

1 | Electronics and Electric

Ultramid® Advanced Π plastics for sophisticated components

2 | Dashboard

Water-based binder Acrodur® with natural fibers

3 | Windows

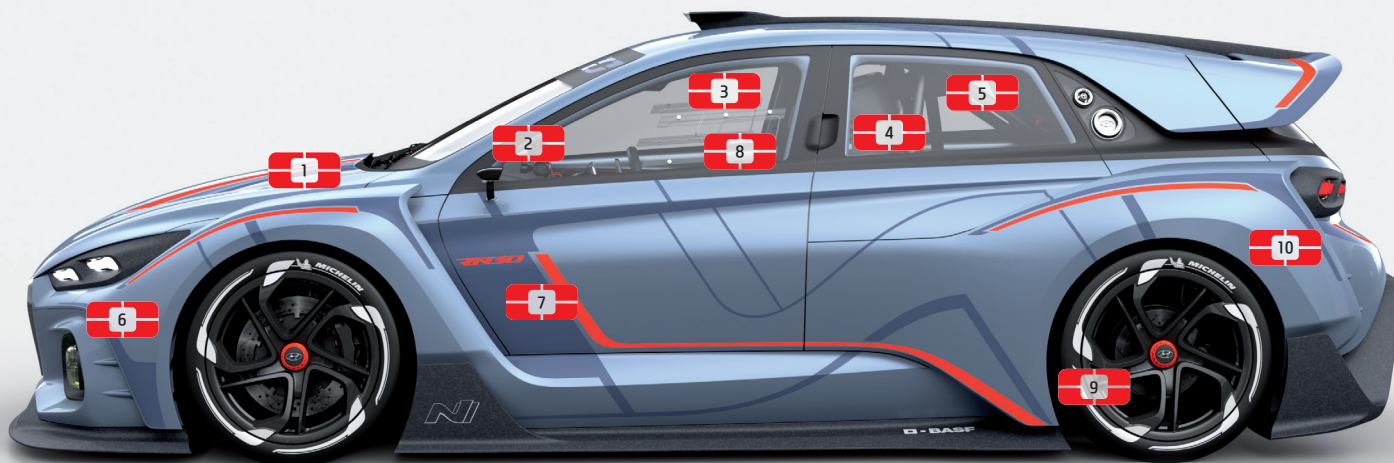

Near infrared-reflective films

4 | Seat pan/backrest

Composite system Ultracom® combined with simulation tool Ultrasim®

5 | Roll bar padding

Infinergy® foam with elastic coating

6 | Fender and spoiler

Elastolit® rigid foam and reaction injection molding (RIM) systems

7 | Body coating

ColorPro IC waterborne basecoat and iGloss® clearcoat with easy-to-clean effect

8 | Seat cover/steering wheel

Unique surface technology valure™

9 | Brake fluid

Hydraulic® 406 ESI for superior performance

10 | Trunk floor

Elastoflex® E sandwich structures with paper honeycomb and natural fibers
