

# Sustainability Quick Guide Furniture & Flooring Coatings

## Sustainability demands in furniture & flooring coatings

## Additives to meet the demands

Our formulation additives for furniture & flooring coatings enable formulators to produce finishes that preserve the beauty of coated wood while meeting the demand for efficient and environmentally compatible manufacturing.

### Resource efficiency

With highly efficient rheology modifiers, we enable lower resource consumption without compromising performance.

### Durability

Our effective dispersing and leveling agents support longer lasting coatings, which reduce the need for recoating and repair.

### Lower emissions

BASF offers a full range of formulation additives that helps the industry move to water-based technologies to positively impact climate and indoor air quality.

## Formulation additives for more sustainable furniture & flooring coatings
