**Security Code No: 500042**

Dear Sir,

**Re: BASF to expand its manufacturing capacity of Cellasto® and cease thermoplastic polyurethane (TPU) manufacturing at its Dahej plant in Gujarat.**

We wish to inform you that the Company plans to expand its manufacturing capacity for Cellasto® at its Dahej site. Cellasto® is the trade name for components made of BASF cellular polyurethane elastomers and have been successfully used for over 55 years in the suspension system to reduce noise, vibration and harshness in automotive production.

The expansion at Dahej will serve India's growing automotive market for both two-wheel and four-wheel vehicles. The expansion project includes a new production line and will supplement the testing equipment of Cellasto ® installed earlier this year.

Further, in line with the changing customer needs in the South Asian region, the Company has decided to cease TPU manufacturing at Dahej. However, the Company will continue supplying South Asian markets from its global network, which would ensure seamless supply to customers.

There is no impact of a material nature on account of cessation of TPU manufacturing and the same will not affect the Company's overall growth strategy in India.

You are requested to take note of the above.

Thanking you,

Yours faithfully,  
For BASF India Limited

Pradeep Chandan
