## Catalysts Division Headquarters Iselin, NJ

**Address:** 33 Wood Ave., Iselin, NJ 08830

**Date Opened:** 2016

**Location:** BASF's Catalysts Division occupies approximately 40 percent of 33 Wood Ave., an office building situated near the Metropark Train Station. The Garden State Parkway forms the north and east boundaries of Metropark, the train line the west boundary and Wood Ave. the south boundary.

**Number of Employees:** 258

### Principal Activities:

The headquarters of the global Catalysts Division houses BASF's Mobile Emissions Catalysts, Precious Metal Services, and New Business Development business units, as well as the division's staff functions. Although BASF's Process Catalysts business is headquartered in Ludwigshafen, Germany, and Battery Materials business is headquartered in Shanghai, China some team members also work at the 33 Wood Ave. location.

### Community Relations:

In addition to conducting annual blood drives, Iselin employees are active fundraisers and volunteers for the following organizations:

- Special Olympics New Jersey
- Children's Specialized Hospital
- American Cancer Society
