## **BASF increases prices for Standard Antioxidants and Hindered Amine Light Stabilizers (HALS) for plastic applications**

Effective immediately or as contracts allow, BASF is increasing prices for Standard Antioxidants and Hindered Amine Light Stabilizers (HALS) for plastics applications globally by up to 10 percent.

The price adjustment is in response to the prevailing inflationary pressure and substantial increases in manufacturing and logistics costs.

### **About BASF Plastic Additives**

BASF is a leading supplier, manufacturer, and innovation partner of plastic additives. Its comprehensive and innovative product portfolio includes additives that provide ease in processing, and heat and light resistance to a variety of polymers and applications including molded articles, films, fibers, sheets, and extruded profiles. The portfolio is constantly analyzed, assessed and actively improved towards solutions which make a larger contribution to sustainability. More information about plastic additives: [www.plasticadditives.basf.com](http://www.plasticadditives.basf.com).

BASF plastic additives is part of BASF's Performance Chemicals division. The division's portfolio also includes fuel and lubricant solutions, as well as oilfield chemicals and mining solutions. Customers from a variety of industries including Chemicals, Plastics, Consumer Goods, Energy & Resources and Automotive & Transportation benefit from our innovative solutions.
