

# Cavipor®

The mineral based in-situ foam for energy renovation of double-wall masonry

**is...**

**because it is...**

non-flammable

mineral based

insulating

fine celled

sound absorbing

open pored

harmless

low emitting

durable

adhesive

waterproof

hydrophobic

vapor permeable

breathable

sustainable

recyclable

# Cavipor®

The mineral based in-situ foam for energy renovation of double-wall masonry

**is...**

**because it is...**

space saving

foamable

not selfexpanding

propellant free

cleanly processable

water-based

conservatively applicable

minimally invasive

gap filling

fluid

fast

self sealing

economic

profitable
