No more CAG vs govt; data will dictate history: Modi

New Delhi, 16 November

■ xhorting auditors to adopt strong and scientific auditpractices, Prime Minister Narendra Modi said audit is an important tool for value addition which helps in recognising problems and finding solutions. He was addressing an event celebrating the first Audit Diwas organised by the Comptroller and Auditor General (CAG) on Tuesday.

He said there was a time when auditing in the country was looked upon with apprehension and dread and "CAG vs government" had become the common thought of system. "... But today, this mindset has changed. Today audit is being considered as an important part of value addition."

Modi said the non-performing assets (NPAs) of the banking sector had continued to rise because of wrong practices and lack of transparency followed by the earlier regime. "You know very well how, in the past, NPAs were brushed under the carpet. However, we have put the truth of the previous governments in front of the country with complete honesty. We will find the solutions only when we recognise the problems," he said.

The PM said in the past information was transmitted in form of stories and history was written through stories. "But now, data is information, and in the coming times our history will also be seen and understood through data. In the future, data will dictate history," he said.

He listed out reforms such as contactless customs, automatic renewals, faceless assessments and online applications for service delivery, that have ended unnecessary government interventions.

PM inaugurates expressway, clubs prosperity with security

PM Narendra Modi in Sultanpur to inaugurate the Purvanchal Expressway, on Tuesday

"The Purvanchal Expressway will strengthen the IAF and allow for the emergency landing of our fighter jets. This should also scare those elements who had neglected our defence capability needs for decades" NARENDRA MODI, Prime Minister

VIRENDRA SINGH RAWAT

Lucknow, 16 November

Prime Minister Narendra Modi on Tuesday attacked opposition parties and said the previous governments in Uttar Pradesh led by them reduced the state's vital eastern part to mafiawaad and poverty, but the BJP government is now writing a new chapter

Modi was addressing a rally after inagurating the 341-km Purvanchal Expressway, where he himself landed in a Indian Air Force (IAF) C-130 Hercules aircraft on a 3.2-km stretch developed as an emergency air strip. Later, an air show featuring the latest IAF fighter jets, such as Mirage and Sukhoi, was held. In his address, the PM noted prosperity and national security went hand in hand even as he slammed the previous governments for allegedly neglecting the urgent need to augment India's defence capabilities. "The Purvanchal Expressway will strengthen the IAF and allow for the emergency landing of our fighter jets. This should also scare those elements who had neglected our defence capability needs for decades."

The inauguration of the ₹22,500-crore six-lane road between Lucknow and Ghazipur followed a slugfest between the BJP and Akhilesh Yadav's SP, which maintained that it was his state government that had begun the project.

▶ FROM PAGE 1 Crypto...

The same principle is being explored to be used for keeping a check on cryptocurrency platforms. The deliberations have also included treating cross-border trade of cryptocurrencies as export and import of services. In case of the evolving use of blockchain technology in several sectors, it must be treated as an export, and the tax rate can be brought down gradually learning from the experience from certain other countries, an official said.

If transactions in virtual currencies, along with other ousiness income that attracts GST, are above ₹20 lakh, then an 18 per cent GST rate would be applicable. These issues will be further streamlined once the plan is finalised. However, if the transactions are crossborder in nature, then the ₹20 lakh threshold will not apply as IGST provisions do not provide for any such ceiling.

Cryptocurrency transactions are not different from any other supplies, and would be governed by provisions related to the threshold limit for registration for applicability of GST, it has been discussed. A draft plan on taxation has also been readied by the Department of Revenue. In case of transactions undertaken in a foreign currency, conversion in accordance with the prevailing exchange rate would be used to compute the value of trade, and in case of a barter trans-

action. GST will have to be

paid by both parties involved. Such a plan is being considered as the finance ministry is grappling to impose an outright ban on cryptocurrencies due to enforcement-related issues on peer-to-peer trade and cross-border transactions, it is learnt.

Also, an exit window for investors would have to be created in case of an outright ban. This will have to provide a legal framework to tax the current and dated transactions according to the ministry's internal discussions. Since a framework will anyway have to be provided to investors. this can be extended by classifying them as intangible assets, and regulating them with appropriate disclosures, the ministry is learnt to have discussed.

Banks...

"A bank's responsibility towards the depositors should, therefore, be weighed against its responsibility towards the shareholders," he said.

HOW TO PLAY

Fill in the grid so that every row, every column and every 3x3 box contains the digits 1 to 9

The board of a private sector bank appoints the managing director and chief executive officer and other board members. These appointments need the RBI's approval. The central government appoints the board members and chief executives of the public sector banks. Their boards mostly remained vacant in the past seven years, with many of them not even having a chairman.

The governor said the RBI had high expectations from the oversight role of the board to ensure good governance.

... business priorities need to be complemented with responsible governance and ethical actions."

Das went on to say the role the board especia lenging the proposals of the management, was critical.

Capital management

The regulator urged the banks to focus on and further improve their capital management processes with a forward-looking, scientific, and prudent approach while highlighting the capacity for loss absorption as an ongoing responsibility of the lending institutions.

"It is expected that banks will exhibit prudent risk-taking behaviour and use their capital efficiently," he said.

He said with part of the regulatory support to borrowers unwinding, some restructured accounts might face insolvency issues over the coming quarters. There was also a word of caution for the lenders on the increasing digitisation of financial services and their collaborations with fintechs. The governor said regulatory expectations from such tieups should be in accordance with a bank's own commercial wisdom and subject to regulatory guardrails, because "the risks ultimately lie in the books of banks and non-banking financial companies (NBFCs)".

Das emphasised timely resolutions of customer complaints. "Thirty days is a very reasonable period for resolving customer complaints," he said in the context of the RBI's ombudsman scheme, which deals with complaints pending with banks and NBFCs for over 30 days.

Banks must be investment-ready

The governor expected the organised corporate sector to play a major role in turning the investment cycle. In this context, banks should be investment-ready when the cycle picks up. "It is incumbent upon a competitive and efficient financial system to identify high productive sectors

and reallocate resources to harness growth opportunities," Das said. "Banks have been prudent in raising capital, and profitability metrics of several banks are also at the highest level in several years."

Sebi...

"It is seen that lately in some of the draft offer documents, issuer companies are proposing to raise fresh funds for objects where object is termed as 'Funding of Inorganic Growth Initiatives', which include future acquisitions, investing in new business initiatives and strategic partnerships by the company without identifying the target acquisition or specific investments proposed to be deployed out of issue proceeds... raising fund for unidentified acquisition leads to some amount of uncertainty in the IPO

objects," Sebi said in the paper. Start-up IPOs such as Zomato, Policy Bazaar, and Paytm had stated objects of the issue as funding acquisi-

tions and growth initiatives. "Sebi wants to limit the end use of funds raised if the objective of IPO proceeds is not specific. It wants to encourage definitive end-use plans from companies going for IPOs. This will help in better monitoring and help safeguard investors," said Supreme Waskar, a corporate lawyer.

The current rules allow companies to raise up to 25 per cent of their IPO proceeds under a vague head of 'general corporate purpose (GCP)'.

Sebi has prescribed a combined limit of 35 per cent of the fresh issue size for deployment on such objects of inorganic growth initiatives and GCP. The cap won't apply if the companies are more specific about their plans at the time of filing their offer document.

The regulator has also raised concerns over high dilution by existing shareholders in the IPO. It has proposed companies where there are no identifiable promoters, those holding over 20 per cent can sell at most half of their pre-IPO holdings. The remaining will remain locked in for at least six months from the IPO.

The move is to ensure more skin in the game and inspire confidence among investors, particularly in the case of lossmaking firms. Sebi has also proposed that at least 50 per cent of the shares allotted in the anchor category remain locked for 90 days instead of the current lock-in of just 30 days. "It is felt that a longer lock-in for anchor investors will provide more confidence to other investors," Sebi said.
