We collect or receive the following types of information:

Personal Information

We may collect your personal information, such as name, company name, IP address and email or physical address, from you directly, or indirectly, through business relationships, or from publicly available online sources. We will collect, use, disclose, transfer, retain or otherwise process your personal information in accordance with this Privacy Policy.

If you purchase our products or services, a third-party payment processor may receive access to your payment information (such as credit card number and billing address) for the sole purpose of processing transactions. Any such payment processors will be bound to maintain all such personal information in a secure environment, keep it confidential and not use or disclose such information for any purpose other than to validate purchases.

Cookies

We collect information using “cookie” technology. Cookies are small packets of data that a website stores on your computer’s or mobile device’s hard drive (or other storage medium) so that your computer or device will “remember” information about your visit. We use both first and third-party session cookies and persistent cookies. Where available, the ability to accept cookie placement may be found in a cookie banner first displayed on the Website and, if available, in the cookie preferences.

Below is a general primer on session and persistent cookies; information collected by cookies depends on its particular purpose and the cookie preferences, if available, may have additional information. For more information, please see Information from Third-Party Analytics Providers below.

- **Session Cookies:** We use session cookies to make it easier for you to navigate our Website and other BASF websites and platforms. A session ID cookie expires when you close your browser.
- **Persistent Cookies:** A persistent cookie remains on your hard drive for an extended period of time or until you delete them. You can remove persistent cookies by following directions provided in your web browser’s “help” file. To the extent we provide a log-in portal or related feature on our Website or other BASF websites or platforms, persistent cookies can be used to store your passwords so that you do not have to enter it more than once. Persistent cookies also enable us to track and target the interests of our visitors to personalize the experience on our Website or other BASF websites or platforms.

In some cases, we may associate information that you have provided to us (e.g., email address) with the cookies that we use. In addition to facilitating the purposes described above, this is useful in understanding your engagement with other content related to our Website or other BASF websites or platforms (e.g., email open rates, URL click-throughs).

If you do not want us to place a cookie on your hard drive, you may be able to turn that feature off on your computer or mobile device and, where available, may decline the placement using a cookie banner. Please consult your browser’s documentation for information on how to do this and how to delete persistent cookies via your browser. However, if you decide not to accept cookies from us, certain aspects of our Website or other BASF websites or platforms may not function properly or as intended.

Access to Specific Information and Data Portability Rights

You have the right to request that BASF disclose certain information to you about our collection and use of your Personal Information over the past 12 months. If you wish to exercise either your right to access or your data portability right, you must submit a verifiable consumer request (see **Exercising Access, Data Portability, and Deletion Rights**).

Once we receive and confirm your verifiable consumer request (see **Verification Process and Response Timing and Format** sections below), we will disclose to you any of the following to the extent included in your request:

- The Categories of Personal Information we collected about you.
- The Categories of Sources for the Personal Information we collected about you.
- Our Business Purpose for collecting or disclosing that Personal Information.
- The Categories of third parties with whom Personal Information may have been shared.
- The specific pieces of Personal Information we collected about you (also called a data portability request).
- If we sold or disclosed your Personal Information for a Business Purpose, two separate lists disclosing:
 - sales, identifying the Personal Information categories that each Category of third party purchased; and
 - disclosures for a Business Purpose, identifying the Categories of Personal Information that each Category of third party obtained.

Deletion Request Rights

You have the right to request that BASF delete your Personal Information, subject to certain exceptions. If you wish to exercise this right, you must submit a verifiable consumer request (see **Exercising Access, Data Portability, and Deletion Rights**).

Once we receive and confirm your verifiable consumer request (see **Verification Process and Response Timing and Format** sections below), we will delete (and direct our service providers to delete) your Personal Information from our records, unless an exception or other grounds to deny the request to delete applies under applicable law. In the event an exception applies, we will notify you of such exception or grounds when we respond to your request.

Exercising Access, Data Portability and Deletion Rights

To exercise the access, data portability, and deletion rights described above, please submit a verifiable consumer request to us by one of the following methods:

- Website. A consumer may submit a request by completing the [*Consumer Request Form*](#).
- Calling us at 800-831-2191. A consumer may submit a request by calling the number to receive a voicemail message. BASF will call back to provide more instructions and procure verification information.

Only you, or someone legally authorized to act on your behalf, may make a verifiable consumer request related to your Personal Information. You may also make a verifiable consumer request on behalf of your minor child.

You may only make a verifiable consumer request for access or data portability twice within a 12-month period.

Verification Process

A verifiable consumer request must:

- Provide sufficient information in response to the website/email/phone verification questions asked in the creation of your request that allows us to reasonably verify you are the person about whom we collected Personal Information or an authorized representative of such a person. In the event we need additional information we will reach out to you personally to ask additional questions.
- Describe your request with sufficient detail that allows us to properly understand, evaluate, and respond to it.

We will only use Personal Information provided in a verifiable consumer request to verify the requestor's identity or authority to make the request. BASF or a third party on behalf of BASF may follow up with you to determine whether a request is a verifiable consumer request under applicable law.

If we cannot verify your identity or authority to make the request and confirm the Personal Information relates to you, BASF will deny the consumer request in whole or in part and will not to disclose the information requested or, as applicable, will not delete the information requested. BASF will respond to any such consumer request with a denial and will also explain why it has no reasonable method by which it can verify the identity of the requestor.

However, if a consumer request that seeks disclosure of specific pieces of Personal Information is denied because we cannot verify the identity of the person making the request under the applicable verification rules under the CCPA, then we shall treat the request as one that seeks the disclosure of the categories of Personal Information and apply the verification rules in the CCPA applicable to requests for disclosure of categories of Personal Information.

If a consumer request that seeks disclosure of categories of Personal Information is denied because we cannot verify the identity of the person making the request under the applicable verification rules in the CCPA regulation, then we shall provide or direct the requestor to our general business practices regarding the collection, maintenance and sale of Personal Information as set forth in this Privacy Policy.

Response Timing and Format

We will confirm receipt of a verifiable consumer request within ten (10) days of its receipt.

We will deliver our written response by mail or electronically, at your option. If you do not indicate a preference for delivery, BASF will use its discretion in choosing the method for delivery of the information.

Any disclosures we provide will only cover the 12-month period preceding the verifiable consumer request's receipt. The response we provide will also explain the reasons we cannot comply with a request, if applicable. For data portability requests, we will select a format to provide your Personal Information that is readily useable and should allow you to transmit the information from one entity to another entity without hindrance.

We do not charge a fee to process or respond to your verifiable consumer request unless it is excessive, repetitive, or manifestly unfounded.
