

BASF Global Palm Oil Mill List for 2021

BASF is sourcing palm products and palm based oleochemical derivatives for the use in a wide range of home and personal care and other applications from multiple suppliers globally. As these palm products are mixed, derived, traded, commingled along the global supply chain establishing traceability becomes increasingly challenging. This means the lists of mills provided to us from our suppliers represent mills that are “potentially” linked to our supply chains—being listed does not necessarily mean a mill is connected to our specific volumes BASF is sourcing. The following palm oil mill list is based on information that has been self-reported to us by suppliers. Though we have made considerable effort to validate the data, we cannot guarantee its full accuracy or completeness. Thus, BASF and its affiliates make no warranty, representation or undertaking whether expressed or implied, nor does it assume any legal liability, whether direct or indirect, or responsibility for the accuracy, completeness, or usefulness of any information.
