

BASF in Indonesia

Overview

At BASF, we create chemistry for a sustainable future. BASF has been operating in Indonesia for more than 45 years. The company started its investment in the country in 1976 and began commercial production in 1977. Our portfolio is organized into six segments: Chemicals, Materials, Industrial Solutions, Surface Technologies, Nutrition & Care and Agricultural Solutions.

Today, BASF solutions contribute to the success of its customers in Indonesia in nearly all industries, including agriculture, food, home & personal care, automotive, paints and coatings and chemicals. The head office of BASF in Indonesia is located in Jakarta, with production sites in Cengkareng, Cimanggis and Merak.

BASF companies in Indonesia are ISO 9001 and ISO 14001 certified.
