Middle Georgia (MidGA) Sites

Address:

Gordon: State Spur 18, Gordon, GA 31031

McIntyre: 1277 Dedrick Road, McIntyre, GA 31054

Start of Operations: 1907

Location: The Middle Georgia (MidGA) sites support both the Catalysts and Performance Chemical Divisions of BASF.

McIntyre Operations are composed of three manufacturing plants, Edgar, Daveyville and Toddsville. All three plants are located at 1277 Dedrick Road just off HWY 57 in McIntyre, Georgia.

Gordon Operations are located at the HWY 18 Spur in Gordon, Georgia.

The minerals operations are set up in strategic locations across Georgia.

Site Director: Scott Brandenburg

Site Manager (CCP): Kris Towers

Number of buildings/plants: Four kaolin process and manufacturing operations and three mining milling operations. The mining and plant operations are connected by 75 miles of pipelines. BASF owns or leases approximately 38,000 acres of land in central Georgia.

Number of Employees: 700 (including on-site contractors)

Products/Uses:

Mining and processing of kaolin products. Kaolin is a naturally occurring mineral found in central Georgia. The products manufactured at the sites are utilized in oil refining as a cracking catalyst and industrial products such as paints (both automotive and construction), rubber, plastics, wire and cable insulation, thermal paper, construction materials, and substrates for catalytic converters

Site Overview:

The BASF sites and operations in central Georgia have a long history of commitment to environmental and safety performance. The sites maintain good relationships with the community, local elected and appointed officials and state regulatory agencies. BASF is the primary employer and financial contributor for the rural area and actively support community organizations. The sites maintain strong working relationship with local emergency responders and support emergency response training needs to make sure personnel are prepared at all times.

Economic Impact:

BASF is one of the largest employers in the area and a major contributor to the local economy.
