## **BASF increases prices for AdBlue® from BASF in Europe**

With immediate effect BASF increases prices for AdBlue® from BASF by 10 €/m<sup>3</sup>. The price increase affects bulk amounts in tank trucks and containers.

AdBlue® is used to reduce nitrogen oxide emissions from diesel engines. AdBlue is a high-purity urea solution which is sprayed directly into exhaust gases and lowers the nitrogen oxide content in the exhaust gases.

### **About BASF**

At BASF, we create chemistry for a sustainable future. We combine economic success with environmental protection and social responsibility. The more than 115,000 employees in the BASF Group work on contributing to the success of our customers in nearly all sectors and almost every country in the world. Our portfolio is organized into five segments: Chemicals, Performance Products, Functional Materials & Solutions, Agricultural Solutions and Oil & Gas. BASF generated sales of €64.5 billion in 2017. BASF shares are traded on the stock exchanges in Frankfurt (BAS), London (BFA) and Zurich (BAS). Further information at [www.basf.com](http://www.basf.com).
