

BASF in Singapore

Overview

At BASF, we create chemistry for a sustainable future. We combine economic success with environmental protection and social responsibility. Our portfolio is organized into six segments: Chemicals, Materials, Industrial Solutions, Surface Technologies, Nutrition & Care and Agricultural Solutions. BASF has been present in Singapore since 1978, supplying customers from various industries, including chemicals, construction, electronics, personal care, and health and nutrition. The company today operates four production facilities in Singapore, as well as Human Nutrition Application Lab Asia Pacific for its nutrition and health business. BASF posted sales to customers in Singapore of about €312 million in 2021 and had 505 employees as of the end of the year.
