To NGAI (魏濤)

Associate Professor
Department of Chemistry
The Chinese University of Hong Kong
Shatin, New Territories, Hong Kong, China
(Office) (852)-3943 1222; (Fax) (852)-2603 5057
E-mail: tongai@cuhk.edu.hk
Website: http://www.cuhk.edu.hk/research/NgaiToGroup/people.html

Education Attainment:

1996 – 1999 Bachelor of Science in Chemistry, *First Class Honours*
Department of Chemistry, The Chinese University of Hong Kong.

1999 – 2003 Ph.D in Chemistry, Department of Chemistry, The Chinese University of Hong Kong.
Dissertation title: "Interaction of Polymer Chains in Solution"
Advisor: Professor Chi Wu

Employment History:

2012. 01 – present **Associate Professor,** Department of Chemistry, The Chinese University of Hong Kong, Hong Kong.

2008. 1 – 2011. 12 **Assistant Professor,** Department of Chemistry, The Chinese University of Hong Kong, Hong Kong.

2006. 1 – 2007. 12 **Research Assistant Professor**, Department of Chemistry, The Chinese University of Hong Kong.

2005. 7 – 2005. 12 **Postdoctoral Associate**, Department of Chemistry, University of Minnesota, MN. USA.
Advisor: Professor Timothy Lodge

2003. 5 – 2005. 4.	**Postdoctoral Associate** in Polymer Division, BASF Aktiengesellschaft, Ludwigshafen, Germany Advisor: Dr. Helmut, Auweter and Dr. Sven-Holger, Behrens

Research Interests:

My research interests center on various areas of surface and colloid science. I focus on the design and study the particle behaviour at the fluid interfaces through combination of colloid science, polymer chemistry and soft matter physics. I also focus on the developing and applying single-particle force microscopy, total internal reflection microscopy (TIRM), and active single-particle microrheometer, to measure the intermolecular and surface forces as well as viscoelastic properties of soft materials. Recently, I have been highly involved to the development of orthopaedic implant materials by collaborative working with pre-clinical and material scientists. Current areas of focus include:

1. Particles at the interface: from fundamentals to materials
2. Measuring intermolecular and surface forces
3. Microrehology of soft matter and biomaterials
4. Development of orthopaedic implant biomaterials

Research-related Awards:

2014	Research Excellent Award 2014, CUHK
2013	Young Research Award 2013, CUHK
2004	Croucher Fellowship, The Croucher Foundation, Hong Kong
1997	Ko Ho Ning Scholarship, United College, CUHK
1997	United College Endowment Fund Prize, CUHK

Publications:

1 Book (editor), 2 Book Chapters; and 92 Scientific Journal Papers.

“The Kids’ Lab 2016 Experiment challenge, led by BASF, in collaboration with Department of Chemistry CUHK, offers a fantastic opportunity for students to showcase their innovative ideas. I’m really love to see that most submissions could apply chemistry knowledge in practical, creative ways to design experiments which can help small kids learn science. Looking forward to seeing their presentation in person at CUHK on 19 November 2016”.

Ying-Lung Steve TSE

Assistant Professor
Department of Chemistry
The Chinese University of Hong Kong

Education Attainment:

2006 – 2011	**Ph.D.** in Chemistry, Department of Chemistry, Stanford University, USA Dissertation Title: "A lattice model of the translational dynamics of nonrotating rigid rods" Advisor: Professor Hans C. Andersen
2001 – 2005	**B.Sc.** in Chemistry, Mathematics, and Computer Science *Valedictorian*, *Summa Cum Laude* Towson University, USA

Employment History:

2015.10 – Present	Assistant Professor, The Chinese University of Hong Kong, Hong Kong
2012.08 – 2015.09	Postdoctoral Scholar, The University of Chicago, USA. Advisor: Professor Gregory A. Voth
2011.08 – 2012.08	Postdoctoral Scholar, The University of Chicago, Colorado School of Mines, and The National Renewable Energy Laboratory, USA Advisor: Professor Gregory A. Voth

Awards:

2013 – 2015	Croucher Postdoctoral Fellowship, Hong Kong
2011	Annual Reviews Prize in Physical Chemistry, Stanford
2006 – 2009	Stanford Graduate Fellowship, Stanford
2006	Paul Flory Award, Stanford
2005	Achievement in Chemistry, ACS Maryland Section
2005	Merck Award in Organic Chemistry, Towson
2005	Floyd Blankenship Memorial Award in Physical Chemistry, Towson
2005	College of Science of Mathematics Summer Research Grant, Towson
2005	Towson University Undergraduate Research Grant, Towson
2004	American Institute of Chemists Student Award, Towson
2004	Tutor of the Year, Towson
2004	The Ronald and Linda Raspet Scholarship Endowment, Towson
2003	Freshman Chemistry Achievement, Towson
2001 – 2005	Dean's List, Towson

"The participants clearly showed that doing science is fun. They were creative with their knowledge learned at school and (limited) resources. They also had a very good understanding of lab safety and were great at explaining the principles. I cannot wait to see their creations again once they have learned even more science at university. The future of Hong Kong will surely benefit from their innovations."
