. Significantly negative currency effects had an offsetting effect.

Income from operations before special items was slightly higher than in the second quarter of 2017. Despite the negative currency effects, a more favorable product mix lifted BASF Group's average margin. This more than compensated for the slight increase in fixed costs.

Plant biotechnology at BASF Group

BASF Group's activities in the field of plant biotechnology are part of the Bioscience Research technology platform. Research and development expenses, sales, earnings and all other data are not included in the Agricultural Solutions segment; they are reported under Other.

With the network of research sites, BASF Group helps farmers meet the growing demand for increased agricultural productivity as well as better nutrition. With a pioneering platform for gene identification, BASF Group has specialized in the development of plant characteristics such as higher yield, herbicide tolerance, disease resistance and quality traits. BASF Group's goal is to optimize crops so that farmers can achieve greater and more secure yields. In this way, BASF Group makes an important contribution to securing a better food supply for a growing world population. BASF Group also contributes to sustainable agriculture, as the cultivation of these plants significantly reduces the amount of land, water and energy required to produce each metric ton of harvested crops.

Together with Cargill, BASF Group is developing a rapeseed oil that represents a new source of heart-healthy omega-3 fatty acids, for example. The first regulatory dossier was submitted to the U.S. Department of Agriculture in November 2017. Market launch is planned from 2020, subject to regulatory approval. BASF Group is also working on a soybean that is resistant to the devastating Asian soybean rust disease. A number of lead genes have been successfully tested in field trials in Brazil.

OIL & GAS

Segment overview

BASF Group's oil and gas activities are bundled in the Wintershall Group. Wintershall and its subsidiaries operate in the business sectors Exploration & Production.

Segment strategy

In the future, crude oil and natural gas will continue to contribute significantly toward covering the rising energy demand of a growing world population. That is why BASF Group invests in the exploration and production of oil and gas, primarily in the core regions Europe, North Africa, Russia and South America. BASF Group wants to establish the Middle East as another core region in its portfolio.

Selected collaborations and strategic partnerships, innovative technologies and the responsible development and production of hydrocarbons all form the basis of Wintershall's growth-oriented strategy. Through the continuous optimization of its cost structure and portfolio of oil and gas activities, Wintershall ensures its future competitive viability, even in times when oil and gas prices are low. Measured by production volumes, gas activities comprised around 70% of its portfolio.

Handling hydrocarbons in a responsible manner demands special measures for the protection of people and the environment. Wintershall therefore carefully assesses the potential effects of every project before Wintershall begins. Together with experts, contractors and relevant stakeholders, Wintershall develops methods and carries out measures for using resources even more efficiently and minimizing impact on the environment. This includes acting in accordance with international agreements, legal requirements and Wintershall's self-imposed high standards.

On December 7, 2017, BASF Group signed a letter of intent with the LetterOne group on the merger of their respective oil and gas businesses in a joint venture, which would operate under the name Wintershall DEA. Please refer to sub-section "Acquisitions/Divestures" for detailed information.

Wintershall DEA would have significant growth potential and be one of the largest independent European exploration and production companies. Production volumes of Wintershall and DEA in 2016 corresponded to around 590,000 barrels of oil equivalent (BOE) per day; the proven reserves at the end of 2016 amounted to 2.1 billion BOE.

The merger is designed to optimize the portfolio footprint of the combined business and exploit synergies. In the medium term, BASF Group aims to take Wintershall DEA public together with LetterOne.

The definitive transaction agreements are to be negotiated over the coming months; the transaction could be expected to close in the second half of 2018, subject to the customary regulatory approvals. There is no assurance that BASF Group will enter into definitive transaction agreements with LetterOne or that the intended transaction will be consummated.

Exploration & Production

Europe: The Mittelplate field off the North Sea coast is the cornerstone of BASF Group's crude oil production in Germany. BASF Group owns a 50% share in the development of this largest known oil deposit in the country. Some 30 million metric tons of oil have already been extracted there. BASF Group has completed and started up all 12 new wells at the Emlichheim site. A new drilling campaign with a total of five new production wells started at the Bockstedt oilfield. The first wells have already started operation. BASF Group conducted a seismic survey at the Landau concession in early 2017 and are currently evaluating the results.

In Norway, oil production from the Maria field in the Norwegian Sea started in 2017. It is the first project in Norway that Wintershall has operated from the discovery of the field to the start of production. Rather than building a new production platform, BASF Group implemented an innovative development concept for Maria: The production equipment was installed directly on the seabed and connected underwater with three nearby platforms operated by BASF Group's cooperation partner Statoil. Production started a year earlier than originally planned and costs were more than a fifth lower than expected. Development of the

Ivar Aasen and Edvard Grieg fields continued with additional wells drilled. As the operator of the Nova field (previously: Skarfjell), BASF Group is in the process of finalizing the development concept. This proposes to connect the oil and gas reservoir with the nearby Gjøa platform via a subsea tieback. In January 2017, Wintershall was granted shares in five new exploration licenses on the Norwegian continental shelf from the Ministry of Petroleum and Energy. Wintershall will take over operatorship of two licenses.

In early 2017, Wintershall Noordzee B.V., Rijswijk, Netherlands, started production from the Ravn oilfield as operator. It is the first oilfield operated by the company in Denmark. Technical difficulties arose in production in mid-August; BASF Group is still working on a solution.

Russia: The Yuzhno Russkoye natural gas field in western Siberia, in which Wintershall has a 35% economic interest, has been producing at plateau since 2009. BASF Group holds a 50% share in the development of Block IA of the Achimov formation in the Urengoy field in western Siberia. The gradual development of this field was continued and 88 wells were producing at the end of 2017. BASF Group will develop blocks IV and V of the Achimov formation with their partner Gazprom. BASF Group is also active in exploration and production in the Volgograd region together with the LUKOIL group.

North Africa / Middle East: In Libya, BASF Group is the operator of eight oilfields in the onshore concessions 96 and 97. Crude oil production was temporarily suspended in both concessions in March 2017. Based on an agreement with the government-owned National Oil Corporation ("**NOC**"), BASF Group was able to resume production from June to October: 55,000 barrels of oil per day ("**BOPD**") for concession 96 and 10,000 BOPD for concession 97. Production in concession 96 then halted due to a strike. BASF Group is currently negotiating with NOC on the framework of BASF Group's future cooperation. At the Al Jurf oilfield off the coast of Libya, in which BASF Group holds a share, operations could be continued without interruption in 2017.

In Abu Dhabi, Wintershall successfully completed the first offshore exploration well in the Shuwaihat field.

South America: BASF Group holds shares in a total of 15 onshore and offshore fields in Argentina. In the Neuquén province, BASF Group drilled three pilot wells as an operator in the Bandurria Norte block. The first exploration well in the CN-V block in the Mendoza province found oil. In Tierra del Fuego, work began on the expansion of the gas treatment facilities for the Cuenca Marina Austral 1 concession.

In the Neuquén province, Wintershall reduced its interest in the Aguada Pichana concession. Its share in the Aguada Pichana Oeste (West) block was sold to Pan American Energy LLC, Buenos Aires, Argentina, and YPF S.A., Buenos Aires, Argentina. Wintershall reduced its interest in the Aguada Pichana Este (East) block through the sale of shares to Total Austral S.A., Buenos Aires, Argentina, at the beginning of 2018.

Natural Gas Transport

The largely regulated natural gas transportation sector is characterized by stable conditions and yields based on approved costs and tariffs. The organizational structure meets the unbundling requirements set down by the German Energy Act.

As an indirect holding company for the German subsidiaries in natural gas transportation, WIGA Transport Beteiligungs-GmbH & Co. KG ("**WIGA**") mainly fulfills a reporting and financing function. GASCADE Gastransport GmbH, OPAL Gastransport GmbH & Co. KG, and NEL Gastransport GmbH all act as independent companies under the umbrella of the WIGA group.

In August 2017, BASF Group established W & G Infrastruktur Finanzierungs-GmbH as an intermediate holding company and contributed GASCADE Gastransport GmbH and NEL Gastransport GmbH to it. The intermediate holding company performs WIGA's financing function for the two companies and is accounted for in the BASF Group's financial statements using the equity method.

The companies under the WIGA umbrella operate a 3,300-kilometer long-distance pipeline network that includes links to the Nord Stream pipeline, the Baltic Sea Pipeline Link (OPAL) and the North European Gas Pipeline (NEL).

GASCADE Gastransport GmbH plans, as project developer, to construct the 485-kilometer European gas pipeline link ("**EUGAL**"), which will extend from the Baltic sea in northern Germany to the Czech border. Its maximum annual transportation capacity of 51 billion cubic meters is to be achieved in two phases by 2020. The project will be implemented under a fractional ownership agreement with the partners Fluxys Deutschland GmbH, Düsseldorf, Gasunie Deutschland Transport Services GmbH, Hannover, and ONTRAS Gastransport GmbH, Leipzig, each of which holds a 16.5% share.

BASF Group holds a 15.5% share in the Nord Stream pipeline that started up in 2011 through Nord Stream AG, based in Zug, Switzerland, which is accounted for in the BASF Group's financial statements using the equity method. Other shareholders are the Gazprom (51%), E.ON (15.5%), N.V. Nederlandse Gasunie (9%) and ENGIE (9%) groups. With a total capacity of 55 billion cubic meters of natural gas per

year, this pipeline, which stretches from Russia to the German coast over the Baltic Sea, helps strengthen the security of supply in Europe.

Wintershall is contributing to the financing of the new Nord Stream 2 project as a co-creditor. Its implementation will strengthen infrastructure and security of supply in Europe, which is particularly important given the decline in production there. Together with the ENGIE, OMV, Royal Dutch Shell and Uniper groups, Wintershall signed long-term financing agreements with the project company Nord Stream 2 AG, Zug, Switzerland, on April 24, 2017. The five European energy companies committed to long-term financing of 50% of the entire project costs, which are currently estimated at EUR 9.5 billion. Wintershall will provide up to EUR 950 million. As of December 31, 2017, EUR 324 million of this amount had already been called up. Gazprom is the sole shareholder of the project company Nord Stream 2 AG.

BASF Group business review and analysis

Full-Year 2017

In the Oil & Gas segment, sales to third parties increased by EUR 476 million to EUR 3,244 million year-on-year (volumes 4%, prices/currencies 13%, portfolio 0%). The price of a barrel of Brent crude oil averaged USD 54 in 2017 (previous year: USD 44). Gas prices on European spot markets rose by 24% compared with the previous year. Volumes growth was mainly driven by higher gas sales volumes. Production volumes matched the prior-year level.

Income from operations (EBIT) before special items grew by EUR 276 million to EUR 793 million in 2017. This is primarily attributable to the increase in oil and gas prices as well as the higher earnings contribution from BASF Group's share in the Yuzhno Russkoye natural gas field. Comprehensive measures aimed at optimizing exploration and technology projects as well as the successful implementation of operational cost-saving measures also had a positive effect. EBIT rose by EUR 544 million to EUR 1,043 million. This included special income from the reversal of impairments in Norway and the Netherlands as well as from the sale of shares in the Aguada Pichana concession in Argentina. This was partially offset by an impairment on exploration potential in Norway. Net income increased by EUR 357 million to EUR 719 million.

At 164 million barrels of oil equivalent ("**BOE**"), the oil and gas production was on a level with the previous year. In the search for new oil and gas reservoirs, BASF Group completed a total of seven exploration and appraisal wells in 2017, of which three were successful. The proven oil and gas reserves rose by 3% compared with the end of 2016, to 1,677 million BOE. BASF Group replenished 133% of the volumes produced in 2017. The reserves-to-production ratio is around 10 years (2016: 10 years). This is based on Wintershall's production in 2017 and the reserves at year-end.

Half-Year 2018

In the Oil & Gas segment, sales rose considerably compared with the prior-year quarter, mainly due to higher prices. Sales were also lifted by increased volumes from Norway following the start of production at new fields and stronger trading volumes. The price of a barrel of Brent crude oil averaged USD 74 in the second quarter of 2018 (second quarter of 2017: USD 50). Gas prices on the European spot markets were also significantly higher than in the prior-year quarter. Sales were reduced by currency effects.

BASF Group considerably improved income from operations before special items. Oil and gas prices rose. In Norway, BASF Group recorded both lower depreciation as a result of higher reserves and volumes growth. Net income rose considerably.

RESPONSIBILITY ALONG THE VALUE CHAIN

BASF Group defines sustainability as balancing economic success with social and environmental responsibility and has strategically embedded sustainability into the company as a significant driver for growth. Its sustainability management has three responsibilities: Identifying significant topics early on, taking advantage of business opportunities and minimizing risks. This endeavor is supported by constant, trust-based exchange with BASF Group's stakeholders as well as by a systematic materiality analysis. BASF Group takes advantage of business opportunities by offering its customers innovative products and solutions that contribute to sustainable development. BASF Group includes sustainability in the development and implementation of its business units' strategies and research projects. BASF Group minimizes risks by setting itself globally uniform standards for safety and security, environmental and health protection, product stewardship and compliance, as well as labor and social standards. In addition, BASF Group has integrated various dimensions of sustainability into its standard processes for evaluating investment decisions in property, plant and equipment as well as in financial assets.

Supply chain management: With BASF Group's sustainability-oriented supply chain management, BASF Group contributes to risk management by clarifying BASF Group's expectations and standards for BASF Group's suppliers, and by supporting them in carrying out BASF Group's specifications. BASF Group counts on reliable supply relationships and wants to make its suppliers' contribution to sustainable development transparent. In order to achieve this, BASF Group sets themselves an ambitious goal: By 2020, BASF Group aims to evaluate the sustainability performance of 70% of the BASF Group's relevant suppliers pursuant to BASF Group's risk-based approach and develop action plans for any necessary improvements. The proportion of evaluated relevant suppliers was at 70% by the end of 2017. Furthermore, BASF Group's Procurement competence center supports BASF Group's business units in developing solutions to stand out from the competition in addressing customers' market-specific requirements.

Raw materials: The Verbund system is an important component of BASF Group's resource efficiency concept: The by-products of one plant often serve as feedstock elsewhere, thus helping BASF Group to use raw materials more efficiently. In 2016, BASF Group purchased a total of around 30,000 different raw materials from more than 6,000 suppliers. Some of the most important raw materials are naphtha, natural gas, methanol, ammonia and benzene. BASF Group investigates the use of renewable resources in the Verbund system and is involved in the responsible cultivation and utilization of renewables in numerous projects along the value chain. In 2016, around 5% of the raw materials BASF Group purchased worldwide were from renewable resources.

Safety, security and health

Responsible Care Management System: BASF Group's Responsible Care Management System comprises the global directives, standards and procedures for safety, security, health and environmental protection for the various stations along the value chain. The regulations cover the transportation of raw materials, activities at the sites and warehouses, and distribution of the products as well as the customers' application of the products. Specifications for implementing these measures are laid out in binding directives that are introduced in consultation with employee representatives. These describe the relevant responsibilities, requirements and assessment methods. The policies and requirements are constantly updated. BASF Group also maintains a dialog with government institutions, associations and other international organizations.

BASF Group set ambitious goals for safety and security, and health and environmental protection. BASF Group regularly conducts audits to monitor its performance and progress. BASF Group assesses the potential risks and weak points of all its activities – from research to production and logistics – and the effects of these on the safety and security of BASF Group's employees, the environment or the surroundings. In databases, BASF Group documents accidents, near misses and safety-related incidents at our sites as well as along its transportation routes to learn from these; appropriate measures are derived according to specific cause analyses.

Transportation and storage:

BASF Group wants its products to be safely loaded, transported, handled and stored. This is why BASF Group depends on reliable logistics partners, global standards and an effective organization. Their goal is to minimize risks along the entire transportation chain – from loading and transportation to unloading. Some of their guidelines for the transportation of dangerous goods go above and beyond national and international dangerous goods requirements. BASF Group has defined global guidelines and requirements for the storage of its products and regularly monitor compliance with these.

BASF Group regularly assesses the safety and environmental risks of transporting and storing raw materials and sales products with high hazard potential using its global guideline. This is based on the guidelines of the European Chemical Industry Council, CEFIC. BASF Group also has binding global standards for load safety.

BASF Group stipulates worldwide requirements for their logistics service providers and assess them in terms of safety and quality. BASF Group experts use their own evaluation and monitoring tools as well as internationally approved schemes.

BASF Group is systematically implementing measures to improve transportation safety and report in particular on dangerous goods spillages that could lead to significant environmental impacts. BASF Group reports on dangerous goods leaks of BASF Group products in excess of 200 kilograms on public transportation routes, provided BASF Group arranged the transport.

BASF Group has been able to reduce the number of transportation accidents per 10,000 shipments worldwide by around 70% since 2003. They recorded three incidents in 2017 with spillage of more than 200 kilograms of dangerous goods (2016: 2). None of these transportation incidents had a significant impact on the environment (2016: 0).

BASF Group is actively involved in external networks, which quickly provide information and assistance in emergencies. These include the International Chemical Environmental ("ICE") initiative and the German Transport Accident Information and Emergency Response System ("TUIS"), in which BASF Group plays a coordinating role. In 2017, BASF Group provided assistance to other companies in 178 cases worldwide. BASF Group applies the experience they have gathered to set up similar systems in other countries: For example, BASF Group intensified its activities in Asia Pacific in 2017.

Production:

BASF Group has set ambitious goals for occupational and process safety as well as health protection. BASF Group stipulates globally mandatory standards for safety, security and health protection. A worldwide network of experts supports BASF Group in its implementation. Tried-and-true processes and solutions are documented and made globally available through networks and structured exchange. BASF Group regularly conducts audits on safety, security, health and environmental protection in order to monitor progress toward its goals. Risk-conscious working behavior is promoted for every individual through measures like systematic hazard assessments, specific qualification measures and global safety initiatives. Based on BASF Group's corporate values, leaders serve as safety role models for its employees. Together, they contribute to the constant development of BASF Group's safety culture.

Products: BASF Group ensures uniformly high standards for product stewardship worldwide and its voluntary initiatives go beyond legal requirements. BASF Group monitors the implementation of its guidelines with regular audits. BASF Group provides extensive information on its chemical products to its customers and the public with safety data sheets in more than 30 languages. This is achieved with the help of a global database containing continuously updated environmental, health and safety data on all substances and products. BASF Group's global emergency hotline network provides information around the clock. Customers are offered training in the safe use of BASF Group's products and are kept informed early on of any changes in regulations. By 2020, BASF Group will conduct risk assessments for more than 99% of the substances and mixtures sold by BASF Group worldwide in quantities of more than one metric ton per year. BASF Group already reached 76.2% of this goal in 2017 (2016: 75.4%). The risk associated with using a substance is determined by the combination of its hazardous properties and its potential exposure to people and the environment.

Environment

Energy and climate protection: BASF Group wants to reduce greenhouse gas emissions in its production and along the entire value chain. To this end, BASF Group has thoroughly analyzed the greenhouse gas emissions from its production in the past few years and implemented comprehensive reduction measures.

Comparisons with European emissions trading benchmarks show that the greenhouse gas-intensive chemical plants operate at above-average efficiency. To supply the production sites with energy, BASF Group rely on highly efficient combined heat and power plants with gas and steam turbines, and on the use of heat released by production processes.

BASF Group's success also depends on the long-term security and competitiveness of their energy supplies. Furthermore, BASF Group is committed to energy management that helps to analyze and further improve the energy efficiency of its plants. BASF Group continuously analyzes potential risks to its business operations arising in connection with the topics of energy and climate protection and derive appropriate measures.

BASF Group offers its customers solutions that help prevent greenhouse gas emissions and improve energy and resource efficiency. Around half of BASF Group's total annual research and development spending goes toward developing these products and optimizing BASF Group's processes.

BASF Group's climate protection activities are based on a comprehensive analysis of its emissions. BASF Group reports on greenhouse gas emissions in accordance with the Greenhouse Gas Protocol Standard, as well as the sector-specific standard for the chemical industry. Since 2004, BASF Group has participated in the international non-profit organization CDP's program for reporting on data relevant to climate protection. BASF Group again achieved a score of A- in CDP's rating for 2017, awarding it "Leadership" status. Companies on the "Leadership" level are distinguished by factors such as the completeness and transparency of its reporting. BASF Group also pursue comprehensive approaches in managing the opportunities and risks associated with climate change as well as emissions reduction strategies to achieve company-wide goals.

Climate protection is a shared global task. BASF Group advocates climate protection by supporting initiatives to this end. In 2017, companies from G20 countries – the Business 20 (B20) – developed recommendations on energy, climate and resource efficiency for state and government leaders. BASF Group led this B20 task force. BASF Group supports a consistent implementation of the Paris climate

accord as the necessary basis for limiting global warming. BASF Group therefore also joined the World Economic Forum's CEO Climate Leaders initiative in 2017.

Water: BASF Group's aim to use water as sparingly as possible and further reduce emissions to water. To do so, BASF Group has set out a Group directive with globally applicable standards.

BASF Group is introducing sustainable water management at all relevant production sites. These include the major Verbund sites as well as the sites in water stress areas – regions in which more than 60% of available water is used by industry, household and agriculture. BASF Group considers the quantitative, qualitative and social aspects of water use. BASF Group wants to identify where they can improve at their sites, and use as little water as possible, especially in water stress areas.

BASF Group offers its customers solutions that help purify water and use it more efficiently while minimizing pollution.

In order to ensure transparency in the reporting on water, BASF Group once again took part in CDP reporting in 2017. According to CDP, an international nonprofit organization, BASF Group is a world leader in sustainable water management and was again included in CDP's Water A List. Of the 742 companies evaluated, only 73 of them received the top score of "A" – among them, BASF Group. CDP's evaluation of sustainable water management includes how transparently companies report on their water management activities and what they do to reduce risks, such as water scarcity. CDP also assesses the extent to which product developments – even at the customers of the companies under evaluation – can contribute to sustainable water management.

Air and soil: Regular monitoring of BASF Group's emissions to air is a part of environmental management at BASF Group. Aside from greenhouse gases, BASF Group also measures emissions of other pollutants into the atmosphere. The reporting does not take into account air pollutant emissions from oil and gas operations due to its substantial fluctuation during exploration phases.

The Raw Material Verbund helps BASF Group prevent or reduce waste. BASF Group regularly carries out audits to inspect external waste disposal companies to ensure that waste is properly disposed of. In this way, BASF Group also contributes to preventive soil protection and keep today's waste from becoming tomorrow's contamination.

When treatment is required for soil and groundwater contamination at active and former BASF Group sites, proper remediation measures are reviewed based on prevailing legal and current technical standards, and undertaken as necessary.

LEGAL PROCEEDINGS

General

BASF Group companies are involved in legal, regulatory, governmental and arbitration proceedings in Germany and a number of foreign jurisdictions, including the United States, involving claims by and against them, which arise in the ordinary course of their businesses, including in connection with their business activities, employers, investors and taxpayers. It is not feasible to predict or determine the ultimate outcome of the ending or threatened proceedings. The management does not believe that the outcome of these proceedings, including those discussed below, will have or have had in the 12 months preceding the date of this Prospectus significant effects on the financial position or profitability of BASF and/or BASF Group after consideration of any applicable reserves.

Specific proceedings

In the arbitration, proceedings initiated in May 2013, Metrogas S.A., Chile, claims damages valued in an amount of EUR 227 million as a result of insufficient gas deliveries against Wintershall Energía S.A., Argentina (WIAR), Total Austral S.A., Argentina, and Pan American Energy LLC, Argentina. The defendants, as sellers, concluded a natural gas supply contract with Metrogas in 1997. WIAR's share of supply in the contract is 37.5%. After the resignation of the chairman of the Arbitral Tribunal in mid-2016, the International Chamber of Commerce ("**ICC**") nominated a new Arbitral Tribunal that will be pursuing the arbitration proceedings during 2017. The hearing took place in April 2017. On February 2, 2018, the Arbitral Tribunal dismissed the Metrogas claim in its entirety and imposed the procedural costs on Metrogas.

BASF Corporation has potential liability under the Comprehensive Response, Compensation and Liability Act of 1980, as amended, and related state laws for investigation and cleanup at certain sites. The Lower Passaic River Study Area ("**LPRSA**") is one such site comprising the lower 17 miles of the Passaic River in New Jersey. BASF Corporation and more than 60 other companies (collectively, the Lower Passaic River Study Area Cooperating Parties Group or CPG) are conducting a remedial investigation / feasibility study (RI/FS) of the LPRSA. In 2016, the United States Environmental Protection Agency ("**USEPA**") selected a final remedy for the lower 8 miles of the LPRSA. An agreement with USEPA on work in the upper portion of the LPRSA may occur as early as 2018.

Between November 2014 and March 2015, a putative class action lawsuit and several additional lawsuits were filed in the United States District Court of the Southern District of New York against BASF Metals Limited ("**BML**"), based in the United Kingdom, along with other defendants, alleging violations of antitrust and commodities laws stemming from the price discovery process for platinum and palladium. The lawsuits were consolidated, and a Second Consolidated Amended Class Action Complaint was eventually filed in July 2015. This Complaint also names as a defendant, among others, BASF Corporation. On September 21, 2015, the defendants filed a Joint Motion to Dismiss the Second Consolidated Amended Class Action Complaint, and BML and BASF Corporation filed individual motions to dismiss. On March 28, 2017, the Court dismissed the Second Consolidated Amended Class Action Complaint against BASF Corporation and BML on jurisdictional grounds. On May 15, 2017, the plaintiffs filed an amended Complaint that renews allegations against defendants and BML, while BASF Corporation is not named as a defendant. The defendants filed a renewed Joint Motion to Dismiss and BML filed a renewed Motion to Dismiss. A pro se complaint filed in September 2015 was dismissed by the U.S. District Court on October 19, 2017. The plaintiff filed an appeal to the U.S. Court of Appeals on November 19, 2017.

Furthermore, BASF SE and its affiliated companies are defendants in or parties to a variety of judicial, arbitral or regulatory proceedings on a recurring basis. To its current knowledge, none of these proceedings will have a material effect on the economic situation of BASF Group.

SIGNIFICANT CHANGES/TREND INFORMATION

There have been no significant changes in the financial or trading position of BASF since June 30, 2018. There has been no material adverse change in the prospects of BASF since the date of the last published audited financial statements as of December 31, 2017.

OUTLOOK FOR 2018

Based on the information available at the time of this publication, BASF Group expects the statements on opportunities and risks made in the BASF Report 2017 remain valid. For the second half of 2018, BASF Group continues to expect considerable risks from currency and margin volatility. There is still a risk of a

global economic slowdown – due in part to the increased tendency toward protectionism – as well as a risk of escalating geopolitical conflicts. BASF Group's overall assessment of opportunities and risks remains principally valid.

BASF Group has adjusted its expectations for the global economic environment in 2018 as follows (previous forecast from the BASF Annual Report 2017 in parentheses):

- Growth of gross domestic product: 3.0% (2.5%)
- Growth in industrial production: 3.2% (2.5%)
- Growth in chemical production: 3.4% (3.4%)
- Average euro/dollar exchange rate: USD 1.20 per euro (USD 1.10 per euro)
- Annualized average price of a barrel of oil: USD 70 (USD 50 per barrel)

In the half-year financial report 2018, BASF Group is confirming the sales and earnings expectations for 2018 of the BASF Group made in the BASF Report 2017:

- Slight sales growth
- Slight increase in EBIT before special items
- Slight decline in EBIT
- Significant premium on cost of capital with considerable decline in EBIT after cost of capital

This forecast does not take into account the intended merger of BASF Group's oil and gas activities with the business of DEA Deutsche Erdoel AG and its subsidiaries.

The statements on opportunities and risks made in the BASF Report 2017 continue to apply. However, the mentioned factors in there have increased the risk of a growth slowdown. According to BASF Group's assessment, there continue to be no individual risks that pose a threat to the continued existence of the BASF Group. The same applies to the sum of individual risks, even in the case of another global economic crisis.

If the Issuer **[In the case of Notes issued by BASF Finance: or, as the case may be, the Guarantor]** decides to postpone the relevant payment and the RMB Currency Event continues to exist for more than 14 consecutive days after the relevant due date, the Issuer **[In the case of Notes issued by BASF Finance: or, as the case may be, the Guarantor]** will settle the relevant payment in U.S. dollars on the Business Day following the 14th consecutive day after the relevant due date at the U.S. Dollar Equivalent of any such RMB amount. In such circumstances, the Issuer **[In the case of Notes issued by BASF Finance: or, as the case may be, the Guarantor]** shall procure the giving of such notice to the Holders as soon as reasonably practicable in accordance with §13. In the case of payments made under this § 4**(7)(a)**, no interest shall accrue from and including the relevant due date of the Notes to and including the day of actual redemption of the Notes.

If the Issuer **[In the case of Notes issued by BASF Finance: or, as the case may be, the Guarantor]** decides to postpone the Rate Calculation Date and the Spot Rate does not become available until the 15th consecutive day after the Initial Rate Calculation Date, the Business Day first succeeding the 15th consecutive day after the Initial Rate Calculation Date shall be the Rate Calculation Date. In order to exercise such option, the Holder must send to the specified office of the Fiscal Agent an early redemption notice in text format (*Textform*, e.g. email or fax) or in written form ("**Put Notice**") within the period of 45 days after a Put Event Notice (the "**Put Period**") has been given. Einführung

Die Anleihebedingungen für die Schuldverschreibungen (die "Anleihebedingungen") sind nachfolgend in zwei Optionen aufgeführt:

Option I umfasst den Satz der Anleihebedingungen, der auf Tranchen von Schuldverschreibungen mit fester Verzinsung Anwendung findet.

Option II umfasst den Satz der Anleihebedingungen, der auf Tranchen von Schuldverschreibungen mit variabler Verzinsung Anwendung findet.

Der Satz von Anleihebedingungen für jede dieser Optionen enthält bestimmte weitere Optionen, die entsprechend gekennzeichnet sind, indem die jeweilige optionale Bestimmung durch Instruktionen und Erklärungen entweder links von dem Satz der Anleihebedingungen oder in eckigen Klammern innerhalb des Satzes der Anleihebedingungen bezeichnet wird.

In den Endgültigen Bedingungen wird die Emittentin festlegen, welche der Option I oder Option II (einschließlich der jeweils enthaltenen bestimmten weiteren Optionen) für die einzelne Emission von Schuldverschreibungen Anwendung findet, indem entweder die betreffenden Angaben wiederholt werden oder auf die betreffenden Optionen verwiesen wird.

Soweit weder die Emittentin noch die Garantin zum Zeitpunkt der Billigung des Prospektes Kenntnis von bestimmten Angaben hatte, die auf eine einzelne Emission von Schuldverschreibungen anwendbar sind, enthält dieser Prospekt Leerstellen in eckigen Klammern, die die maßgeblichen durch die Endgültigen Bedingungen zu vervollständigenden Angaben enthalten.

Im Fall, dass die Endgültigen Bedingungen, die für eine einzelne Emission anwendbar sind, nur auf die weiteren Optionen verweisen, die im Satz der Anleihebedingungen der Option I oder Option II enthalten sind, ist Folgendes anwendbar

[Die Bestimmungen dieser Anleihebedingungen gelten für diese Schuldverschreibungen so, wie sie durch die Angaben der beigefügten endgültigen Bedingungen (die "**Endgültigen Bedingungen**") vervollständigt werden. Die Leerstellen in den auf die Schuldverschreibungen anwendbaren Bestimmungen dieser Anleihebedingungen gelten als durch die in den Endgültigen Bedingungen enthaltenen Angaben ausgefüllt, als ob die Leerstellen in den betreffenden Bestimmungen durch diese Angaben ausgefüllt wären; alternative oder wählbare Bestimmungen dieser Anleihebedingungen, deren Entsprechungen in den Endgültigen Bedingungen nicht ausgefüllt oder die gestrichen sind, gelten als aus diesen Anleihebedingungen gestrichen; sämtliche auf die Schuldverschreibungen nicht anwendbaren Bestimmungen dieser Anleihebedingungen (einschließlich der Anweisungen, Anmerkungen und der Texte in eckigen Klammern) gelten als aus diesen Anleihebedingungen gestrichen, so dass die Bestimmungen der Endgültigen Bedingungen Geltung erhalten. Kopien der Endgültigen Bedingungen sind kostenlos bei der bezeichneten Geschäftsstelle des Fiscal Agent und bei der Hauptgeschäftsstelle der Emittentin erhältlich; bei nicht an einer Börse notierten Schuldverschreibungen sind Kopien der betreffenden Endgültigen Bedingungen allerdings ausschließlich für die Gläubiger solcher Schuldverschreibungen erhältlich.]

(2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber.

[(3) *Dauerglobalurkunde.* Die Schuldverschreibungen sind durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft. Die Dauerglobalurkunde trägt die Unterschriften ordnungsgemäß bevollmächtigter Vertreter der Emittentin und ist von dem Fiscal Agent oder in dessen Namen mit einer Kontrollunterschrift versehen. Einzelkunden und Zinsscheine werden nicht ausgegeben.]

Im Fall von Schuldverschreibungen, die durch eine Dauerglobalurkunde verbrieft sind, ist Folgendes anwendbar (für Schuldverschreibungen, die nach den C Rules begeben und/oder die von oder für CDS verwahrt werden)

[(3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in der festgelegten Stückelung, die durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die Unterschriften ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von dem Fiscal Agent oder in dessen Namen mit einer Kontrollunterschrift versehen. Einzelkunden und Zinsscheine werden nicht ausgegeben.

Im Fall von Schuldverschreibungen, die anfänglich durch eine vorläufige Globalurkunde verbrieft sind, ist Folgendes anwendbar (für Schuldverschreibungen, die nach den D Rules begeben werden)

(b) Die vorläufige Globalurkunde wird frühestens an einem Tag gegen die Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Begebung der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen liegt. Ein solcher Austausch darf nur nach Vorlage von Bescheinigungen gemäß U.S. Steuerrecht erfolgen, wonach der oder die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist für jede solche Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß diesem Absatz (b) dieses § 1 Absatz (3) auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, dürfen nur außerhalb der Vereinigten Staaten (wie in § 6 Absatz (2) definiert) geliefert werden.]

(4) *Clearing System*. Die Globalurkunde, die die Schuldverschreibung verbrieft, wird von [einem oder für ein Clearing Systems verwahrt. "**Clearing System**" bedeutet **[Bei mehr als einem Clearing System ist Folgendes anwendbar: jeweils]** Folgendes: [Clearstream Banking AG, Neue Börsenstraße 1, 60487 Frankfurt am Main, Bundesrepublik Deutschland, ("**CBF**") [Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxemburg, Großherzogtum Luxemburg, ("**CBL**") und Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brussels, Belgien, ("**Euroclear**") (CBL und Euroclear jeweils ein "**ICSD**" und zusammen die "**ICSDs**")] sowie jeder Funktionsnachfolger.][CDS & Co. als Beauftragte für CDS Clearing and Depository Services Inc. ("**CDS**" oder das "**Clearing System**") verwahrt.]

Im Fall von Schuldverschreibungen, die im

Namen der ICSDs verwahrt werden, und die Globalurkunde eine NGN ist, ist Folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer *New Global Note* ("**NGN**") ausgegeben und von einem common safekeeper im Namen beider ICSDs verwahrt.

Der Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen entspricht dem jeweils in den Registern beider ICSDs eingetragenen Gesamtbetrag. Die Register der ICSDs (unter denen die Register zu verstehen sind, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind maßgeblicher Nachweis des Gesamtnennbetrages der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine für zu diesem Zweck von einem ICSD jeweils ausgestellte Bescheinigung mit dem Betrag der so verbrieften Schuldverschreibungen ist maßgebliche Bescheinigung des Inhalts des Registers des betreffenden ICSD zu dem fraglichen Zeitpunkt.

Bei jeder Tilgung oder einer Zinszahlung auf die durch die Globalurkunde verbrieften Schuldverschreibungen bzw. beim Kauf und der Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten der Rückzahlung, Zahlung oder des Kaufs und der Entwertung bezüglich der Globalurkunde entsprechend in die Unterlagen der ICSDs eingetragen werden, und dass nach dieser Eintragung vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen wird.

[Falls die vorläufige Globalurkunde eine NGN ist, ist Folgendes anwendbar: Bei Austausch nur eines Teils von Schuldverschreibungen, die durch eine vorläufige Globalurkunde verbrieft sind, wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs entsprechend in die Register der ICSDs aufgenommen werden.]]

Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, und die Globalurkunde eine CGN ist, ist Folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer *Classical Global Note* ("**CGN**") ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]

Im Fall von Schuldverschreibungen, die durch eine Dauerglobalurkunde verbrieft werden, die von oder für CDS verwahrt werden, ist Folgendes anwendbar

[Das wirtschaftliche Eigentum an der Dauerglobalurkunde wird durch Buchungserfassungskonten (*book-entry accounts*) von Finanzinstituten vermittelt, die im Namen der wirtschaftlichen Eigentümer handeln und direkte oder indirekte Teilnehmer bei CDS sind. Rechte an der Dauerglobalurkunde können durch Teilnehmer an diesen Systemen unmittelbar jeweils in Kanada durch CDS, 85, Richmond Street West, Toronto, Ontario, Kanada 115H 2C9 oder in Europa durch Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxemburg, Großherzogtum Luxemburg, ("**CBL**") und Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brussels, Belgien, ("**Euroclear**") (CBL und Euroclear jeweils ein "**ICSD**" und zusammen die "**ICSDs**") gehalten werden, oder mittelbar durch Organisationen, die Teilnehmer an diesen Systemen sind. CBL und Euroclear werden Rechte im Namen ihrer Teilnehmer durch Wertpapierkonten in ihrem eigenen Namen bei den jeweiligen kanadischen Unterverwahrern halten, welche jeweils amtlich zugelassene kanadische Banken sind (*Canadian Schedule I Chartered Bank*)

("Kanadische Unterverwahrer"). Die Kanadischen Unterverwahrer werden diese Rechte ihrerseits wiederum durch Wertpapierkonten im eigenen Namen bei CDS halten.

Solange die Dauerglobalurkunde noch Schuldverschreibungen verbrieft, werden die Emittentin, der Fiscal Agent und jede andere Zahlstelle die CDS & Co., oder jede andere von CDS benannte Stelle, für alle Zwecke als einzigen Gläubiger der Dauerglobalurkunde behandeln. Die durch die Dauerglobalurkunde verbrieften Schuldverschreibungen sind nur in Übereinstimmungen mit den Regeln und Verfahren der CDS übertragbar. Direkte Rechte können nur in Übereinstimmung mit dem Anleihebedingungen und den Regeln und Verfahren der CDS ausgeübt werden.

Außer in den nachstehenden beschränkten Fällen hat kein wirtschaftlicher Eigentümer der Schuldverschreibungen einen Anspruch auf die physische Lieferung von in Einzelurkunden verbrieften Schuldverschreibungen.

Die Emittentin wird Einzelurkunden verbrieften oder verbrieften lassen und die Dauerglobalurkunde durch sie ersetzen, wenn die durch die Dauerglobalurkunde verbrieften Schuldverschreibungen von oder für CDS gehalten werden und (i) CDS die Emittentin benachrichtigt hat, dass sie nicht gewillt oder nicht in der Lage ist weiter Verwahrstelle für die Schuldverschreibungen zu sein und die Emittentin 90 Zahltage (wie in § 4 Absatz (4) definiert) nach Erhalt einer solchen Benachrichtigung keine Nachfolge-Hinterlegungsstelle benannt hat; oder (ii) CDS aufhört eine nach dem Wertpapiergesetz von Ontario (*Securities Act (Ontario)*) anerkannte Clearingstelle oder eine Selbstregulierungsorganisation (*self-regulatory organisation*) nach dem Wertpapiergesetz von Québec (*Securities Act (Québec)*) oder einer anderen kanadischen Wertpapiervorschrift zu sein und kein anderes für die Emittentin zufriedenstellendes Clearingsystem innerhalb von 90 Zahltagen nach Kenntniserlangung der Emittentin vom Verlust der oben benannten Eigenschaft seitens der CDS benannt wird.]

(5) *Gläubiger von Schuldverschreibungen*. "**Gläubiger**" bedeutet jeder Inhaber eines Miteigentumsanteils oder **[Im Fall von Schuldverschreibungen, die durch eine Dauerglobalurkunde verbrieft werden, die von oder für CDS verwahrt werden, ist Folgendes anwendbar** (vorbehaltlich anderweitiger Regelungen gemäß § 1(4) oben und § 4(1) nachstehend)] anderen vergleichbaren Rechts an den Schuldverschreibungen.

(6) *In Bezug genommene Bedingungen*. Die Bestimmungen gemäß Schedule 5 des geänderten und neugefassten Fiscal Agency Agreement vom 11. September 2018 (das "**Agency Agreement**") zwischen BASF, BASF Finance und Deutsche Bank Aktiengesellschaft als Fiscal Agent sowie als Zahlstelle (einsehbar unter www.bourse.lu), die überwiegend das für Gläubigerversammlungen oder Abstimmungen der Gläubiger ohne Versammlung zu wählende Verfahren betreffen, sind in vollem Umfang durch diese Anleihebedingungen in Bezug genommen.

§ 2

STATUS, NEGATIVVERPFLICHTUNG[, GARANTIE UND NEGATIVVERPFLICHTUNG DER GARANTIN]

(1) *Status*. Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit diesen Verbindlichkeiten nicht durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.

(2) *Negativverpflichtung*. Die Emittentin verpflichtet sich, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten und keine Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern, ohne jeweils die Gläubiger zur gleichen Zeit und im gleichen Rang an solchen Sicherheiten oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, teilnehmen zu lassen.

"Kapitalmarktverbindlichkeit" bezeichnet jede Verbindlichkeit hinsichtlich der Rückzahlung aufgenommenen Geldbeträge, die durch Schuldverschreibungen oder sonstige Wertpapiere mit einer ursprünglichen Laufzeit von mehr als einem Jahr, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können, verbrieft oder verkörpert ist.

Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(3) *Garantie und Negativverpflichtung der Garantin.* BASF (die "**Garantin**") hat die unbedingte und unwiderrufliche Garantie (die "**Garantie**") für die ordnungsgemäße und pünktliche Zahlung von Kapital und Zinsen und sonstiger auf die Schuldverschreibungen zahlbarer Beträge übernommen. Die Garantin hat sich außerdem in einer Negativverpflichtung (die "**Negativverpflichtung**") verpflichtet, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten (wie vorstehend definiert) und keine Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern oder eine solche Besicherung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. Die Garantie und die Negativverpflichtung stellen einen Vertrag zugunsten jedes Gläubigers als begünstigtem Dritten gemäß § 328 BGB dar, welcher das Recht jedes Gläubigers begründet, Erfüllung aus der Garantie und der Negativverpflichtung unmittelbar von der Garantin zu verlangen und die Garantie und die Negativverpflichtung unmittelbar gegen die Garantin durchzusetzen.]

§ 3 ZINSEN

(1) *Zinssatz und Zinszahlungstage.* Die Schuldverschreibungen werden bezogen auf ihren Gesamtnennbetrag verzinst, und zwar vom **[Verzinsungsbeginn]** (einschließlich) bis zum Fälligkeitstag (wie in § 5 Absatz (1) definiert) (ausschließlich) mit jährlich **[Zinssatz]**%. Die Zinsen sind nachträglich am **[Festzinstermine]** eines jeden Jahres zahlbar (jeweils ein "**Zinszahlungstag**"). Die erste Zinszahlung erfolgt am **[erster Zinszahlungstag]** **[Sofern der erste Zinszahlungstag nicht der erste Jahrestag des Verzinsungsbeginns ist, ist Folgendes anwendbar: und beläuft sich auf [anfänglicher Bruchteilszinsbetrag je festgelegte Stückelung].] [Sofern der Fälligkeitstag kein Festzinstermine ist, ist Folgendes anwendbar: Die Zinsen für den Zeitraum vom [letzter dem Fälligkeitstag vorausgehender Festzinstermine] (einschließlich) bis zum Fälligkeitstag (ausschließlich) belaufen sich auf [abschließenden Bruchteilszinsbetrag je festgelegte Stückelung].]**

(2) *Auflaufende Zinsen.* Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, erfolgt die Verzinsung der Schuldverschreibungen vom Tag der Fälligkeit bis zum Tag der tatsächlichen Rückzahlung der Schuldverschreibungen in Höhe des gesetzlich festgelegten Satzes für Verzugszinsen.⁽¹⁾

(3) *Berechnung der Zinsen für Teile von Zeiträumen.* Sofern Zinsen für einen Zeitraum von weniger als einem Jahr zu berechnen sind, erfolgt die Berechnung auf der Grundlage des Zinstagequotienten (wie nachstehend definiert).

(4) *Zinstagequotient.* "**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "**Zinsberechnungszeitraum**"):

Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von 75 % der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen nicht geändert wird und die keinen Gegenstand der § 5 Absatz 3, Nr. 1 bis Nr. 8 des SchVG betreffen, bedürfen zu ihrer Wirksamkeit einer einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte.

(3) *Beschlüsse der Gläubiger.* Beschlüsse der Gläubiger werden nach Wahl der Emittentin im Wege der Abstimmung ohne Versammlung nach § 18 SchVG oder einer Gläubigerversammlung nach § 9 SchVG gefasst.

(4) *Leitung der Abstimmung.* Die Abstimmung wird von einem von der Emittentin beauftragten Notar oder, falls der gemeinsame Vertreter zur Abstimmung aufgefordert hat, vom gemeinsamen Vertreter geleitet.

Vertreter in den
Bedingungen
bestellt wird, ist
Folgendes
anwendbar

Im Fall der
Bestellung des
gemeinsamen
Vertreters in den
Bedingungen, ist
Folgendes
anwendbar

[Gemeinsamer Vertreter ist **[Gemeinsamer Vertreter]**. Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.]

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den

Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

(2) *Ankauf.* Die Emittentin ist berechtigt, jederzeit Schuldverschreibungen im Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei dem Fiscal Agent zwecks Entwertung eingereicht werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Gläubigern gemacht werden.

(3) *Entwertung.* Sämtliche vollständig zurückgezahlten Schuldverschreibungen sind unverzüglich zu entwerten und können nicht wiederbegeben oder wiederverkauft werden.

(2) *Mitteilungen an das Clearing System.* Solange Schuldverschreibungen an der Luxemburger Börse notiert sind, findet Absatz (1) Anwendung. Soweit die Regeln der Luxemburger Börse dies zulassen, kann die Emittentin eine Veröffentlichung nach Absatz (1) durch eine Mitteilung an das Clearing System zur Weiterleitung an die Gläubiger ersetzen; jede derartige Mitteilung gilt am siebten Tag nach dem Tag der Mitteilung an das Clearing System als den Gläubigern mitgeteilt.]

Eine solche Mitteilung kann über das Clearing System in der von dem Fiscal Agent und dem Clearing System dafür vorgesehenen Weise erfolgen.

§ 14 ANWENDBARES RECHT, GERICHTSSTAND UND GERICHTLICHE GELTENDMACHUNG

(1) *Anwendbares Recht.* Form und Inhalt der Schuldverschreibungen sowie die Rechte und Pflichten der Gläubiger und der Emittentin bestimmen sich in jeder Hinsicht nach deutschem Recht.

Für die Zwecke des Vorstehenden bezeichnet "**Depotbank**" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwahrungsgeschäft zu betreiben und bei der/dem der Gläubiger ein Wertpapierdepot für die Schuldverschreibungen unterhält, einschließlich des Clearing Systems. Deutschsprachige Fassung**

§ 1

WÄHRUNG, STÜCKELUNG, FORM, BESTIMMTE DEFINITIONEN

(1) *Währung; Stückelung.* Diese Serie der Schuldverschreibungen (die "**Schuldverschreibungen**") der [BASF SE] [BASF Finance Europe N.V.] (["BASF"] ["BASF Finance"]) oder die "Emittentin" wird in [festgelegte Währung] (die "**festgelegte Währung**") im Gesamtnennbetrag [Falls die Globalurkunde eine NGN ist, ist Folgendes anwendbar: (vorbehaltlich § 1 Absatz (4))] von [Gesamtnennbetrag] (in Worten: [Gesamtnennbetrag in Worten]) in einer Stückelung von [festgelegte Stückelung] (die "**festgelegte Stückelung**") begeben.

(2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber.

[(3) *Dauerglobalurkunde.* Die Schuldverschreibungen sind durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft. Die Dauerglobalurkunde trägt die Unterschriften ordnungsgemäß bevollmächtigter Vertreter der Emittentin und ist von dem Fiscal Agent oder in dessen Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.]

Im Fall von Schuldverschreibungen, die durch eine Dauerglobalurkunde verbrieft sind, ist Folgendes anwendbar

[(3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in der festgelegten Stückelung, die durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die Unterschriften ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von dem Fiscal Agent oder in dessen Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

Im Fall von Schuldverschreibungen, die anfänglich durch eine vorläufige Globalurkunde verbrieft sind, ist Folgendes anwendbar

(b) Die vorläufige Globalurkunde wird frühestens an einem Tag gegen die Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Begebung der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen liegt. Ein solcher Austausch darf nur nach Vorlage von Bescheinigungen gemäß U.S. Steuerrecht erfolgen, wonach der oder die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist für jede solche Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß diesem Absatz (b) dieses § 1 Absatz (3) auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, dürfen nur außerhalb der Vereinigten Staaten (wie in § 6 Absatz (2) definiert) geliefert werden.]

(4) *Clearing System.* Die Globalurkunde, die die Schuldverschreibung verbrieft, wird von einem oder für ein Clearing Systems verwahrt. "**Clearing System**" bedeutet [Bei mehr als einem Clearing System ist Folgendes anwendbar: jeweils] Folgendes: [Clearstream Banking AG, Neue Börsenstraße 1, 60487 Frankfurt am Main, Bundesrepublik Deutschland, ("CBF")] [Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxemburg, Großherzogtum Luxemburg, ("CBL") und Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brussels, Belgien,

("Euroclear") (CBL und Euroclear jeweils ein "ICSD" und zusammen die "ICSDs") sowie jeder Funktionsnachfolger.

Im Fall von Schuldverschreibungen, die im

Namen der ICSDs verwahrt werden, und die Globalurkunde eine NGN ist, ist Folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer *New Global Note* ("**NGN**") ausgegeben und von einem common safekeeper im Namen beider ICSDs verwahrt.

Der Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen entspricht dem jeweils in den Registern beider ICSDs eingetragenen Gesamtbetrag. Die Register der ICSDs (unter denen die Register zu verstehen sind, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind maßgeblicher Nachweis des Gesamtnennbetrages der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine für zu diesem Zweck von einem ICSD jeweils ausgestellte Bescheinigung mit dem Betrag der so verbrieften Schuldverschreibungen ist maßgebliche Bescheinigung des Inhalts des Registers des betreffenden ICSD zu dem fraglichen Zeitpunkt.

Bei jeder Tilgung oder einer Zinszahlung auf die durch die Globalurkunde verbrieften Schuldverschreibungen bzw. beim Kauf und der Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten der Rückzahlung, Zahlung oder des Kaufs und der Entwertung bezüglich der Globalurkunde entsprechend in die Unterlagen der ICSDs eingetragen werden, und dass nach dieser Eintragung vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen wird.

[Falls die vorläufige Globalurkunde eine NGN ist, ist Folgendes anwendbar: Bei Austausch nur eines Teils von Schuldverschreibungen, die durch eine vorläufige Globalurkunde verbrieft sind, wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs entsprechend in die Register der ICSDs aufgenommen werden.]

Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, und die Globalurkunde eine CGN ist, ist Folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer *Classical Global Note* ("**CGN**") ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]

§ 2

STATUS, NEGATIVVERPFLICHTUNG[, GARANTIE UND NEGATIVVERPFLICHTUNG DER GARANTIN]

(1) *Status.* Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit diesen Verbindlichkeiten nicht durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.

(2) *Negativverpflichtung.* Die Emittentin verpflichtet sich, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten und keine

Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern, ohne jeweils die Gläubiger zur gleichen Zeit und im gleichen Rang an solchen Sicherheiten oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, teilnehmen zu lassen.

"**Kapitalmarktverbindlichkeit**" bezeichnet jede Verbindlichkeit hinsichtlich der Rückzahlung aufgenommener Geldbeträge, die durch Schuldverschreibungen oder sonstige Wertpapiere mit einer ursprünglichen Laufzeit von mehr als einem Jahr, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können, verbrieft oder verkörpert ist.

Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(3) *Garantie und Negativverpflichtung der Garantin.* BASF (die "**Garantin**") hat die unbedingte und unwiderrufliche Garantie (die "**Garantie**") für die ordnungsgemäße und pünktliche Zahlung von Kapital und Zinsen und sonstiger auf die Schuldverschreibungen zahlbarer Beträge übernommen. Die Garantin hat sich außerdem in einer Negativverpflichtung (die "**Negativverpflichtung**") verpflichtet, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten (wie vorstehend definiert) und keine Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern oder eine solche Besicherung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. Die Garantie und die Negativverpflichtung stellen einen Vertrag zugunsten jedes Gläubigers als begünstigtem Dritten gemäß § 328 BGB dar, welcher das Recht jedes Gläubigers begründet, Erfüllung aus der Garantie und der Negativverpflichtung unmittelbar von der Garantin zu verlangen und die Garantie und die Negativverpflichtung unmittelbar gegen die Garantin durchzusetzen.]

§ 3 ZINSEN

(1) *Zinszahlungstage.*

[(2) *Zinssatz*. Der Zinssatz (der "**Zinssatz**") für jede Zinsperiode (wie nachstehend definiert) ist, sofern nachstehend nichts Abweichendes bestimmt wird der Angebotssatz, (ausgedrückt als Prozentsatz *per annum*) für Einlagen in der festgelegten Währung für die jeweilige Zinsperiode, der auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) gegen 11.00 Uhr (Brüsseler Ortszeit) angezeigt wird [[zuzüglich] [abzüglich] der Marge (wie nachstehend definiert)], wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

"**Zinsperiode**" bezeichnet jeweils den Zeitraum vom Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) bzw. von jedem Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Zinszahlungstag (ausschließlich).

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Zinssatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der Angebotssätze ermittelt, die von der Berechnungsstelle in angemessener Sorgfalt ausgewählte Großbanken im Interbanken-Markt in der Euro-Zone der Berechnungsstelle auf ihre Anfrage als den jeweiligen Satz nennen, zu dem sie um ca. 11.00 Uhr (Brüsseler Ortszeit) am betreffenden Zinsfestlegungstag Darlehen in der festgelegten Währung für die betreffende Zinsperiode und über einen repräsentativen Betrag gegenüber führenden Europäischen Banken anbieten **[[zuzüglich] [abzüglich] der Marge]**.

"Referenzbanken" bezeichnet vier Großbanken im Interbanken-Markt in der Euro-Zone.

[Die "Marge" beträgt [] % per annum.]

"Bildschirmseite" bedeutet Reuters Bildschirmseite **[LIBOR01] [LIBOR02]** oder die jeweilige Nachfolgesite, die vom selben System angezeigt wird oder aber von einem anderen System, das zum Vertreter von Informationen zum Zwecke der Anzeigen von Sätzen oder Preisen ernannt wurde, die dem betreffenden Angebotssatz vergleichbar sind.

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit kein Angebotssatz angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige Angebotssätze (jeweils als Prozentsatz *per annum* ausgedrückt) für Einlagen in der festgelegten Währung für die betreffende Zinsperiode und über einen repräsentativen Betrag gegenüber führenden Banken im Londoner Interbanken-Markt um ca. 11.00 Uhr (Londoner

Ortszeit) am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Hunderttausendstel Prozent, wobei 0,000005 aufgerundet wird) dieser Angebotssätze **[[zuzüglich] [abzüglich] der Marge]**, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Zinssatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Hunderttausendstel Prozent, wobei 0,000005 aufgerundet wird) der Angebotssätze ermittelt, die von der Berechnungsstelle in angemessener Sorgfalt ausgewählte Großbanken im Londoner Interbanken-Markt der Berechnungsstelle auf ihre Anfrage als den jeweiligen Satz nennen, zu dem sie um ca. 11.00 Uhr (Londoner Ortszeit) am betreffenden Zinsfestlegungstag Darlehen in der festgelegten Währung für die betreffende Zinsperiode und über einen repräsentativen Betrag gegenüber führenden Europäischen Banken anbieten **[[zuzüglich] [abzüglich] der Marge]**.

"**repräsentativer Betrag**" bedeutet ein Betrag, der zu der jeweiligen Zeit in dem jeweiligen Markt für eine einzelne Transaktion repräsentativ ist.

"**Referenzbanken**" bezeichnet vier Großbanken im Londoner Interbanken-Markt.

Falls der Zinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes (2) ermittelt werden kann, ist der Zinssatz der Angebotssatz auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem dieser Angebotssatz angezeigt wurde **[[zuzüglich] [abzüglich] der Marge (wie vorstehend definiert)]**, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.]

(3) *Zinsbetrag*. Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den auf die Schuldverschreibungen zahlbaren Zinsbetrag in Bezug auf die festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf die festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

(4) *Mitteilung von Zinssatz und Zinsbetrag*. Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin **[Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar: und der Garantin]** sowie den Gläubigern gemäß § 13 baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden **[TARGET] [relevante(s) Finanzzentrum(en)]** Geschäftstag (wie in § 3 Absatz (2) definiert) sowie jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst nach der Bestimmung, aber keinesfalls später als am ersten Tag der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich geändert (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Änderung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, sowie den Gläubigern gemäß § 13 mitgeteilt.

(5) *Verbindlichkeit der Festsetzungen*. Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, den Fiscal Agent, die Zahlstellen und die Gläubiger bindend.

(6) *Auflaufende Zinsen*. Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, endet die Verzinsung der Schuldverschreibungen nicht am Fälligkeitstag, sondern erst mit der tatsächlichen Rückzahlung der Schuldverschreibungen. Der jeweils geltende Zinssatz ist der gesetzlich festgelegte

Satz für Verzugszinsen.⁽¹⁾

(7) *Zinstagequotient*. "**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "**Zinsberechnungszeitraum**"):

(b) *Zahlung von Zinsen*. Die Zahlung von Zinsen auf Schuldverschreibungen erfolgt nach Maßgabe von Absatz (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems.

Im Fall von
Zinszahlungen auf
eine vorläufige
Globalurkunde ist
Folgendes
anwendbar

[Die Zahlung von Zinsen auf Schuldverschreibungen, die durch die vorläufige Globalurkunde verbrieft sind, erfolgt nach Maßgabe von Absatz (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems, und zwar nach ordnungsgemäßer Bescheinigung gemäß § 1 Absatz (3)(b).]

(2) *Zahlungsweise*. Vorbehaltlich (i) geltender steuerlicher und sonstiger gesetzlicher Regelungen und Vorschriften und (ii) eines Einbehalts oder Abzugs aufgrund eines Vertrags wie in Section 1471(b) des U.S. Internal Revenue Code von 1986 (der "**Code**") beschrieben bzw. anderweit gemäß Section 1471 bis Section 1474 des Code auferlegt, etwaigen aufgrund dessen getroffener Regelungen oder geschlossener Abkommen, etwaiger offizieller Auslegungen davon, oder von Gesetzen zur Umsetzung einer Regierungszusammenarbeit dazu erfolgen zu leistende Zahlungen auf die Schuldverschreibungen in der festgelegten Währung.

(3) *Erfüllung*. Die Emittentin wird durch Leistung der Zahlung an das Clearing System oder dessen Order von ihrer Zahlungspflicht befreit.

(4) *Zahltag*. Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Zahltag ist, dann hat der Gläubiger keinen Anspruch auf Zahlung vor dem nächsten Zahltag am jeweiligen Geschäftsort. Der Gläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen.

Für diese Zwecke bezeichnet "**Zahltag**" einen Tag, der ein Geschäftstag ist.

(5) *Bezugnahmen auf Kapital und Zinsen*. Bezugnahmen in diesen Anleihebedingungen auf Kapital der Schuldverschreibungen schließen, soweit anwendbar, die folgenden Beträge ein: den Rückzahlungsbetrag der Schuldverschreibungen; sowie jeden Aufschlag sowie sonstige auf oder in Bezug auf die Schuldverschreibungen zahlbaren Beträge. Bezugnahmen in diesen Anleihebedingungen auf Zinsen auf die Schuldverschreibungen sollen, soweit anwendbar, sämtliche gemäß § 7 zahlbaren zusätzlichen Beträge einschließen.

⁽¹⁾ Der gesetzliche Verzugszinssatz beträgt für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 Absatz 1, 247 Absatz 1 BGB.

(6) *Hinterlegung von Kapital und Zinsen.* Die Emittentin ist berechtigt, beim Amtsgericht Frankfurt am Main, Bundesrepublik Deutschland, Zins- oder Kapitalbeträge zu hinterlegen, die von den Gläubigern nicht innerhalb von zwölf Monaten nach dem Fälligkeitstag beansprucht worden sind, auch wenn die Gläubiger sich nicht in Annahmeverzug befinden. Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die diesbezüglichen Ansprüche der Gläubiger gegen die Emittentin.

§ 5 RÜCKZAHLUNG

(1) *Rückzahlung bei Endfälligkeit.* Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Schuldverschreibungen zu ihrem Rückzahlungsbetrag am in den **[Rückzahlungsmonat]** fallenden Zinszahlungstag (der "**Fälligkeitstag**") zurückgezahlt. Der "**Rückzahlungsbetrag**" in Bezug auf jede Schuldverschreibung entspricht dem Nennbetrag der Schuldverschreibung.

Im Fall von Schuldverschreibungen, die von BASF begeben werden, ist Folgendes anwendbar

[(2) *Vorzeitige Rückzahlung aus steuerlichen Gründen.* Die Schuldverschreibungen können insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 Tagen und nicht mehr als 60 Tagen gegenüber dem Fiscal Agent und gemäß § 13 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem Rückzahlungsbetrag zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen zurückgezahlt werden, falls die Emittentin als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze und -vorschriften der Bundesrepublik Deutschland oder deren politischen Untergliederungen oder Steuerbehörden oder als Folge einer Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze und Vorschriften (vorausgesetzt, diese Änderung oder Ergänzung wird am oder nach dem Tag, an dem die letzte Tranche dieser Serie von Schuldverschreibungen begeben wird, wirksam) am nächstfolgenden Zinszahlungstag (wie in § 3 Absatz (1) definiert) zur Zahlung von zusätzlichen Beträgen (wie in § 7 dieser Bedingungen definiert) verpflichtet sein wird und diese Verpflichtung nicht durch das Ergreifen vernünftiger, der Emittentin zur Verfügung stehender Maßnahmen vermieden werden kann.

Eine solche Kündigung darf allerdings nicht (i) früher als 90 Tage vor dem frühest möglichen Termin erfolgen, an dem die Emittentin verpflichtet wäre, solche zusätzlichen Beträge zu zahlen, falls eine Zahlung auf die Schuldverschreibungen dann fällig sein würde, oder (ii) erfolgen, wenn zu dem Zeitpunkt, in dem die Kündigungsmitteilung erfolgt, die Verpflichtung zur Zahlung von zusätzlichen Beträgen nicht mehr wirksam ist. Der für die Rückzahlung festgelegte Termin muss ein Zinszahlungstag sein.]

Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(2) *Vorzeitige Rückzahlung aus steuerlichen Gründen.* Die Schuldverschreibungen können insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 Tagen und nicht mehr als 60 Tagen gegenüber dem Fiscal Agent und gemäß § 13 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem Rückzahlungsbetrag zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen zurückgezahlt werden, falls die Emittentin oder die Garantin als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze und -vorschriften der Bundesrepublik Deutschland oder der Niederlande oder deren politischen Untergliederungen oder Steuerbehörden oder als Folge einer Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze und Vorschriften (vorausgesetzt, diese Änderung oder Ergänzung wird am oder nach dem Tag, an dem die letzte Tranche dieser Serie von Schuldverschreibungen begeben wird, wirksam) am nächstfolgenden Zinszahlungstag (wie in § 3 Absatz (1) definiert) zur Zahlung von zusätzlichen Beträgen (wie in § 7 dieser Bedingungen definiert) verpflichtet sein wird und diese Verpflichtung nicht durch das Ergreifen vernünftiger, der Emittentin oder der Garantin zur Verfügung stehender Maßnahmen vermieden werden kann.

Eine solche Kündigung darf allerdings nicht (i) früher als 90 Tage vor dem frühest möglichen Termin erfolgen, an dem die Emittentin oder die Garantin verpflichtet wäre, solche zusätzlichen Beträge zu zahlen, falls eine Zahlung auf die

Schuldverschreibungen dann fällig sein würde, oder (ii) erfolgen, wenn zu dem Zeitpunkt, in dem die Kündigungsmitteilung erfolgt, die Verpflichtung zur Zahlung von zusätzlichen Beträgen nicht mehr wirksam ist. Der für die Rückzahlung festgelegte Termin muss ein Zinszahlungstag sein.]

Eine solche Kündigung hat gemäß § 13 zu erfolgen. Sie ist unwiderruflich, muss den für die Rückzahlung festgelegten Termin nennen und eine zusammenfassende Erklärung enthalten, welche die das Rückzahlungsrecht der Emittentin begründenden Umständen darlegt.

Falls die Gläubiger das Wahlrecht haben, die Schuldverschreibungen vorzeitig aufgrund eines Kontrollwechsels zu kündigen, ist Folgendes anwendbar

[(3) *Kontrollwechsel*. Tritt ein Kontrollwechsel ein und kommt es innerhalb des Kontrollwechselzeitraums zu einer Absenkung des Ratings auf Grund des Kontrollwechsels (zusammen, ein "**Rückzahlungsereignis**"), hat jeder Gläubiger das Recht (sofern nicht die Emittentin, bevor die nachstehend beschriebene Rückzahlungsmitteilung gemacht wird, die Rückzahlung der Schuldverschreibungen nach § 5 Absatz (2) angezeigt hat), die Rückzahlung seiner Schuldverschreibungen durch die Emittentin zum Nennbetrag, zuzüglich aufgelaufener Zinsen bis zum Rückzahlungstag (ausschließlich), zu verlangen.

Für Zwecke dieses Wahlrechts:

Bedeutet "**Ratingagentur**" jede Ratingagentur von Standard and Poor's Rating Services, eine Abteilung von The McGraw-Hill Companies, Inc. ("**S&P**") und Moody's Investors Services ("**Moody's**") oder eine ihrer jeweiligen Nachfolgegesellschaften oder jede andere von BASF von Zeit zu Zeit bestimmte Ratingagentur vergleichbaren internationalen Ansehens;

Gilt eine "**Absenkung des Ratings**" in Bezug auf einen Kontrollwechsel als eingetreten, wenn innerhalb des Kontrollwechselzeitraums ein vorher für BASF oder die Schuldverschreibungen vergebenes Rating einer Ratingagentur (i) zurückgezogen oder (ii) von einem Investment Grade Rating (BBB- von S&P/Baa3 von Moody's oder jeweils gleichwertig, oder besser) in ein non-Investment Grade Rating (BB+ von S&P/Ba1 von Moody's oder jeweils gleichwertig, oder schlechter) geändert wird;

Gilt ein "**Kontrollwechsel**" jedes Mal als eingetreten, wenn eine Person oder mehrere Personen (die "**relevante(n) Person(en)**"), die im Sinne von § 30 Absatz 2 des Wertpapiererwerbs- und Übernahmegesetzes (WpÜG) abgestimmt handeln, oder ein oder mehrere Dritte(r), die im Auftrag der relevanten Person(en) handeln, zu irgendeiner Zeit mittelbar oder unmittelbar (unabhängig davon, ob der Vorstand oder der Aufsichtsrat der BASF seine Zustimmung erteilt hat) eine solche Anzahl von Aktien der BASF hält bzw. halten oder erworben hat bzw. haben, auf die mehr als 50% der Stimmrechte entfallen;

Ist der "**Kontrollwechselzeitraum**" der Zeitraum, der 120 Tage nach dem Eintritt eines Kontrollwechsels endet; und

Ist der "**Rückzahlungstag**" der fünfzehnte Tag nach dem letzten Tag des Ausübungszeitraums.

Sofort nachdem die Emittentin von einem Rückzahlungsereignis Kenntnis erlangt, wird sie den Gläubigern gemäß § 13 Mitteilung vom Rückzahlungsereignis machen (eine "**Rückzahlungsmitteilung**"), in der die Umstände des Rückzahlungsereignisses sowie das Verfahren für die Ausübung des in diesem § 5 Absatz (3) genannten Wahlrechts angegeben sind.

Um dieses Wahlrecht auszuüben, hat der Gläubiger innerhalb eines Zeitraums von 45 Tagen nachdem die Rückzahlungsmitteilung veröffentlicht ist (der "**Ausübungszeitraum**"), an die bezeichnete Geschäftsstelle des Fiscal Agent eine Mitteilung zur vorzeitigen Rückzahlung in Textform (z.B. eMail oder Fax) oder in schriftlicher Form ("**Ausübungserklärung**") zu schicken. Falls die Ausübungserklärung nach 17:00 Uhr Frankfurter Zeit am 45. Tag nach Veröffentlichung der Rückzahlungsmitteilung eingeht, ist das Wahlrecht nicht wirksam ausgeübt. Die Ausübungserklärung hat anzugeben: (i) den gesamten Nennbetrag der Schuldverschreibungen, für die das Wahlrecht ausgeübt wird und (ii) die Wertpapierkennnummern dieser Schuldverschreibungen (soweit vergeben). Für die Ausübungserklärung kann ein Formblatt, wie es bei den bezeichneten Geschäftsstellen des Fiscal Agent in deutscher und englischer Sprache erhältlich ist und das weitere Hinweise enthält, verwendet werden. Die Ausübung des Wahlrechts

Falls die Emittentin das Wahlrecht hat, die Schuldverschreibungen vorzeitig zum Rückzahlungsbetrag zurückzahlen, ist Folgendes anwendbar

kann nicht widerrufen werden. Die Rückzahlung der Schuldverschreibungen, für welche das Wahlrecht ausgeübt worden ist, erfolgt nur gegen Lieferung der Schuldverschreibungen an die Emittentin oder deren Order.]

[[4)] *Vorzeitige Rückzahlung nach Wahl der Emittentin.*

- (a) Die Emittentin kann, nachdem sie gemäß Absatz (b) gekündigt hat, die Schuldverschreibungen insgesamt oder teilweise am **[Zahl]** Jahre nach dem Verzinsungsbeginn folgenden Zinszahlungstag und danach an jedem darauf folgenden Zinszahlungstag (jeder ein "**Wahl-Rückzahlungstag (Call)**") zum Rückzahlungsbetrag nebst etwaigen bis zum jeweiligen Wahl-Rückzahlungstag (Call) (ausschließlich) aufgelaufenen Zinsen zurückzahlen.

§ 7 STEUERN

Im Fall von Schuldverschreibungen, die von BASF begeben werden, ist Folgendes anwendbar

[Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde der oder in der Bundesrepublik Deutschland auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich vorgeschrieben. ursprünglichen Laufzeit von mehr als einem Jahr) Dritter gegeben wurde, nicht innerhalb von 30 Tagen nach ihrer Fälligkeit bzw. im Falle einer Bürgschaft oder Garantie nicht innerhalb von 30 Tagen nach Inanspruchnahme aus dieser Bürgschaft oder Garantie nachkommt, es sei denn, die Emittentin bestreitet in gutem Glauben, dass diese Zahlungsverpflichtung besteht oder fällig ist bzw. diese Bürgschaft oder Garantie berechtigterweise geltend gemacht wird, oder falls eine für solche Verbindlichkeiten bestellte Sicherheit für die oder von den daraus berechtigten Gläubiger(n) in Anspruch genommen wird; oder

§ 11

ÄNDERUNG DER ANLEIHEBEDINGUNGEN, GEMEINSAMER VERTRETER[, ÄNDERUNG DER GARANTIE]

(1) *Änderung der Anleihebedingungen.* Die Gläubiger können entsprechend den Bestimmungen des Gesetzes über Schuldverschreibungen aus Gesamtemissionen (*Schuldverschreibungsgesetz* – "**SchVG**") durch einen Beschluss mit der in Absatz 2 bestimmten Mehrheit über einen im SchVG zugelassenen Gegenstand eine Änderung der Anleihebedingungen mit der Emittentin vereinbaren. Die Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist

unwirksam, es sei denn die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von 75 % der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen nicht geändert wird und die keinen Gegenstand der § 5 Absatz 3, Nr. 1 bis Nr. 8 des SchVG betreffen, bedürfen zu ihrer Wirksamkeit einer einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte.

(3) *Beschlüsse der Gläubiger.* Beschlüsse der Gläubiger werden nach Wahl der Emittentin im Wege der Abstimmung ohne Versammlung nach § 18 SchVG oder einer Gläubigerversammlung nach § 9 SchVG gefasst.

(4) *Leitung der Abstimmung.* Die Abstimmung wird von einem von der Emittentin beauftragten Notar oder, falls der gemeinsame Vertreter zur Abstimmung aufgefordert hat, vom gemeinsamen Vertreter geleitet.

(5) *Stimmrecht.* An Abstimmungen der Gläubiger nimmt jeder Gläubiger nach Maßgabe des Nennwerts oder des rechnerischen Anteils seiner Berechtigung an den ausstehenden Schuldverschreibungen teil.

(6) *Gemeinsamer Vertreter.*

Falls kein gemeinsamer Vertreter in den Bedingungen bestellt wird, ist Folgendes anwendbar

[Die Gläubiger können durch Mehrheitsbeschluß zur Wahrnehmung ihrer Rechte einen gemeinsamen Vertreter für alle Gläubiger bestellen.]

Im Fall der Bestellung des gemeinsamen Vertreters in den Bedingungen, ist Folgendes anwendbar

[Gemeinsamer Vertreter ist **[Gemeinsamer Vertreter]**. Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.]

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluß eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluß sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(7) *Änderung der Garantie.* Die oben aufgeführten auf die Schuldverschreibungen anwendbaren Bestimmungen finden sinngemäß auf die Bestimmungen der Garantie der BASF Anwendung.]

§ 12

BEGEBUNG WEITERER SCHULDVERSCHREIBUNGEN, ANKAUF UND ENTWERTUNG

(1) *Begebung weiterer Schuldverschreibungen.* Die Emittentin ist berechtigt, jederzeit ohne Zustimmung der Gläubiger weitere Schuldverschreibungen mit gleicher Ausstattung (gegebenenfalls mit Ausnahme des Tags der Begebung, des Verzinsungsbeginns und/oder des Ausgabepreises) in der Weise zu begeben, dass sie mit diesen Schuldverschreibungen eine einheitliche Serie bilden.

(2) *Ankauf.* Die Emittentin ist berechtigt, jederzeit Schuldverschreibungen im Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei dem Fiscal Agent zwecks Entwertung eingereicht

werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Gläubigern gemacht werden.

(3) *Entwertung*. Sämtliche vollständig zurückgezahlten Schuldverschreibungen sind unverzüglich zu entwerten und können nicht wiederbegeben oder wiederverkauft werden.

§ 13 MITTEILUNGEN

Im Fall von Schuldverschreibungen, die in der offiziellen Liste der Luxemburger Börse notiert werden, ist Folgendes anwendbar

[(1) *Bekanntmachung*. Alle die Schuldverschreibungen betreffenden Mitteilungen erfolgen durch elektronische Publikation auf der Website der Luxemburger Börse (www.bourse.lu). Jede Mitteilung gilt am dritten Tag nach dem Tag der Veröffentlichung als wirksam erfolgt.

(2) *Mitteilungen an das Clearing System*. Solange Schuldverschreibungen an der Luxemburger Börse notiert sind, findet Absatz (1) Anwendung. Soweit die Mitteilung den Zinssatz betrifft oder die Regeln der Luxemburger Börse dies sonst zulassen, kann die Emittentin eine Veröffentlichung nach Absatz (1) durch eine Mitteilung an das Clearing System zur Weiterleitung an die Gläubiger ersetzen; jede derartige Mitteilung gilt am siebten Tag nach dem Tag der Mitteilung an das Clearing System als den Gläubigern mitgeteilt.]

Im Fall von Schuldverschreibungen, die nicht an einer Börse notiert sind, ist Folgendes anwendbar

[(1) *Mitteilungen an das Clearing System*. Die Emittentin wird alle die Schuldverschreibungen betreffenden Mitteilungen an das Clearing System zur Weiterleitung an die Gläubiger übermitteln. Jede derartige Mitteilung gilt am siebten Tag nach dem Tag der Mitteilung an das Clearing System als den Gläubigern mitgeteilt.]

[(3)] *Form der Mitteilung*. Mitteilungen, die von einem Gläubiger gemacht werden, müssen in Textform (z.B. eMail oder Fax) oder schriftlich erfolgen und zusammen mit dem Nachweis seiner Inhaberschaft gemäß § 14 Absatz [4] an den Fiscal Agent geschickt werden. Eine solche Mitteilung kann über das Clearing System in der von dem Fiscal Agent und dem Clearing System dafür vorgesehenen Weise erfolgen.

§ 14 ANWENDBARES RECHT, GERICHTSSTAND UND GERICHTLICHE GELTENDMACHUNG

(1) *Anwendbares Recht*. Form und Inhalt der Schuldverschreibungen sowie die Rechte und Pflichten der Gläubiger und der Emittentin bestimmen sich in jeder Hinsicht nach deutschem Recht.

(2) *Gerichtsstand*. Nicht ausschließlich zuständig für sämtliche im Zusammenhang mit den Schuldverschreibungen entstehenden Klagen oder sonstige Verfahren ("**Rechtsstreitigkeiten**") ist das Landgericht Frankfurt am Main, Bundesrepublik Deutschland.

Im Falle von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(3) *Bestellung von Zustellungsbevollmächtigten*. Für etwaige Rechtsstreitigkeiten vor deutschen Gerichten bestellt die Emittentin die BASF SE, Carl-Bosch-Straße 38, 67056 Ludwigshafen am Rhein, Bundesrepublik Deutschland, zu ihrer Zustellungsbevollmächtigten in der Bundesrepublik Deutschland.]

[(4)] *Gerichtliche Geltendmachung*. Jeder Gläubiger von Schuldverschreibungen ist berechtigt, in jedem Rechtsstreit gegen die Emittentin oder in jedem Rechtsstreit, in

dem der Gläubiger und die Emittentin Partei sind, seine Rechte aus diesen Schuldverschreibungen im eigenen Namen auf der folgenden Grundlage zu schützen oder geltend zu machen: (i) er bringt eine Bescheinigung der Depotbank bei, bei der er für die Schuldverschreibungen ein Wertpapierdepot unterhält, welche (a) den vollständigen Namen und die vollständige Adresse des Gläubigers enthält, (b) den Gesamtnennbetrag der Schuldverschreibungen bezeichnet, die unter dem Datum der Bestätigung auf dem Wertpapierdepot verbucht sind und (c) bestätigt, dass die Depotbank gegenüber dem Clearing System eine schriftliche Erklärung abgegeben hat, die die vorstehend unter (a) und (b) bezeichneten Informationen enthält; und (ii) er legt eine Kopie der die betreffenden Schuldverschreibungen verbriefenden Globalurkunde vor, deren Übereinstimmung mit dem Original eine vertretungsberechtigte Person des Clearing Systems oder des Verwahrers des Clearing Systems bestätigt hat, ohne dass eine Vorlage der Originalbelege oder der die Schuldverschreibungen verbriefenden Globalurkunde in einem solchen Verfahren erforderlich wäre. Für die Zwecke des Vorstehenden bezeichnet "**Depotbank**" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwahrungsgeschäft zu betreiben und bei der/dem der Gläubiger ein Wertpapierdepot für die Schuldverschreibungen unterhält, einschließlich des Clearing Systems. Unbeschadet des Vorstehenden kann jeder Gläubiger seine Rechte aus den Schuldverschreibungen auch auf jede andere Weise schützen oder geltend machen, die im Land des Rechtsstreits prozessual zulässig ist.

GARANTIE

der

BASF SE, Ludwigshafen am Rhein, Bundesrepublik Deutschland, zu Gunsten der Gläubiger von Schuldverschreibungen (die "Schuldverschreibungen"), die von der BASF Finance Europe N.V., Arnhem, Niederlande, im Rahmen des EUR 20.000.000.000 Debt Issuance Program (das "Programm") begeben werden

PRÄAMBEL

- (A) Die BASF SE ("**BASF**") und die BASF Finance Europe N.V. ("**BASF Finance**") beabsichtigen, von Zeit zu Zeit Schuldverschreibungen im Rahmen des Programms zu begeben, deren jeweils ausstehender Gesamtnennbetrag das Programm-Limit nicht übersteigt.
- (B) Die Schuldverschreibungen unterliegen den Anleihebedingungen der Schuldverschreibungen nach deutschem Recht (in der durch die anwendbaren Endgültigen Bedingungen jeweils geänderten, ergänzten oder modifizierten Fassung, die "**Bedingungen**").
- (C) Die BASF SE (die "**Garantin**") beabsichtigt, mit dieser Garantie die Zahlung von Kapital und Zinsen sowie von jeglichen sonstigen Beträgen zu garantieren, die aufgrund der von der BASF Finance zu irgendeiner Zeit im Rahmen des Programms begebenen Schuldverschreibungen zu leisten sind.

HIERMIT WIRD FOLGENDES VEREINBART:

1. Die Garantin übernimmt gegenüber den Gläubigern jeder einzelnen Schuldverschreibung (wobei dieser Begriff jede (vorläufige oder Dauer-) Globalurkunde, die Schuldverschreibungen verbrieft, einschließt), die jetzt oder später von der BASF Finance im Rahmen des Programms begeben wird, die unbedingte und unwiderrufliche Garantie für die ordnungsgemäße Zahlung von Kapital und Zinsen auf die Schuldverschreibungen sowie von jeglichen sonstigen Beträgen, die in Übereinstimmung mit den Bedingungen auf irgendeine Schuldverschreibung zahlbar sind, und zwar zu den in den Bedingungen bestimmten Fälligkeiten.
2. Diese Garantie begründet eine unwiderrufliche, nicht nachrangige und (vorbehaltlich der Bestimmungen in Ziffer 4 dieser Garantie) nicht besicherte Verpflichtung der Garantin, die mit allen sonstigen nicht nachrangigen und nicht besicherten Verpflichtungen der Garantin wenigstens im gleichen Rang steht (soweit nicht zwingende gesetzliche Bestimmungen entgegenstehen).
3. Sämtliche auf diese Garantie zu zahlenden Beträge sind ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde der oder in der Bundesrepublik Deutschland auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich vorgeschrieben. In diesem Fall wird die Garantin diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Gläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Gläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlicher Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:
 - (a) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die BASF Finance oder die Garantin aus den von ihr zu leistenden Zahlungen von Kapital oder Zinsen einen Abzug oder Einbehalt vornimmt; oder
 - (b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zur Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
 - (c) aufgrund (i) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (ii) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Bundesrepublik Deutschland oder die Europäische Union beteiligt ist, oder (iii) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder
 - (d) aufgrund einer Rechtsänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer

Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß den Bedingungen wirksam wird.

4. Die Garantin verpflichtet sich gegenüber jedem Gläubiger, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten und keine Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern, oder eine solche Besicherung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. "**Kapitalmarktverbindlichkeit**" ist jede Verbindlichkeit hinsichtlich der Rückzahlung aufgenommener Geldbeträge, die durch Schuldverschreibungen oder sonstige Wertpapiere mit einer ursprünglichen Laufzeit von mehr als einem Jahr, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können, verbrieft oder verkörpert ist.
5. Die Verpflichtungen der Garantin aus dieser Garantie (i) sind selbständig und unabhängig von den Verpflichtungen der BASF Finance aus den Schuldverschreibungen und (ii) bestehen ohne Rücksicht auf die Rechtmäßigkeit, Gültigkeit, Verbindlichkeit und Durchsetzbarkeit der Schuldverschreibungen.
6. Die Verpflichtungen der Garantin aus dieser Garantie erstrecken sich, ohne dass eine weitere Handlung durchgeführt werden oder ein weiterer Umstand entstehen muss, auf solche Verpflichtungen jeglicher nicht mit der Garantin identischen neuen Emittentin, die infolge einer Schuldnerersetzung gemäß den anwendbaren Bestimmungen der Bedingungen in Bezug auf jedwede Schuldverschreibung entstehen.
7. Diese Garantie erstreckt sich auf sämtliche Schuldverschreibungen, die am oder nach dem Datum dieser Garantie von der BASF Finance unter dem Programm begeben werden.
8. Diese Garantie und alle hierin enthaltenen Vereinbarungen sind ein Vertrag zu Gunsten der Gläubiger der Schuldverschreibungen als begünstigte Dritte gemäß § 328 Abs. 1 BGB und begründen das Recht eines jeden Gläubigers, die Erfüllung der hierin eingegangenen Verpflichtungen unmittelbar von der Garantin zu fordern und diese Verpflichtungen unmittelbar gegenüber der Garantin durchzusetzen.

Ein Gläubiger einer Schuldverschreibung kann im Falle der Nichterfüllung von Zahlungen auf die Schuldverschreibungen zur Durchsetzung dieser Garantie unmittelbar gegen die Garantin Klage erheben, ohne dass zunächst ein Verfahren gegen die BASF Finance eingeleitet werden müsste.

9. Die Deutsche Bank Aktiengesellschaft, mit der die hierin enthaltenen Vereinbarungen getroffen werden, handelt als Fiscal Agent nicht als Beauftragte, Treuhänderin oder in einer ähnlichen Eigenschaft für die Gläubiger von Schuldverschreibungen.
10. Die hierin verwendeten und nicht anders definierten Begriffe haben die ihnen in den Bedingungen zugewiesene Bedeutung.
11. Die auf die Schuldverschreibungen Anwendung findenden Bestimmungen über die Änderung der Anleihebedingungen und den Gemeinsamen Vertreter gelten sinngemäß auch für diese Garantie.
12. Diese Garantie unterliegt dem Recht der Bundesrepublik Deutschland.
13. Diese Garantie ist in deutscher Sprache abgefasst und in die englische Sprache übersetzt. Die deutschsprachige Fassung ist verbindlich und allein maßgeblich.
14. Das Original dieser Garantie wird der Deutsche Bank Aktiengesellschaft ausgehändigt und von dieser verwahrt.
15. Ausschließlicher Gerichtsstand für alle Rechtsstreitigkeiten gegen die Garantin aus oder im Zusammenhang mit dieser Garantie ist Frankfurt am Main, Bundesrepublik Deutschland.
16. Jeder Gläubiger einer Schuldverschreibung kann in jedem Rechtsstreit gegen die Garantin und in jedem Rechtsstreit, in dem er und die Garantin Partei sind, seine aus dieser Garantie hervorgehenden Rechte auf der Grundlage einer von einer vertretungsberechtigten Person der Deutsche Bank Aktiengesellschaft beglaubigten Kopie dieser Garantie ohne Vorlage des Originals im eigenen Namen wahrnehmen und durchsetzen.

Wir akzeptieren die Bestimmungen der vorstehenden Garantie ohne Obligo, Gewährleistung oder Rückgriff auf uns.

of

***BASF SE, Ludwigshafen am Rhein, Federal Republic of Germany,
for the benefit of the holders of notes (the "Notes"), issued by BASF Finance Europe N.V.,
Arnhem, The Netherlands, under the EUR 20,000,000,000 Debt Issuance
Program (the "Program")***

WHEREAS:

- (A) BASF SE ("**BASF**") and BASF Finance Europe N.V. ("**BASF Finance**") intend to issue Notes under the Program from time to time, the outstanding aggregate principal amount of which will not exceed the Program Amount.
- (B) The Notes will be issued with Terms and Conditions under German law (as amended, supplemented or modified by the applicable Final Terms, the "**Conditions**").
- (C) BASF SE (the "**Guarantor**") wishes to guarantee the due payment of principal and interest and any other amounts payable in respect of any and all Notes that may be issued by BASF Finance under the Program.

IT IS AGREED AS FOLLOWS:

- (1) The Guarantor unconditionally and irrevocably guarantees to the holder of each Note (which expression shall include any Temporary Global Note or Permanent Global Note representing Notes) (each a "**Holder**") issued by BASF Finance now or at any time hereafter under the Program, the due and punctual payment of the principal of, and interest on, the Notes and any other amounts which may be expressed to be payable under any Note, as and when the same shall become due, in accordance with the Conditions.
- (2) This Guarantee constitutes an irrevocable, unsecured (subject to paragraph (4) hereunder) and unsubordinated obligation of the Guarantor and ranks *pari passu* with all other present or future unsecured and unsubordinated obligations of the Guarantor outstanding from time to time, subject to any obligations preferred by law.
- (3) All amounts payable in respect of this Guarantee shall be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by way of withholding or deduction by or on behalf of the Federal Republic of Germany or any political subdivision or any authority thereof or therein having power to tax unless such withholding or deduction is required by law. In such event, the Guarantor will pay such additional amounts (the "**Additional Amounts**") as shall be necessary in order that the net amounts received by the Holders, after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable in the absence of such withholding or deduction; except that no such Additional Amounts shall be payable on account of any taxes or duties which:
 - (a) are payable by any person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by BASF Finance or the Guarantor from payments of principal or interest made by it, or
 - (b) are payable by reason of the Holder having, or having had, some personal or business connection with the Federal Republic of Germany or another member state of the European Union and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, the Federal Republic of Germany, or
 - (c) are deducted or withheld pursuant to (i) any European Union Directive or Regulation concerning the taxation of interest income, or (ii) any international treaty or understanding relating to such taxation and to which the Federal Republic of Germany or the European Union is a party, or (iii) any provision of law implementing, or complying with, or introduced to conform with, such Directive, Regulation, treaty or understanding, or
 - (d) are payable by reason of a change in law that becomes effective more than 30 days after the relevant payment becomes due, or is duly provided for and notice thereof is published in accordance with the Conditions, whichever occurs later.
- (4) The Guarantor undertakes towards each Holder, so long as any of the Notes remains outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Fiscal Agent, not to provide security upon any of its assets for any present or future Capital Market

Indebtedness or any guarantees or other indemnities resulting therefrom, without at the same time having the Holders share equally and rateably in such security or such other security as shall be approved by an independent accounting firm of internationally recognized standing as being equivalent security. "**Capital Market Indebtedness**" means any obligation for the repayment of borrowed money which is in the form of, or represented or evidenced by, bonds, notes or other securities, with an original maturity of more than one year, which are, or are capable of being, quoted, listed, dealt in or traded on a stock exchange or other recognized securities market.

- (5) The obligations of the Guarantor under this Guarantee (i) shall be separate and independent from the obligations of BASF Finance under the Notes, and (ii) shall exist irrespective of the legality, validity and binding effect or enforceability of the Notes.
- (6) The obligations of the Guarantor under this Guarantee shall, without any further act or thing being required to be done or to occur, extend to the obligations of any Substitute Debtor which is not the Guarantor arising in respect of any Note by virtue of a substitution pursuant to the Conditions.
- (7) This Guarantee is given in respect of any and all Notes which are or will be issued by BASF Finance under the Program on or after the date hereof.
- (8) This Agreement and all undertakings contained herein constitute a contract for the benefit of the Holders from time to time as third party beneficiaries pursuant to § 328 (1) BGB (German Civil Code)⁽¹⁾. They give rise to the right of each such Holder to require performance of the obligations undertaken herein directly from the Guarantor, and to enforce such obligations directly against the Guarantor.

Any Holder has the right in case of non-performance of any payments on the Notes to enforce the Guarantee by filing a suit directly against the Guarantor without the need to take prior proceedings against BASF Finance.

- (9) Deutsche Bank Aktiengesellschaft which accepted this Guarantee, in its capacity as Fiscal Agent does not act in a relationship of agency or trust, a fiduciary or in any other similar capacity for the Holders.
- (10) Terms used in this Agreement and not otherwise defined herein shall have the meaning attributed to them in the Conditions.
- (11) The provisions regarding the Amendment of the Terms and Conditions and the Holders' Representative applicable to the Notes shall be applicable *mutatis mutandis* also to this Guarantee.
- (12) This Agreement shall be governed by, and construed in accordance with, German law.
- (13) This Agreement is written in the German language and attached hereto is a non-binding English translation.
- (14) The original version of this Agreement shall be delivered to, and kept by, Deutsche Bank Aktiengesellschaft.
- (15) Exclusive place of jurisdiction for all legal proceedings arising out of or in connection with this Agreement against the Guarantor shall be Frankfurt am Main, Federal Republic of Germany.
- (16) On the basis of a copy of this Agreement certified as being a true copy by a duly authorized officer of Deutsche Bank Aktiengesellschaft each Holder may protect and enforce in his own name his rights arising under this Agreement in any legal proceedings against the Guarantor or to which such Holder and the Guarantor are parties, without the need for production of this Agreement in such proceedings.

September 16, 2014
BASF SE

We accept the terms of the above Guarantee without recourse, warranty or liability.

¹ An English language translation of § 328 (1) BGB (German Civil Code) reads as follow: "A Contract may stipulate performance for the benefit of a third party, to the effect that the third party acquires the right directly to demand performance."

⁽¹⁾**[MiFID II Product Governance** – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties[,]and] professional clients [and retail clients], each as defined in Directive 2014/65/EU (as amended, "MiFID II") [and [•]]; **[EITHER**⁽²⁾: and (ii) all channels for distribution of the Notes are appropriate, including investment advice, portfolio management, non-advised sales and pure execution services] **[OR**⁽³⁾: (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice[,]and] portfolio management[,]and] [non-advised sales] [and pure execution services][], subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s][s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s][s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]⁽⁴⁾.]

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "Insurance Mediation Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "Prospectus Directive"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]⁽⁵⁾

⁽¹⁾ Include this legend if parties have determined a target market.

Diese Erklärung einfügen, wenn die Parteien einen Zielmarkt bestimmt haben.

⁽²⁾ Include for notes that are not ESMA complex pursuant to the Guidelines on complex debt instruments and structured deposits (ESMA/2015/1787) (the "ESMA Guidelines") (i.e. Notes the Terms and Conditions of which do not provide for a put and/or call right).

Einfügen für Schuldverschreibungen, die nach den Leitlinien zu komplexen Schuldtiteln und strukturierten Einlagen (ESMA/2015/1787) (die "ESMA Leitlinien") nicht ESMA komplex sind (also, Schuldverschreiben deren Anleihebedingungen keine Kündigungsrechte seitens der Emittentin und/oder der Anleihegläubiger enthalten).

⁽³⁾ Include for notes that are ESMA complex pursuant to the ESMA Guidelines. This list may need to be amended, for example, if advised sales are deemed necessary. If there are advised sales, a determination of suitability and appropriateness will be necessary. In addition, if the Notes constitute "complex" products, pure execution services to retail clients are not permitted without the need to make the determination of appropriateness required under Article 25(3) of MiFID II.

Einfügen im Fall von Schuldverschreibungen, die nach den ESMA Leitlinien ESMA komplex sind. Diese Liste muss gegebenenfalls angepasst werden, z.B. wenn Anlageberatung für erforderlich gehalten wird. Im Fall der Anlageberatung ist die Bestimmung der Geeignetheit und Angemessenheit notwendig. Wenn die Schuldverschreibungen "komplexe" Produkte sind, ist außerdem die bloße Ausführung von Kundenaufträgen von Privatanlegern ohne Bestimmung der Angemessenheit nach Art. 25(3) MiFID II nicht zulässig.

⁽⁴⁾ If there are advised sales, a determination of suitability will be necessary.

Im Fall von Beratungsverkäufen ist eine Angemessenheitsprüfung erforderlich.

⁽⁵⁾ Include this legend if "Applicable" is specified in Part II. C.4 of the Final Terms regarding item "Prohibition of Sales to EEA Retail Investors".

Diese Erklärung einfügen, wenn "Anwendbar" im Teil II. C.4 der Endgültigen Bedingungen im Hinblick auf den Punkt "Verbot des Verkaufs an EWR Privatanleger" ausgewählt wurde.

In case of Notes listed on the official list of and admitted to trading on the regulated market of the Luxembourg Stock Exchange or publicly offered in the Grand Duchy of Luxembourg, the Final Terms of Notes will be displayed on the website of the Luxembourg Stock Exchange (www.bourse.lu). In the case of Notes publicly offered in one or more member states of the European Economic Area other than the Grand Duchy of Luxembourg, the Final Terms will be displayed on the website of BASF Group (www.BASF.com).

⁽²⁴⁾ To be determined in consultation with the Issuer. It is anticipated that, subject to any stock exchange or legal requirements applicable from time to time, and unless otherwise agreed, in the case of Notes in bearer form publicly offered, in whole or in part, in the Federal Republic of Germany, or distributed, in whole or in part, to non-qualified investors in the Federal Republic of Germany, German will be the controlling language. If, in the event of such public offer or distribution to non-qualified investors, however, English is chosen as the controlling language, a German language translation of the Conditions will be available at the principal office of BASF SE.

In Abstimmung mit der Emittentin festzulegen. Es wird erwartet, dass vorbehaltlich geltender Börsen- oder anderer Bestimmungen und soweit nicht anders vereinbart, die deutsche Sprache für Inhaberschuldverschreibungen maßgeblich sein wird, die insgesamt oder teilweise öffentlich zum Verkauf in der Bundesrepublik Deutschland angeboten oder an nicht qualifizierte Anleger in der Bundesrepublik Deutschland verkauft werden, wird. Falls bei einem solchen öffentlichen Verkaufsangebot oder Verkauf an nicht qualifizierte Anleger die englische Sprache als maßgeblich bestimmt wird, wird eine deutschsprachige Übersetzung der Bedingungen bei der Hauptgeschäftsstelle der BASF SE erhältlich sein.

To be completed in consultation with the Issuer.

Es besteht keine Verpflichtung, Teil II. der Endgültigen Bedingungen bei Schuldverschreibungen mit einer festgelegten Stückelung von mindestens EUR 100.000 oder dem Gegenwert in einer anderen Währung vollständig auszufüllen, sofern diese Schuldverschreibungen nicht an einem geregelten Markt innerhalb des Europäischen Wirtschaftsraums zum Handel zugelassen werden. Siehe Abschnitt "Use of Proceeds" im Prospekt. Sofern die Gründe für das Angebot nicht in allgemeinen Finanzierungszwecken der BASF-Gruppe bestehen, sind die Gründe hier anzugeben. Nicht auszufüllen bei Schuldverschreibungen mit einer festgelegten Stückelung von mindestens EUR 100.000.

[Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes in the case of an NGN may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]

[Es wird darauf hingewiesen, dass "ja" im Fall einer NGN hier lediglich bedeutet, dass die Schuldverschreibungen nach ihrer Begebung bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden; es bedeutet nicht notwendigerweise, dass die Schuldverschreibungen bei ihrer Begebung, zu irgendeinem Zeitpunkt während ihrer Laufzeit oder während ihrer gesamten Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. Eine solche Anerkennung ist abhängig davon, ob die Zulassungskriterien des Eurosystems erfüllt sind.]

[Auch wenn die Bezeichnung mit Datum dieser Endgültigen Bedingungen "nein" lautet, sollten die Zulassungskriterien des Eurosystems sich zukünftig dergestalt ändern, dass die Schuldverschreibungen diese erfüllen können, könnten die Schuldverschreibungen im Fall einer NGN dann bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden. Es wird darauf hingewiesen, dass dies jedoch nicht notwendigerweise bedeutet, dass die Schuldverschreibungen dann zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. DESCRIPTION OF RULES REGARDING RESOLUTIONS OF HOLDERS

The Terms and Conditions pertaining to a certain issue of Notes provide that the Holders may agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed in a meeting (*Gläubigerversammlung*) or by taking votes without a meeting. Any such resolution duly adopted by resolution of the Holders shall be binding on each Holder of the respective issue of Notes, irrespective of whether such Holder took part in the vote and whether such Holder voted in favor of or against such resolution.

In addition to the provisions included in the Terms and Conditions of a particular issue of Notes, the rules regarding resolutions of Holders are substantially set out in Schedule 5 to the Fiscal Agency Agreement in the German language together with an English translation. If the Notes are for their life represented by Global Notes, the Terms and Conditions of such Notes fully refer to the rules pertaining to resolutions of Holders in the form of such Schedule to the Fiscal Agency Agreement. Under the German Act on Debt Securities (*Schuldverschreibungsgesetz – "SchVG"*), these rules are largely mandatory, although they permit in limited circumstances supplementary provisions set out in or incorporated into the Terms and Conditions.

Resolutions of the Holders with respect to the Notes can be passed in a meeting (*Gläubigerversammlung*) in accordance with § 5 et seqq. SchVG or by way of a vote without a meeting pursuant to § 18 and § 9 et seqq. SchVG (*Abstimmung ohne Versammlung*).

The following is a brief summary of some of the statutory rules regarding the convening and conduct of meetings of Holders and the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before German courts.

Rules regarding Holders' Meetings

Meetings of Holders may be convened by the Issuer or the Holders' Representative, if any. Meetings of Holders must be convened if one or more Holders holding 5% or more of the outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. The Terms and Conditions may provide that attendance and exercise of voting rights at the meeting may be made subject to prior registration of Holders. The Terms and Conditions will indicate what proof will be required for attendance and voting at the meeting. The place of the meeting in respect of a German issuer is the place of the issuer's registered office, provided, however, that where the relevant Notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Holder may be represented by proxy. A quorum exists if Holders' representing by value not less than 50% of the outstanding Notes. If the quorum is not reached, a second meeting may be called at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25% of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. In the case of Notes represented by one or more Global Notes, resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the relevant Global Note(s).

In insolvency proceedings instituted in Germany against an Issuer, a Holders' Representative, if appointed, is obliged and exclusively entitled to assert the Holders' rights under the Notes. Any resolutions passed by the Holders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Terms and Conditions, Holders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

Specific Rules regarding Votes without Meeting

In the case of resolutions to be passed by Holders without a meeting, the rules applicable to Holders' Meetings apply *mutatis mutandis* to any taking of votes by Holders without a meeting, subject to certain special provisions. The following summarises such special rules.

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) where a common representative of the Holders (the " **Holders' Representative** ") has been appointed, the Holders' Representative if the vote was solicited by the Holders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Holders' votes shall set out the period within which votes may be cast. During such voting period, the Holders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Holder's entitlement to cast a vote based on evidence provided by such Holder and shall prepare a list of the Holders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Holders. Within one year following the end of the voting period, each Holder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Holder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Holder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

USE OF PROCEEDS

The net proceeds from each issue of Notes by BASF will be used for general corporate purposes unless stated otherwise in the applicable Final Terms. The net proceeds from each issue of Notes by BASF Finance will only be lent to or invested in companies belonging to the same group of companies to which BASF Finance belongs.

TAXATION

The following is a general discussion of certain German, Dutch, Luxembourg, UK, Irish, and Austrian tax consequences of the acquisition and ownership of the Notes. This discussion does not purport to be a comprehensive description of all tax considerations, which may be relevant to a decision to purchase Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws (including tax treaties) currently in force and as applied on the date of this Prospectus, in Germany, The Netherlands, the Grand Duchy of Luxembourg, the United Kingdom of Great Britain and Northern Ireland, the Republic of Ireland and the Republic of Austria which are subject to change, possibly with retroactive effect.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS APPLICABLE IN GERMANY, THE NETHERLANDS, THE GRAND DUCHY OF LUXEMBOURG, THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND, THE REPUBLIC OF IRELAND, THE REPUBLIC OF AUSTRIA AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS OR OTHERWISE SUBJECT TO TAXATION.

1. Germany

Income tax

Notes held by tax residents as non-business assets

- Taxation of interest

Payments of interest on the Notes to Holders who are individuals and are tax residents of Germany (*i.e.*, persons whose residence or habitual abode is located in Germany) are subject to German income tax. In each case where German income tax arises, a solidarity surcharge (*Solidaritätszuschlag*) is levied in addition. Furthermore, church tax may be levied, where applicable. If coupons or interest claims are disposed of separately (*i.e.* without the Notes), the gains from the disposal are subject to income tax. The same applies to gains from the redemption of coupons or interest claims if the Notes are disposed of separately.

On payments of interest on the Notes to individuals who are tax residents of Germany, income tax is generally levied as a flat income tax at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375%, plus, if applicable, church tax). The church tax is generally levied by way of withholding unless the Holder has filed a blocking notice (*Sperrvermerk*) with the German Federal Tax Office (*Bundeszentralamt für Steuern*). The total positive investment income of an individual will be decreased by a lump sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for individuals filing jointly), not by a deduction of expenses actually incurred.

If the Notes are held in custody, or are administered, or if their disposal is executed, by a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank and such entity credits or pays out the investment income (the "**Disbursing Agent**"), the flat income tax will be levied by way of withholding at the aforementioned rate from the gross interest payment to be made by the Disbursing Agent.

In general, no withholding tax will be levied if the Holder is an individual (i) whose Notes do not form part of the property of a trade or business and (ii) who filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent but only to the extent the interest income derived from the Notes together with other investment income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if the Holder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office.

If no Disbursing Agent (as defined above) is involved in the payment process the Holder will have to include its income on the Notes in its tax return and the tax on its investment income of generally 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower

than 25%. In this case as well income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

- Taxation of capital gains

Also capital gains realized by individual tax residents of Germany from the disposal or redemption of the Notes (including gains from the assignment or hidden contribution of the Notes) will be subject to the flat income tax on investment income at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375%, plus, if applicable, church tax), irrespective of any holding period. The separation (e.g. by first-time assignment) of a coupon or interest claim from the Note is treated as a disposal of the Note. Church tax is generally levied by way of withholding unless the Holder has filed a blocking notice with the German Federal Tax Office. This will also apply to Notes on which the principal is effectively repaid in whole or in part although the repayment was not guaranteed.

If the Notes are held in custody, or are administered, or if their disposal is executed, by a Disbursing Agent (as defined above) the flat income tax will be levied by way of withholding from the positive difference between the redemption amount (or the proceeds from the disposal) and the issue price (or the purchase price) of the Notes. If Notes kept or administered in the same custodial account have been acquired at different points in time, the Notes first acquired will be deemed to have been sold first for the purpose of determining the capital gains. If the Notes have been transferred into the custodial account of the Disbursing Agent only after their acquisition, and no evidence on the acquisition data has validly been provided to the new Disbursing Agent by the Disbursing Agent which previously kept the Notes in its custodial account, withholding tax will be levied on 30% of the proceeds from the disposal or redemption of the Notes.

If no Disbursing Agent is involved in the payment process the Holder will have to include capital gains from the disposal or redemption of the Notes in its tax return and the tax on its investment income of generally 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25%. Further, if the withholding tax on a disposal or redemption has been calculated from 30% of the respective proceeds (rather than from the actual gain), a Holder who is an individual tax resident may and in case the actual gain is higher than 30% of the respective proceeds must also apply for an assessment on the basis of his or her actual acquisition costs. In this case as well income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

Any capital loss incurred from the disposal or redemption of the Notes can only be offset against positive income from capital investments. The Disbursing Agent will offset the losses with positive income from capital investments entered into through or with the same Disbursing Agent and carry forward any losses that cannot be offset to the following calendar year. If losses cannot be offset in full against positive investment income by the Disbursing Agent, the Holder can, instead, request that the Disbursing Agent issues a certificate stating the losses in order for them to be offset against other positive income from capital investments or carried forward in the assessment procedure. The request must reach the Disbursing Agent by December 15 of the current year and is irrevocable.

Pursuant to administrative guidance, a disposal shall be disregarded where the transaction costs exceed the proceeds from the disposal, which means that losses suffered from such "disposal" shall not be tax-deductible.

Notes held by tax residents as business assets

Payments of interest on Notes and capital gains from the disposal or redemption of Notes held as business assets by German tax resident individuals or tax resident corporations (*i.e.*, corporations whose legal domicile or place of effective management is located in the Federal Republic of Germany), including via a partnership, as the case may be, are generally subject to German income tax or corporate income tax (in each case plus solidarity surcharge and, if applicable, church tax). The interest and capital gain will also be subject to trade tax if the Notes form part of the property of a German trade or business.

If the Notes are held in custody, or are administered, or if their disposal is executed, by a Disbursing Agent (as defined above), tax at a rate of 25% (plus a solidarity surcharge of 5.5% of such tax and, if applicable, church tax) will also be withheld from interest payments on Notes and generally also from capital gains from the disposal or redemption of Notes held as business assets. In these cases the withholding tax does not satisfy the income tax liability of the Holder, as in the case of the flat income tax, but will be credited as

advance payment against the personal income or corporate income tax liability and the solidarity surcharge (and, if applicable, against the church tax) of the Holder.

With regard to capital gains from the disposal or redemption of Notes no withholding will generally be required in the case of Notes held by corporations tax resident in Germany, provided that in the case of corporations of certain legal forms the status of corporation has been evidenced by a certificate of the competent tax office. The same applies upon notification by use of the officially prescribed form towards the Disbursing Agent in the case of Notes held by individuals or partnerships as business assets.

Notes held by non-residents

Payments of interest on Notes and capital gains from the disposal or redemption of Notes are not subject to German taxation in the case of non-residents, *i.e.* persons having neither their residence nor their habitual abode nor legal domicile nor place of effective management in Germany, unless the Notes form part of the business property of a permanent establishment maintained in Germany, or for which a permanent representative has been appointed in Germany. Interest may, however, also be subject to German income tax if it otherwise constitutes income taxable in Germany, such as income from the letting and leasing of certain German-situs property or income from certain capital investments directly or indirectly secured by German situs real estate.

Non-residents of Germany are in general exempt from German withholding tax on interest and capital gains and from solidarity surcharge thereon. However, if the interest or capital gain is subject to German taxation as set forth in the preceding paragraph and the Notes are held in custody, or are administered, or if their disposal is executed, by a Disbursing Agent (as defined above), withholding tax will be levied as explained above at "*Notes held by tax residents as business assets*" or at "*Notes held by tax residents as non-business assets*", respectively.

Particularities of Notes with a negative yield

Holders will only realize a taxable capital gain if they receive, upon a disposal of the Notes, an amount in excess of the issue price (or the purchase price they paid for the Notes).

Contrary thereto, Holders who subscribe the Notes at the issue price and hold the Notes until their final maturity will realize a loss if the issue price is higher than the redemption price. The tax treatment of such losses is not entirely clear:

If the Notes are held by tax residents as non-business assets, statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by private investors arguably imply that such losses cannot be fully deducted. Such losses are rather treated as expenses in connection with capital investment income and, are, consequently not tax-deductible except for an annual lump-sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for individuals filing jointly).

If the Notes are held by tax residents as business assets, recently published statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by business investors arguably imply that such losses are generally tax deductible.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Note will generally arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a tax resident of Germany and such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German citizens who previously maintained a residence in Germany.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

2. The Netherlands

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application

thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Note and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of this summary it is assumed that no Holder of a Note has or will have a substantial interest, or - in the case of a Holder of a Note being an entity - a deemed substantial interest, in the Issuer and that no connected person (*verbonden persoon*) to the Holder of a Note has or will have a substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in an entity if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have, or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have, (I) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of an entity or the issued and outstanding capital of any class of shares of such company, or (II) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5% or more of either the annual profit or the liquidation proceeds of such entity.

Generally speaking, a non-resident entity has a substantial interest in an entity if such entity, directly or indirectly has (I) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of an entity or the issued and outstanding capital of any class of shares of an entity, or (II) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5% or more of either the annual profit or the liquidation proceeds of an entity. An entity holding a Note has a deemed substantial interest in an entity if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this summary refers to "The Netherlands" or "Dutch", it refers only to the European part of the Kingdom of the Netherlands. Where this summary refers to a Holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Note or otherwise being regarded as owning a Note for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of a Note.

Withholding Tax

All payments made by the Issuer of interest and principal under the Notes can be made free of withholding or deduction of any taxes of whatsoever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, unless the Notes qualify as debt that effectively functions as equity for purposes of article 10, paragraph 1, sub d of the Corporate Tax Act (*Wet op de vennootschapsbelasting 1969*).

Taxes on income and capital gains

Residents

- Resident entities

An entity holding a Note which is, or is deemed to be, resident in The Netherlands for corporate tax purposes and which is not tax exempt, will generally be subject to corporate tax in respect of income or a capital gain derived from a Note at the prevailing statutory rates (up to 25% in 2018).

- Resident individuals

An individual holding a Note who is, or is deemed to be, a resident in The Netherlands for income tax purposes will be subject to income tax in respect of income or a capital gain derived from a Note at the prevailing statutory rates (up to 51.95% in 2018) if:

- (i) the income or capital gain is attributable to an enterprise from which the Holder derives profits (other than as a shareholder); or

- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor (ii) applies, an individual holding a Note will be subject to income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from a Note. For 2018, the deemed return ranges from 2.02% to 5.38% of the value of the individual's net assets as at the beginning of the relevant fiscal year (including the Notes). The applicable rates will be updated annually on the basis of historic marked yields. Subject to application of certain allowances, the deemed return will be taxed at a rate of 30%.

Non-residents

A Holder of a Note which is not, and is not deemed to be, a resident in The Netherlands for the relevant tax purposes will not be subject to taxation on income or a capital gain derived from a Note unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in The Netherlands or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) taxable in The Netherlands and the Holder of a Note derives profits from such enterprise (other than by way of securities); or
- (ii) the Holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

Gift and inheritance taxes

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Note by way of gift by, or on the death of, a Holder of a Note, unless:

- (i) the Holder of a Note is, or is deemed to be, resident in The Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in The Netherlands for the purpose of the relevant provisions.

Value added tax

There is no Dutch value added tax payable by a holder of Notes in respect of payments in consideration for the issue or acquisition of Notes, payments of principal or interest under the Notes, or payments in consideration for a disposal of Notes.

Other taxes and duties

There is no Dutch registration tax, stamp duty or any other similar tax or duty payable in The Netherlands by a holder of Notes in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of the Netherlands) of the Notes or the performance of the Issuer's obligations under the Notes.

Residence

A holder of Notes will not be and will not be deemed to be resident in The Netherlands for Dutch tax purposes and, subject to the exceptions set out above, will not otherwise be subject to Dutch taxation, by reason only of acquiring, holding or disposing of Notes or the execution, performance, delivery and/or enforcement of Notes.

3. Grand Duchy of Luxembourg

Non-Residents

Under the existing laws of the Grand Duchy of Luxembourg there is no withholding tax on the payment of interest on, or reimbursement of principal of, the Notes or on payments made under the Guarantee to non-residents of the Grand Duchy of Luxembourg through a paying agent established in Luxembourg.

However, the exchange of information rules and requirements provided for by the Luxembourg law of December 18, 2015 on the automatic exchange of financial account information in the field of taxation apply.

Residents

According to the law of December 23, 2005, as amended, interest on Notes paid by a Luxembourg paying agent or paying agents established in the EU or in the EEA to an individual Holder of Notes who is a resident of Luxembourg will be subject to a withholding tax of 20%. In case of payment through a paying agent established in the EU or in the EEA, the Luxembourg resident individual Holder of Notes must under a specific procedure remit 20% tax to the Luxembourg Treasury.

If the individual Holder holds the Notes in the course of the management of his or her private wealth, the aforementioned 20% withholding tax will operate a full discharge of income tax due on such payments.

Interest on Notes paid by a Luxembourg paying agent to a resident Holder of Notes who is not an individual is not subject to withholding tax.

When used in the preceding paragraphs "*interest*" and "*paying agent*" have the meaning given thereto in the Luxembourg law of December 23, 2005, as amended. "*Interest*" will include accrued or capitalized interest at the sale, repayment or redemption of the Notes. Payments of interest or similar income under the Notes to Clearstream Banking AG, Clearstream Banking, société anonyme and Euroclear Bank SA/NV and payments by or on behalf of Clearstream Banking, société anonyme to financial intermediaries will not give rise to a withholding tax under Luxembourg law.

4. The United Kingdom of Great Britain and Northern Ireland ("UK")

For the purpose of this summary, the term "entity" means a company as well as any other person that is taxable as a company for UK corporate tax purposes.

Where this summary refers to "the UK", it refers only to the territories subject to Acts of the UK Parliament. Where this summary refers to a holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such a Note or otherwise being regarded as owning a Note for UK tax purposes. It is noted that for purposes of UK income tax and corporation tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Withholding Tax

As the Notes are admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and listed on the official list of the Luxembourg Stock Exchange, payment of interest on the Notes may be made without withholding or deduction for or on account of income tax.

Any premium that is or may be payable on redemption may constitute such a payment of interest. Where Notes are issued at an issue price of less than 100% of their principal amount, any payments in respect of the accrued discount element on any such Notes may be made without any withholding or deduction for or on account of income tax.

5. Republic of Ireland ("Ireland")

For the purpose of this summary, the term "entity" means a company as well as any other person that is taxable as a company for Irish corporate tax purposes.

Where this summary refers to "Ireland" or "Irish", it refers only to the territories subject to Acts of the Irish Parliament. Where this summary refers to a holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such a Note or otherwise being regarded as owning a Note for Irish tax purposes. It is noted that for purposes of Irish income tax and corporation tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Withholding Tax

Under Irish tax law there is no obligation on the issuers to operate any withholding tax on payments of interest on the Notes except where the interest has an Irish source and is yearly interest in nature. The interest could be considered to have an Irish source, where, for example, interest is paid out of funds maintained in Ireland or where the Notes are secured on Irish situate assets or where payment of the indebtedness could otherwise effectively be enforced in Ireland. The mere offering of the Notes to Irish investors will not cause the interest to have an Irish source. In certain circumstances collection agents and other persons receiving interest on the Notes in Ireland on behalf of a Noteholder may be obliged to operate a withholding tax.

6. Republic of Austria

Income tax

Austrian Resident Taxpayers

Individuals having a domicile or their habitual abode in Austria or corporations having their corporate seat or their place of management in Austria are considered residents for Austrian income and corporate income tax law purposes, respectively.

Individual residents

- Notes held as private assets

Generally income arising with respect to the Notes in the form of either

- (i) fixed or floating interest payments (*Zinserträge*) or
- (ii) realized capital gains (*Einkünfte aus realisierten Wertsteigerungen*)

qualifies as "investment income" (*Einkünfte aus Kapitalvermögen*) and, as such, is taxed under a special regime at a flat rate of 27.5% if the Notes are publicly offered. Realized capital gains are the difference between (a) the amount realized (e.g., the sale proceeds, the redemption or other pay-off amount, or the fair market value in case of a deemed realization) and (b) the acquisition costs; in each case including accrued interest, if any.

For Notes held as private assets, the acquisition costs shall not include ancillary acquisition costs (*Anschaftungsnebenkosten*). An average price is determined regarding Notes not acquired at the same time, but held in the same securities account and having the same securities identification number. Expenses and costs (*Aufwendungen und Ausgaben*) that are directly connected with investment income are not tax effective.

If an Austrian custodian (*inländische depotführende Stelle*) or an Austrian paying agent (*auszahlende Stelle*) is involved in paying investment income (interest or capital gains), 27.5% withholding tax is imposed. The Austrian custodian or paying agent has the responsibility to deduct and pay the withholding tax to the respective tax office.

If no withholding tax is imposed (e.g., because the Notes are held through a foreign paying agent), the investment income arising from the Notes generally has to be included in the investors's annual income tax return in accordance with the Austrian Income Tax Act and will be subject to the special flat tax rate of 27.5%.

The 27.5% taxation generally results in a final taxation (*Endbesteuerung*) for income tax, both in case of the imposition of a withholding tax and in case of a tax assessment, *i.e.*, the flat income tax will generally satisfy the income tax liability on the investment income; an option to assess the income at the progressive income tax rate exists (in particular for investors whose regular personal income tax rate is lower than 27.5%).

Income from Notes which are not legally or factually offered to an indefinite number of persons within the meaning of the Austrian Income Tax Act would not be subject to withholding tax and final taxation but subject to normal progressive personal income tax rates of up to 50% (for income above EUR 90,000 *per annum* and up to EUR 1 million *per annum*) and 55% (as far as the income exceeds EUR 1 million *per annum*).

Capital gains are not only taxed upon an actual disposition or redemption of the Notes, but also upon a deemed realization.

- A deemed realization takes place due to a restriction of the Austrian taxing right on the Notes (e.g. move abroad, donation to a non-resident, etc.). If the Notes are held in an Austrian securities account, the Austrian withholding agent (custodian or paying agent) has to impose the withholding tax and such withholding tax needs to be deducted only upon an actual disposition of the Notes or withdrawal from the account. If the Holder has timely notified the Austrian withholding agent of the restriction of the Austrian taxing right on the Notes (e.g. his or her relocation to another country), not more than the value increase of the Notes until such notification is subject to Austrian withholding tax. An exemption of withholding tax applies in case of a notified moving to another Member State of the European Economic Area if the Holder presents to the Austrian withholding agent a tax assessment notice of the year of migration in which the option for a deferral of tax has been exercised.
- A deemed realization also takes place upon withdrawals (*Entnahmen*) from an Austrian securities account and other transfers of Notes from one Austrian securities account to another one. Exemptions apply in this case for a transfer of the Notes to another deposit account, if certain information procedures are fulfilled and no restriction of the Austrian taxing right occurs (e.g., no donation to a non-resident).

Losses from Notes held as private assets may only be offset with other investment income subject to the flat tax rate (excluding, *inter alia*, interest income from bank deposits and other claims against banks) and must not be offset with any other income. Mandatory loss-offsetting rules to be handled by Austrian custodians apply. A carry-forward of losses is not possible in this context.

- Notes held as business assets

Generally, the same rules as described under the previous heading apply regarding Notes that are held as business assets by tax residents who are individuals. The most important differences are the following (which are, apart from the last bullet point, only relevant for the assessment of the investor):

- Realized capital gains, contrary to interest income, have to be included in the investor's annual income tax return, since despite a 27.5% withholding taxation that is also imposed in the context of Notes held as business assets if an Austrian custodian is involved, no final taxation for income tax applies. It is nevertheless subject to the special income tax rate of 27.5%; however, this only applies to income from realized capital gains if the realization of such income is not a core activity of the business.
- Write-downs and realized losses derived from the sale or redemption of the Notes held as business assets may be offset with positive income from realized capital gains that are investment income in the first place; 55% of the remaining losses may be offset against other income or carried forward.
- The acquisition costs of Notes held as business assets may also include ancillary costs incurred upon the acquisition.
- Loss off-setting is not made by the custodian, but can only be made in the assessment of the individual.

It is noted that expenses and costs (*Aufwendungen und Ausgaben*) directly connected with investment income are also not tax effective if the Notes are held as business assets.

Corporate residents

Corporate investors deriving business income from the Notes may avoid the application of withholding tax by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian withholding tax agent, who must forward a copy thereof to the tax office. Income derived from the Notes by corporate investors (including any capital gains) is subject to corporate income tax at the general corporate income tax rate of 25%. Any Austrian withholding tax levied is credited as prepayment against the Austrian corporate income tax amount in the tax assessment of the corporate investor.

A special tax regime applies for private foundations (*Privatstiftungen*).

Notes held by non-residents

Non-resident investors, *i.e.*, individuals who have neither a domicile nor their habitual abode in Austria and corporations that have neither their corporate seat nor their place of management in Austria ("*non-residents*") are not taxable in Austria with regard to their income from the Notes, provided the income is not attributable to a permanent establishment of the investor in Austria.

Since January 1, 2017 the taxation of interest income from the Notes was extended to all non-resident individuals (with the exception of persons resident in a country which takes part in the automatic information exchange). However, no such taxation of interest income applies to the Notes at hand in the case of non-resident investors, if the issuer— being not a bank – has neither its seat nor its place of management in Austria and under the condition that the issuer does not have a branch in Austria which is involved in the issuance of the Notes. The exemption of withholding tax requires (among others) a proof of the investor's non-residence (including certificate of residence of the investor). In case of any tax withheld a refund is possible to the non-resident investors upon application which has to be filed with the competent Austrian tax office.

Accrued interest in case of a sale or other disposition of the Notes (including the difference between the sales price and the acquisition cost in case of zero-coupon-bonds) is regarded as interest income subject to non-resident taxation if the debtor of the accrued interest (the acquirer of the Notes) has its seat, domicile or its place of management in Austria or is the branch of a foreign bank, and the sales transaction, in the course of which the accrued interest is paid, is handled by an Austrian paying agent. No taxation of interest income applies vis-à-vis non-resident corporate investors. No taxation of interest also applies vis-à-vis individuals who are residents in a country, with which Austria agreed on an automatic exchange of information, if an appropriate proof is provided by the investor. The proof must be furnished, among others, by means of a certificate of residence issued by the tax authorities of the investor's residence state and further documentation in case of corporations. In case of transparent partnerships the residence status of the partners is decisive. Moreover, tax withheld may be refundable to the non-resident investors upon their application which has to be filed with the competent Austrian tax office under the conditions mentioned or if a double tax treaty relief is available.

If a non-resident individual or corporation receives income from the Notes through an Austrian permanent establishment, they are to a large extent subject to the same tax treatment as resident investors, *i.e.*, both interest income and capital gains received via the permanent establishment are subject to tax and also (in case of an Austrian withholding tax agent) to withholding tax, unless an exemption is applicable (see the description for Austrian resident investors).

Final note on withholding tax imposed in Austria

Assuming that neither of the Issuers uses a branch or permanent establishment in Austria for the payment of interest under the Notes, neither of the Issuers do assume any responsibility for Austrian withholding tax (*Kapitalertragsteuer*) charged in Austria at source and is not obliged to make additional payments in case of withholding tax deductions at source.

7. Financial transaction tax

On February 14, 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common Financial Transaction Tax ("**FTT**") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has in the meanwhile stated that it will no longer participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective Holders of Notes are advised to seek their own professional advice in relation to the FTT.

8. U.S. Foreign Account Tax Compliance Act Withholding ("FATCA")

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions (including Germany and the Netherlands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to 1 January 2019 (intended date) and Notes issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Issuer). However, if additional notes (as described under "*Terms and Conditions—Further Issues, Purchases and Cancellation*") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, the Issuer will not pay any additional amounts as a result of the withholding.

SELLING RESTRICTIONS

Each Dealer has represented and agreed that it has not offered sold or delivered and will not offer, sell or deliver, directly or indirectly, Notes within the United States or its possessions in connection with their original issuance. Further, each Dealer has represented and agreed in connection with the original issuance of Notes, that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if either such Dealer or purchaser is within the United States or its possessions and will not otherwise involve its U.S. office in the offer or sale of Notes. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the C Rules.

Terms used in this paragraph (e) have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

3. European Economic Area

Unless the Final Terms in respect of any Notes specify the "*Prohibition of Sales to EEA Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "**Insurance Mediation Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Directive; and
- (b) the expression an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes specify "*Prohibition of Sales to EEA Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant

Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) if the Final Terms in relation to the Notes specify an offer of those Notes other than pursuant to Article 3 (2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or,
- (d) at any time in any other circumstances falling within Article 3 (2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in each Relevant Member State.

4. United Kingdom of Great Britain and Northern Ireland ("United Kingdom")

Each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that:

- (i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000, as amended ("**FSMA**")) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the Issuer or the Guarantor; and
- (ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to such Notes in, from or otherwise involving the United Kingdom.

5. Selling Restrictions Addressing Additional Netherlands Securities Laws

Each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that it will not make an offer of Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to the public in The Netherlands in reliance on Article 3(2) of the Prospectus Directive unless:

- (i) such offer is made exclusively to legal entities which are qualified investors as defined in the Dutch Financial Supervision Act (*Wet op het financieel toezicht*, the "**FMSA**") and which includes authorized discretionary asset managers acting for the account of retail investors under a discretionary investment management contract) in The Netherlands; or
- (ii) standard exemption logo and wording are disclosed as required by article 5:20(5) of the FMSA; or
- (iii) such offer is otherwise made in circumstances in which article 5:20(5) of the FMSA is not applicable,

provided that no such offer of Notes shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expressions (i) an "**offer of Notes to the public**" in relation to any Notes in the Netherlands; and (ii) "**Prospectus Directive**", have the meaning given to them above in the paragraph headed with "**European Economic Area**".

6. Japan

Each Dealer has acknowledged that the Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended, the "**Financial Instruments and Exchange Law**"). Each Dealer has represented and agreed that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan except only pursuant to an exemption from the registration requirements of, and otherwise in compliance with the Financial Instruments and Exchange Law and any applicable laws, regulations and guidelines of Japan.

GENERAL INFORMATION

Application has been made to the Commission, which is the Luxembourg competent authority for the purpose of the Prospectus Directive for its approval of this Prospectus.

Interests of Natural and Legal Persons involved in the Issue/Offer

Except as discussed in the relevant Final Terms, certain of the Dealers and their affiliates may be customers of, borrowers from or creditors of BASF, BASF Finance and its affiliates. In addition, certain Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for BASF, BASF Finance and its affiliates in the ordinary course of business. Furthermore, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or Issuers' affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuers routinely hedge their credit exposure to the Issuers consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions, which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Program. Any such short positions could adversely affect future trading prices of Notes issued under the Program. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
