

THE SUSTAINABLE CASTOR INITIATIVE

PRAGATI

Update April 2019

**DID YOU KNOW?
MORE THAN
80%**

Of the world's supply of castor seed produced annually in India representing approximately 1.2 million tons

INTRODUCTION

The Pragati Initiative

WHAT?

Enabling Sustainable castor crop production by:

-  Using good agricultural practices to increase yield and farmer income
-  Efficiently using water resources and Maintaining soil fertility
-  Driving adoption of good waste management practices
-  Enabling better health and safety practices, and respecting human rights

WHO?

4 Members of the Pragati Initiative

-  Arkema, a global leader in specialty chemicals and advanced materials
-  BASF, the world's leading chemical company
-  Jayant Agro-Organics Ltd., a pioneer in castor oil based chemicals in India
-  Solidaridad, an international civil society organization

WHERE?

The Pragati initiative is focused in Gujarat, where most of the castor crop is grown.

WHEN?

The Pragati Initiative was launched in 2016

PHARMACEUTICALS

700,000

The number of castor bean farmers in India

800,000

The number of hectares of land dedicated to castor farming in India

45%

Of the weight of castor bean is captured as castor oil. The remainder is generally repurposed as a fertilizer

5

Farmers typically harvest castor pods **at least 5 times** per year 120 to 210 days after planting

TOP 2

Perceived sustainability advantages of castor beans

- ❖ Naturally drought resistant
- ❖ Does not compete with food chain for humans or animals

Products derived from castor oil are often celebrated for their bio-based origin and their low carbon footprint

PRAGATI

Sustainable Castor Initiative

5,000 tons of certified castor beans have now been successfully cultivated

** Statistics as of April 2019*

Agricultural experts have facilitated sampling for soil conservation in more than 5 villages

5

Yield has increased more than 50% by the farmers certified in the first two years compared to the 2016 baseline study

50 Soil and water quality testing has been performed in more than 50 villages

5 Demonstration plots set up in the program to showcase the benefits of implementing good agricultural practices

3

Certification bodies have been empanelled as external certification agencies

More than 3,000 Safety kits & Over 3,000

Pesticide storage boxes have been distributed to help farmers with improved waste management

Over 2,700 Farmers Certified by the program so far

- ✦ More than 4,000 hectares of castor farming are now in accordance with the project framework
- ✦ More than 5,000 hours of classroom training
- ✦ All certified farmers have adopted improved farm waste management practices

H₂O

Water consumption has been lowered by approximately 25% in the demo plots where water utilization is monitored
